NEW QUESTION # 57
Scenario: A Citrix Administrator previously configured a Citrix Virtual Desktops Site to use evaluation licenses. The administrator then installed valid advanced licenses on the Citrix License Server and confirmed that licenses show correctly in the licensing console. However, a user reports an issue about logging on to the published desktop. The user receives an error message stating that

the evaluation license is about to expire. What should the administrator do to fix this issue?

- A. Verify the host name entry in the license file.
- B. Remove the evaluation license.
- C. Restart the License service.
- D. Change the product edition in Citrix Studio.

Answer: D

Explanation:
After installing valid licenses on the License Server, the Site must be configured in Citrix Studio to use the correct product edition (for example, Advanced, Enterprise, or Premium). If it remains set to "evaluation," users will continue to see the expiration warning. Updating the product edition in Studio resolves the issue.
