

# 2026 1Z0-1072-25: Valid Oracle Cloud Infrastructure 2025 Architect Associate Valid Test Camp

P.S. Free 2026 Oracle 1Z0-1072-25 dumps are available on Google Drive shared by Lead2PassExam: [https://drive.google.com/open?id=1jXfCE8in\\_c0E8acFE6dWlYk-Q2EailJ](https://drive.google.com/open?id=1jXfCE8in_c0E8acFE6dWlYk-Q2EailJ)

Our 1Z0-1072-25 learn materials include all the qualification tests in recent years, as well as corresponding supporting materials. Such a huge amount of database can greatly satisfy users' learning needs. Not enough valid 1Z0-1072-25 test preparation materials, will bring many inconvenience to the user, such as delay learning progress, these are not conducive to the user pass exam, therefore, in order to solve these problems, our 1Z0-1072-25 Certification material will do a complete summarize and precision of summary analysis to help you pass the 1Z0-1072-25 exam with ease.

The desktop Oracle 1Z0-1072-25 practice exam software has all specifications of the web-based format. It is offline software that enables users to go through the Selling Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) practice exam without having any internet connection. Windows computers support the desktop Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) practice exam software.

## Go With Oracle 1Z0-1072-25 PDF Questions [2026] For Instant Success

The Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) is available in three easy-to-use forms. The first one is 1Z0-1072-25 dumps PDF format. It is printable and portable. You can print 1Z0-1072-25 questions PDF or access them via your smartphones, tablets, and laptops. The PDF format can be used anywhere and is essential for students who like to learn on the go.

## Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q21-Q26):

### NEW QUESTION # 21

Which Oracle Cloud Infrastructure (OCI) Identity and Access Management (IAM) policy is invalid?

- A. Allow group 'Default/A-Admins' to manage all-resources in compartment Project-A
- B. Allow dynamic-group 'Default/FrontEnd' to manage instance-family in compartment Project-A
- C. Allow group 'Default/A-Developers' to create volumes in compartment Project-A
- D. Allow any-user to inspect users in tenancy

**Answer: D**

Explanation:

In Oracle Cloud Infrastructure (OCI), Identity and Access Management (IAM) policies are used to control access to resources. The policy in option C is invalid because "any-user" is not a valid principal in OCI IAM policies. OCI policies can only grant permissions to groups or dynamic groups, but not to arbitrary users.

Here's an explanation for each option:

- A . Allow dynamic-group 'Default'/FrontEnd' to manage instance-family in compartment Project-A: This is valid. It grants the dynamic group 'FrontEnd' the ability to manage instances within the Project-A compartment.
- B . Allow group 'Default'/A-Admins' to manage all-resources in compartment Project-A: This is valid. It provides full administrative access to all resources in the Project-A compartment for the 'A-Admins' group.
- C . Allow any-user to inspect users in tenancy: This is invalid because OCI does not allow the use of "any-user" in policies. You must specify a valid group or dynamic group to define permissions.
- D . Allow group 'Default'/A-Developers' to create volumes in compartment Project-A: This is valid. It permits the 'A-Developers' group to create volumes in the Project-A compartment.

OCI Policy Reference

## NEW QUESTION # 22

What happens to the performance level of a volume when it is detached from an instance?

- A. The performance level is adjusted to Balanced.
- **B. The performance level is adjusted to Lower Cost (0 VPU/GB).**
- C. The performance level is adjusted to Higher Performance.
- D. The performance level remains unchanged.

**Answer: B**

Explanation:

In Oracle Cloud Infrastructure (OCI), when a block volume is detached from an instance, its performance level is automatically adjusted to the "Lower Cost" tier, which provides 0 VPUs (Volume Performance Units) per GB. This adjustment helps reduce costs when the block volume is not actively being used by a compute instance.

Key Points:

Volume Performance Levels: OCI offers various performance tiers for block volumes, including "Higher Performance," "Balanced," and "Lower Cost." These tiers determine the level of IOPS (Input/Output Operations Per Second) and throughput available to the volume.

Automatic Adjustment: When a block volume is detached from an instance, OCI automatically optimizes the cost by switching the volume to the "Lower Cost" performance tier. This tier offers minimal performance, suitable for data that is not actively accessed.

Cost Management: This automatic adjustment is beneficial for managing costs, as it prevents users from incurring unnecessary charges for higher performance levels when the volume is not in use.

## NEW QUESTION # 23

Which statement is true about File System Replication in Oracle Cloud Infrastructure (OCI)?

- A. Only a file system that has been exported can be used as a target file system.
- B. You can replicate the data in one file system to another file system only in the same region.
- C. You cannot specify a replication interval when you create the replication resource.
- **D. You can replicate the data in one file system to another file system in the same region or a different region.**

**Answer: D**

Explanation:

File System Replication in Oracle Cloud Infrastructure (OCI) allows you to replicate data from one file system to another either within the same region or across different regions. This capability is particularly useful for disaster recovery, data protection, and global data distribution scenarios.

Cross-Region Replication: The replication feature enables you to create a copy of your file system in a different region, ensuring that your data is available even in the event of a regional failure.

Same-Region Replication: You also have the option to replicate data within the same region, which can be useful for scenarios such as high availability and local backups.

### NEW QUESTION # 24

How can an organization securely grant a third-party application access to specific OCI resources?

- A. By configuring the application to utilize Instance Principal
- B. By implementing OAuth 2.0 with the application
- C. By creating an IAM policy granting full access to the tenancy
- D. By sharing user credentials for an OCI administrator

**Answer: A**

Explanation:

To securely grant a third-party application access to specific Oracle Cloud Infrastructure (OCI) resources, the recommended approach is to configure the application to use Instance Principal. This method allows the application to authenticate directly with OCI services without needing to manage sensitive credentials like passwords or API keys.

Instance Principals: Enable compute instances to directly make API calls against OCI services, inheriting permissions through IAM policies. This setup is more secure than sharing user credentials, as it avoids hardcoding credentials within the application and leverages OCI's native security features.

Oracle Cloud Infrastructure Documentation: Instance Principals

### NEW QUESTION # 25

Why was SSH still possible after port 22 was removed from the Security Lists?

- A. The VCN where that compute instance resides still has a route rule.
- B. The VNIC of that compute instance is attached to a Cluster Network.
- C. The VNIC of that compute instance is attached to a Network Security Group (NSG).
- D. The VCN where that compute instance resides still has an Internet Gateway.

**Answer: C**

Explanation:

Even after removing port 22 from the Security Lists, SSH was still possible because the Virtual Network Interface Card (VNIC) of the compute instance is attached to a Network Security Group (NSG).

NSGs: NSGs provide a more flexible and granular way to manage security rules compared to Security Lists. They allow you to apply security rules directly to VNICs associated with resources such as compute instances. If an NSG allows traffic on port 22, SSH will still be possible, regardless of the Security List settings.

### NEW QUESTION # 26

.....

We often regard learning for 1Z0-1072-25 exam as a torture. Actually, learning also can become a pleasant process. With the development of technology, learning methods also take place great changes. With our 1Z0-1072-25 study materials, all of your study can be completed on your computers because we have developed a kind of software which includes all the knowledge of the exam. The simulated and interactive learning environment of our 1Z0-1072-25 Practice Engine will greatly arouse your learning interests.

**1Z0-1072-25 Actual Test:** <https://www.lead2passexam.com/Oracle/valid-1Z0-1072-25-exam-dumps.html>

The affordable, latest and effective 1Z0-1072-25 Actual Test - Oracle Cloud Infrastructure 2025 Architect Associate training material is just designed for you, Fragmented time can be made full use of to prepare for 1Z0-1072-25 test, Oracle 1Z0-1072-25 Valid Test Camp These practice exams are customizable and help you counter exam anxiety, 1Z0-1072-25 Actual Test - Oracle Cloud Infrastructure 2025 Architect Associate has a big demand in the field of 1Z0-1072-25 Actual Test and gives a push to your career, Our 1Z0-1072-25 study guide materials could bring huge impact to your personal development, because in the process of we are looking for a job, hold a 1Z0-1072-25 certificate you have more advantage than your competitors, the company will be a greater probability of you.

The purpose of the present section is to study several other 1Z0-1072-25 properties of permutations, and to consider the general case where equal elements are allowed to appear.

This is where things get very different, depending on the webserver, Study 1Z0-1072-25 Material configuration, and technologies used, The affordable, latest and effective Oracle Cloud Infrastructure 2025 Architect Associate training material is just designed for you.

## **First-Grade Oracle 1Z0-1072-25: Oracle Cloud Infrastructure 2025 Architect Associate Valid Test Camp - Pass-Sure Lead2PassExam 1Z0-1072-25 Actual Test**

Fragmented time can be made full use of to prepare for 1Z0-1072-25 test, These practice exams are customizable and help you counter exam anxiety, Oracle Cloud Infrastructure 2025 Architect Associate has a big demand in the field of Oracle Cloud Solutions Infrastructure and gives a push to your career.

Our 1Z0-1072-25 study guide materials could bring huge impact to your personal development, because in the process of we are looking for a job, hold a 1Z0-1072-25 certificate you have more advantage than your competitors, the company will be a greater probability of you.
