Some of them who have passed the Maryland Insurance Administration Certification Accident-and-Health-or-Sickness-Producer Exam also use Prep4pass's products. Selecting Prep4pass means choosing a success

### Maryland Insurance Administration Maryland Accident and Health or Sickness Producer Series 20-24 Exam Sample Questions (Q35-Q40):

#### NEW QUESTION # 35

When a producer sells an individual accident and health insurance policy, how is the initial premium usually paid?

- **A. The producer collects and forwards it to the insurer**
- B. The insurer bills the applicant when the application is approved
- C. The insurer utilizes the applicant's automatic bank draft authorization
- D. The applicant sends it directly to the insurer with the application

**Answer: A**

Explanation:

Producers (Insurance Article, § 10-126) typically collect the initial premium with the application and forward it to the insurer, streamlining the process, unlike direct payment, billing, or bank drafts, which are less common initially.

References: Maryland Insurance Article, § 10-126; MIA producer procedures.

#### NEW QUESTION # 36

When the insured's willful failure to disclose a material fact at the time of application is discovered by the insurer shortly after the policy is issued:

- A. The insurer may cancel the policy only at the expiration or renewal date
- **B. The policy is voidable at the insurer's option**
- C. The policy is automatically void
- D. The insurer must continue the insurance policy in full force

**Answer: B**

Explanation:

A material misrepresentation (Insurance Article, § 12-206) allows the insurer to void the policy within the contestability period (typically 2 years) if willful. It's not automatically void, nor must it continue or wait until renewal; the insurer decides based on materiality.

References: Maryland Insurance Article, § 12-206; MIA misrepresentation rules.

#### NEW QUESTION # 37

Which type of Medicare Supplement information can be used without prior state approval?

- A. Radio announcements approved by the insurer
- B. Television advertisements approved by the insurer
- **C. Government publications**
- D. Insurance company brochures

**Answer: C**

Explanation:

Medigap marketing materials (Insurance Article, § 15-912) require MIA approval, except for government publications (e.g., CMS's "Medicare & You"), which are exempt as official federal resources. Insurer- approved ads still need state review.  
References: Maryland Insurance Article, § 15-912; MIA Medigap advertising rules.

#### NEW QUESTION # 38

A certificate of insurance in a group accident and health plan is:

- A. A binding contract between the employee and the insurer
- **B. Evidence of the employee's insurance coverage**
- C. A binding contract between the employer and the insurer
- D. Issued to the employer for each insured location

**Answer: B**

Explanation:

The certificate (Insurance Article, § 15-1207) provides employees with evidence of coverage under the group plan, not a binding contract (master policy) or employer-specific by location. It summarizes benefits for clarity.

References: Maryland Insurance Article, § 15-1207; MIA group insurance rules.

#### NEW QUESTION # 39

Which statement describes the most likely federal income tax treatment of death benefits paid to the family of an insured under an accident and health insurance policy?

- A. All benefits will be taxable
- B. Some benefits will usually be taxable
- C. Taxation depends on the beneficiary's tax bracket
- **D. Benefits will not be taxable**

**Answer: D**

Explanation:

Death benefits from accident and health policies (e.g., accidental death, IRC § 101) are generally tax-free to beneficiaries. Partial or full taxation is rare unless tied to taxable settlements, and tax brackets don't determine this exemption.

References: IRC § 101; MIA tax treatment guidelines.

#### NEW QUESTION # 40

.....

While all of us enjoy the great convenience offered by Accident-and-Health-or-Sickness-Producer information and cyber networks, we also found ourselves more vulnerable in terms of security because of the inter-connected nature of information and cyber networks and multiple sources of potential risks and threats existing in Accident-and-Health-or-Sickness-Producer information and cyber space.
