## API API-510 Vce Download | API-510 Training Kit

You may be complaining that your work abilities can't be recognized or you have not been promoted for a long time. But if you try to pass the API-510 exam you will have a high possibility to find a good job with a high income. That is why I suggest that you should purchase our API-510 questions torrent. Once you purchase and learn our API-510 Exam Materials, you will find it is just a piece of cake to pass the exam and get a better job. You can read the introduction of our API-510 exam questions carefully before your purchase. We provide the best service to you and hope you will be satisfied.

## API Pressure Vessel Inspector Sample Questions (Q87-Q92):

**NEW QUESTION # 87**

When both the ownership and the location of a pressure vessel are changed, what must be done?

- A. The vessel must be inspected and certified by the original vessel manufacturer
- **B. A new nameplate shall be attached to the vessel**
- C. The vessel must be inspected externally and certified by the owner/user
- D. The vessel must be externally and internally inspected prior to re-use

**Answer: B**

**NEW QUESTION # 88**

What can be done to extend the life of a vessel with a corroded area in the shell plate 6 inches from the weld, a joint efficiency of less than 1, and a corrosion thickness currently near the minimum required thickness?

- A. Recalculate  $t_{\text{minimum}}$  for current operating conditions using  $E = 1$ .
- **B. Monitor the thickness during the run**
- C. Recalculate  $t_{\text{minimum}}$  for current operating conditions using  $E < 1$ .
- D. Recalculate  $t_{\text{minimum}}$  for design conditions using  $E = 1$ .

**Answer: B**

**NEW QUESTION # 89**

The pressure vessel owner/user is required to maintain a permanent and progressive record. These records shall contain all but which of the following?

- **A. Names of all authorized inspection personnel**
- B. Operating and inspection history
- C. Repair, alteration, and re-rating information
- D. Construction and design information

**Answer: A**

**NEW QUESTION # 90**

After an alteration to a pressure vessel, in lieu of a hydrostatic test, special inspection procedures will be carried out. What must be done prior to carrying out the special inspection procedures?

- A. Check with the NBIC Authorized inspector
- B. Consult with the chief inspector of the jurisdiction
- **C. Make certain it is permitted by any jurisdictional rules that may exist and consult with an engineer experienced in pressure vessel design and the Authorized Pressure Vessel Inspector**
- D. Review all NDE procedures prior to commencement of the NDE used to waive the hydrostatic test requirement

**Answer: C**

**NEW QUESTION # 91**

The remaining life of a vessel is 24 years. What is the maximum interval for the internal inspection?

- A. 6 years
- **B. 10 years**
- C. 12 years
- D. 5 years

**Answer: B**

**NEW QUESTION # 92**
