You can have a comprehensive understanding of our Manufacturing-Cloud-Professional useful test guide after you see this information.

Salesforce Manufacturing Cloud Accredited Professional Exam Sample Questions (Q59-Q64):

NEW QUESTION # 59

What are some key considerations in ensuring an efficient and successful global rollout of Manufacturing Cloud?

- A. Rollouts must be phased rather than done simultaneously because Manufacturing Cloud has regional and data volume limitations.
- B. Manufacturers may have one or many versions of core systems like an Enterprise Resource Planning (ERP) that will require integrations and design considerations that vary.
- C. There are language requirements, legal variation by geography, and cultural differences.

Answer: B,C

Explanation:

n: When planning a global rollout of Manufacturing Cloud, some key considerations are:

* Manufacturers may have one or many versions of core systems like an Enterprise Resource Planning (ERP) that will require integrations and design considerations that vary. Manufacturing Cloud can integrate with existing ERP systems and Order Management Systems (OMS) by using APIs, the MuleSoft Accelerator for Manufacturing, or other middleware solutions¹. However, different versions of ERP systems may have different data models, business processes, and security requirements that need to be taken into account when designing and implementing the integrations².

* There are language requirements, legal variation by geography, and cultural differences. Manufacturing Cloud supports multiple languages and currencies, but it also needs to comply with the local laws and regulations of each country or region where it operates¹. For example, there may be different tax rules, privacy policies, or data protection standards that affect how Manufacturing Cloud handles and stores customer data³. Additionally, there may be cultural differences in how customers and partners

* communicate, negotiate, and collaborate, which may require adjustments in the user interface, workflows, and analytics of Manufacturing Cloud⁴. NEW QUESTION # 60

In Tableau CRM for manufacturing which security predicate ManagerId

- A. Row level Sharing for territories
- B. use Role Hierarchy
- C. Manufacturing Cloud Hierarchy
- D. Account Hierarchy
- E. Use Manager Hierarchy

Answer: E

Explanation:

Explanation

A security predicate is a filter that restricts access to data based on user attributes. In Tableau CRM for manufacturing, you can use the Manager Hierarchy security predicate to limit data access based on the user's manager. For example, if you want to show only the sales agreements that belong to the user or their direct reports, you can use the Manager Hierarchy security predicate with the ManagerId field. This way, each user can see only the data that is relevant to them and their team. NEW QUESTION # 61

Badger Power wants to have a complete picture of both their run-rate and net-new business. Which two Manufacturing Cloud functions should be configured?

- A. Product Forecast
- B. Collaborative Forecast
- C. Account Based Forecasting
- D. Opportunity Funnel
- E. Sales Agreements

Answer: C,E

NEW QUESTION # 62

How does the time series projection feature in Tableau CRM for manufacturing provide data insights?

- A. It tracks product growth trends
- B. It tracks performance against account manager targets
- C. It tracks account revenue growth against goals
- D. It tracks inventory utilization for a defined time frame
- E. It tracks against product margin targets

Answer: A

Explanation:

The time series projection feature in Tableau CRM for manufacturing is designed to track product growth trends. This functionality utilizes statistical order forecasting predictions generated using time series forecasting models, which include order quantity values and order revenue values with a specified confidence level. By focusing on product growth trends, this feature enables manufacturers to analyze and predict future product performance, facilitating informed decision-making and strategic planning.

NEW QUESTION # 63

Many of Universal Containers' management teams must travel to different production facilities as part of their regular work. They require access to features on their desktop and mobile devices to view and approve sales agreements.

What is an important consideration to keep in mind when preparing and conducting testing?

- A. When testing Manufacturing Cloud for mobile, a Wi-Fi connection is required.
- B. Sales Agreement features are not available on mobile devices, but approvals can be done via email.
- **C. The Mobile User permission must be assigned to the test users.**

Answer: C

Explanation:

Explanation

The Mobile User permission is required for users to access Salesforce features on their mobile devices, such as the Salesforce app. This permission enables users to log in to the app and sync data between their devices and Salesforce. Therefore, when preparing and conducting testing for Manufacturing Cloud for mobile, it is important to assign the Mobile User permission to the test users, so that they can view and approve sales agreements on their mobile devices. NEW QUESTION # 64

.....

There are three versions of Manufacturing Cloud Accredited Professional Exam test torrent—PDF, software on pc, and app online, the most distinctive of which is that you can install Manufacturing-Cloud-Professional test answers on your computer to simulate the real exam environment, without limiting the number of computers installed. Through a large number of simulation tests, you can rationally arrange your own Manufacturing-Cloud-Professional exam time, adjust your mentality in the examination room, find your own weak points and carry out targeted exercises. But I am so sorry to say that Manufacturing-Cloud-Professional Test Answers can only run on Windows operating systems and our engineers are stepping up to improve this. In fact, many people only spent 20-30 hours practicing our Manufacturing-Cloud-Professional guide torrent and passed the exam. This sounds incredible, but we did, helping them save a lot of time.
