問題 #41

The head of which finance function is most committed to streamlining operations through automation?

- A. Accounting and Controlling
- B. Sales / Revenue
- C. Audit, Compliance, and Tax
- **D. Treasury and Shared Service Operations**

答案：D

解題說明：

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

While all finance functions benefit from efficiency, the head of Treasury and Shared Service Operations is typically the most committed to streamlining operations through automation. Shared Service Centers (SSCs) are designed specifically to centralize and

process high volumes of transactional data-such as accounts payable, accounts receivable, and travel expenses-across the entire enterprise. For these leaders, "efficiency is the product." Automation in Treasury and Shared Services is critical because manual processing in these areas leads to high operational costs, human error, and liquidity risks. By implementing solutions like SAP Cash Application (for automated payment matching) and SAP Multi-Bank Connectivity (for automated bank communications), these leaders can significantly reduce the cost per transaction and shorten processing times.

In the Treasury function, automation ensures that cash visibility is instantaneous, allowing for more effective liquidity management and risk mitigation. While Accounting and Controlling (Option B) also seek automation, their focus is often more on data integrity and closing speed, whereas Shared Services and Treasury are fundamentally driven by the operational "throughput" and cost-efficiency that only high-level automation can provide.
