Oracle 1Z0-947 Pdf Demo Download - Online 1Z0-947 Training

In order to let you have a deep understanding of our 1Z0-947 learning guide, our company designed the free demos for our customers. We will provide you with free demos of our study materials before you buy our products. If you want to know our 1Z0-947 training materials, you can download them from the web page of our company. If you use the free demos of our 1Z0-947 study engine, you will find that our products are very useful for you to pass your 1Z0-947 exam and get the certification.

Oracle GoldenGate 19c Implementation Professional Sample Questions (Q47-Q52):

NEW QUESTION # 47

How is Oracle GoldenGate different from simple replication?

- A. It uses trigger-based data capture
- B. It uses log-based CDC and supports real-time, heterogeneous replication
- C. It only supports homogeneous databases
- D. It supports only batch-based replication

Answer: B

Explanation:

GoldenGate captures changes directly from redo/transaction logs and supports various databases in real-time.

NEW QUESTION # 48

You must view more than just the operation type and hex value of the data in a trail. Which setting in Logdump allows you to view the token data, LOGCSN, and TRANID in the trail?

- A. ggstoken detail
- B. ghdr on

- C. detail data
- D. fileheader on

Answer: C

Explanation:

The detail data command in Logdump provides complete visibility into the data area of trail records, including tokens, LOGCSN, TRANID, and column-level changes. It is the official way to see in-depth record details per Oracle documentation.

NEW QUESTION # 49

You made changes to the GLOBALS parameter file using an editor on the OS. After saving your changes, you noticed the changes did not take effect. What would be the reason for this?

- A. You did not MGR so the changes can take effect.
- B. You did not stop all replication processes running in so the changes can take effect.
- C. You did not make changes on the OS logged in as the GoldenGate Administrator user.
- D. You did not restart GGSCI.

Answer: D

Explanation:

This is because GLOBALS parameters are read only at GGSCI startup, unlike other dynamic parameter files (e.g., Extract or Replicat configs). ?? So without restarting GGSCI, your changes won't be recognized.

NEW QUESTION # 50

If multiple GoldenGate processes are accessing a set of trail files, which process should include the PURGEOLDEXTRACTS parameter to trigger trail file clean-up?

- A. Extract and Replicat
- B. Extract
- C. Replicat
- D. Manager

Answer: D

Explanation:

The PURGEOLDEXTRACTS parameter should be configured in the Manager (MGR) process, as it is responsible for monitoring trail file usage across GoldenGate processes and safely deleting files no longer needed by any Extract or Replicat.

NEW QUESTION # 51

What is the role of the Replicat process?

- A. Backs up trail files
- B. Applies captured changes to the target database
- C. Captures changes from the source DB logs
- D. Routes data through Distribution Server

Answer: B

Explanation:

Replicat reads change data from Oracle GoldenGate trails and applies it to a target database using SQL commands.

NEW QUESTION # 52

.....

Once you enter into our interface, nothing will disturb your learning the 1Z0-947 training engine except the questions and answers. So all your attention will be concentrated on study. At the same time, each process is easy for you to understand. There will have

small buttons on the 1Z0-947 Exam simulation to help you switch between the different pages. It does not matter whether you can operate the computers well. Our 1Z0-947 training engine will never make you confused.
