

Best Huawei H19-315-ENU Study Material & Exam H19-315-ENU Pass4sure

BONUS!!! Download part of Pass4suresVCE H19-315-ENU dumps for free: https://drive.google.com/open?id=19JH_wKKGDs77tz5Ry89ys7RjaKJYwXIY

Our H19-315-ENU learning quiz can lead you the best and the fastest way to reach for the certification and achieve your desired higher salary by getting a more important position in the company. Because we hold the tenet that low quality H19-315-ENU exam materials may bring discredit on the company. Our H19-315-ENU learning questions are undeniable excellent products full of benefits, so our H19-315-ENU exam materials can spruce up our own image and our exam questions are your best choice.

To prepare for the HCSA-Presales-Transmission & Access certification exam, candidates should have a solid understanding of basic networking principles and concepts. Huawei offers a range of training courses and study materials to help candidates prepare for the exam, including online courses, self-study guides, and practice exams.

Exam H19-315-ENU Pass4sure & H19-315-ENU Dump Collection

If you are determined to purchase our H19-315-ENU valid exam collection materials for your companies, if you pursue long-term cooperation with site, we will have some relate policy. Firstly we provide one-year service warranty for every buyer who purchased H19-315-ENU valid exam collection materials. Every buyer can share one year free updates and preparation assist. Secondly if you want to get the free updates not just for one year, you want to still get the new version of Huawei H19-315-ENU valid exam collection materials after one year, you share 50% discount for the second year.

Huawei H19-315-ENU (HCSA-Presales-Transmission & Access) Certification Exam is designed for individuals who want to enhance their skills and knowledge in the field of transmission and access. H19-315-ENU exam will test your understanding of Huawei's transmission and access solutions, including network planning, design, implementation, and maintenance. It is intended for sales engineers, technical support engineers, and network planners who work with transmission and access solutions.

Huawei HCSA-Presales-Transmission & Access Sample Questions (Q104-Q109):

NEW QUESTION # 104

What are the ways to reduce the transmission delay in Huawei's financial data center transmission solution? (Multiple choice)

- A. Optimizing Fiber Paths
- B. Various FEC packages are adjustable
- C. DCM free
- D. Optimize chip processing time

Answer: A,B,C,D

NEW QUESTION # 105

AES-128 is the encryption algorithm used by GPON for downstream.

- A. True
- B. False

Answer: B

Explanation:

The statement is incorrect because GPON (Gigabit Passive Optical Network) does not use AES-128 for downstream encryption. Instead, GPON uses AES-128 for upstream encryption to secure data transmitted from the Optical Network Unit (ONU) to the Optical Line Terminal (OLT). Downstream traffic in GPON is broadcasted to all ONUs, and encryption is not applied in this direction. The encryption mechanism ensures that only authorized ONUs can decrypt the upstream data, enhancing security in the network.

NEW QUESTION # 106

OSN 9800 M24 can be used for trunk or aggregation network, for high-capacity, long-distance optical transmission solutions.

- A. FALSE
- B. TRUE

Answer: B

NEW QUESTION # 107

Huawei use Huawei's self-developed chips for the access to MA5800 series products.

- A. FALSE
- B. TRUE

Answer: B

NEW QUESTION # 108

OptiXtrans DC908 has 8 slots, each slot is 5U wide.

- A. True
- B. False

Answer: B

Explanation:

The statement is False. The OptiXtrans DC908 does not have 8 slots, nor are the slots 5U wide. Instead, the DC908 is a compact 2U device with a fixed configuration, meaning it does not use modular slots like some other optical transport platforms.

Key characteristics of the DC908 include:

* Fixed Configuration: The DC908 is designed as an all-in-one device, integrating optical modules, amplifiers, and control units into a single chassis.

* Compact Design: Its 2U height and shallow depth (compatible with 600mm racks) make it ideal for space-constrained environments.

* High Capacity: Despite its small size, the DC908 supports up to 8 Tbps per fiber pair, leveraging advanced technologies like 400G wavelengths.

The confusion may arise from other devices in the OptiXtrans series that use modular designs, but the DC908 itself is not slot-based.

NEW QUESTION # 109
