ActualTorrent offers actual ISO/IEC 27001 (2022) Foundation Exam Exam Questions that make your success possible on the first try. ActualTorrent has helped many customers gain high scores. Before purchasing, you can download and try any ISO-IEC-27001-Foundation Exam Questions format. ISO/IEC 27001 (2022) Foundation Exam ISO-IEC-27001-Foundation with excellent pass rate.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51

Which information is required to be included in the Statement of Applicability?

- A. The justification for including each information security control
- B. The criteria against which risk will be evaluated
- C. The risk assessment approach of the organization
- D. The scope and boundaries of the ISMS

Answer: A

Explanation:

Clause 6.1.3 (d) requires that the organization "produce a Statement of Applicability that contains the necessary controls (see Annex A), and justification for inclusions, whether they are implemented or not, and the justification for exclusions." This is the defining requirement of the SoA: it documents which Annex A controls are relevant, which are implemented, and the justification for inclusion/exclusion. While the ISMS scope (A) is documented in Clause 4.3, and risk evaluation criteria (C) are defined in Clause 6.1.2, these do not belong in the SoA. The SoA does not describe the full risk assessment approach (B); that is part of the risk assessment methodology.

Therefore, the mandatory requirement for the SoA is justification for including (or excluding) each information security control.

NEW QUESTION # 52

Which attribute is NOT a required focus of continual ISMS improvement?

- A. Suitability
- B. Importance
- C. Effectiveness
- D. Adequacy

Answer: B

Explanation:

Clause 10.2 (Continual Improvement) specifies that the organization must "continually improve the suitability, adequacy and effectiveness of the information security management system." This makes it clear that three attributes are explicitly required to be addressed:

* Suitability: ensuring the ISMS continues to meet organizational needs in changing contexts.

* Adequacy: ensuring the ISMS covers the necessary scope and provides sufficient control coverage.

* Effectiveness: ensuring the ISMS achieves intended outcomes in protecting information security.

The word "importance" is not part of the continual improvement requirement. Importance is implicit in prioritization of risks and actions, but it is not a required continual improvement attribute in ISO/IEC 27001.

Therefore, option D: Importance is the correct choice as it is not specified.

This distinction reinforces that continual improvement is not about subjective importance, but about systematic enhancement of the ISMS's suitability, adequacy, and effectiveness.

NEW QUESTION # 53

What international standard provides guidance on the integration of ISO/IEC 27001 and the IT Service Management standard?

- A. ISO/IEC 20000-1
- B. ISO/IEC 27002
- C. None of the above
- **D. ISO/IEC 27013**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27013 standards:

ISO/IEC 27013 is titled:

"Information technology - Security techniques - Guidance on the integrated implementation of ISO/IEC 27001 and ISO/IEC 20000-1."

This standard provides organizations with specific advice on how to integrate an Information Security Management System (ISMS) with an IT Service Management System (ITSMS). ISO/IEC 20000-1 is the IT Service Management requirements standard, but integration guidance is provided in 27013. ISO/IEC 27002 (A) is guidance for controls, not integration. Option D is incorrect since ISO/IEC 27013 explicitly exists for this purpose.

Therefore, the correct verified answer is B: ISO/IEC 27013.

NEW QUESTION # 54

Which aspect of ISO/IEC 27001 requires that contractors know about the organization's information security policies?

- A. Communication
- B. Nonconformity and corrective action
- C. Competence
- **D. Awareness**

Answer: D

Explanation:

Clause 7.3 (Awareness) requires:

"Persons doing work under the organization's control shall be aware of: (a) the information security policy; (b) their contribution to the effectiveness of the ISMS, including the benefits of improved information security performance; (c) the implications of not conforming with the ISMS requirements." This applies not only to employees but also contractors and external parties under the organization's control.

Competence (B) requires having skills, training, and experience, while Communication (C) covers defining communication processes (Clause 7.4). Nonconformity and corrective action (A) is part of Clause 10 (Improvement).

Therefore, the specific requirement that ensures contractors are made aware of the information security policies is found in Clause 7.3 Awareness. Correct answer: D.

NEW QUESTION # 55

Identify the missing word(s) in the following control relating to the Policies for information security control.

"Information security policy and topic-specific policies should be defined, approved by management, [?] and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur."

- A. communicated to
- **B. published, communicated to**
- C. published
- D. established and maintained

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) states:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This confirms that the missing words are "published, communicated to." The control emphasizes not just defining and approving policies but ensuring they are actively distributed and communicated so that relevant stakeholders are aware of and acknowledge them. Options A, B, and D are partial but incomplete.

Thus, the correct answer is C.

NEW QUESTION # 56

.....

In today's society, there are increasingly thousands of people put a priority to acquire certificates to enhance their abilities. With a total new perspective, ISO-IEC-27001-Foundation study materials have been designed to serve most of the office workers who aim at getting a ISO-IEC-27001-Foundation certification. The ISO-IEC-27001-Foundation test guide offer a variety of learning modes for users to choose from, which can be used for multiple clients of computers and mobile phones to study online, as well as to print and print data for offline consolidation. We sincere hope that our ISO-IEC-27001-Foundation Exam Questions can live up to your expectation.
