

# Reliable 300-740 Test Dumps, Examcollection 300-740 Free Dumps

P.S. Free 2025 Cisco 300-740 dumps are available on Google Drive shared by ExamsReviews: <https://drive.google.com/open?id=1C1K0TmytmXKYTBjGEcV8-WvYmF4snd8O>

The versions of our 300-740 study guide includes the PDF version, PC version, APP online version. Each version's using method and functions are different and the client can choose the most convenient version to learn our 300-740 exam materials. For example, the PDF version is convenient for you to download and print our 300-740 Test Questions and is suitable for browsing learning. If you use the PDF version you can print our 300-740 test torrent on the papers and it is convenient for you to take notes. You can learn our 300-740 test questions at any time and place.

## Cisco 300-740 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Threat Response: This section of the exam measures skills of Incident Response Engineers and focuses on responding to threats through automation and data analysis. It covers how to act based on telemetry and audit reports, manage user or application compromises, and implement response steps such as containment, reporting, remediation, and reinstating services securely.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Network and Cloud Security: This section of the exam measures skills of Network Security Engineers and covers policy design for secure access to cloud and SaaS applications. It outlines techniques like URL filtering, app control, blocking specific protocols, and using firewalls and reverse proxies. The section also addresses security controls for remote users, including VPN-based and application-based access methods, as well as policy enforcement at the network edge.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Industry Security Frameworks: This section of the exam measures the skills of Cybersecurity Governance Professionals and introduces major industry frameworks such as NIST, CISA, and DISA. These frameworks guide best practices and compliance in designing secure systems and managing cloud environments responsibly.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• <b>User and Device Security:</b> This section of the exam measures skills of Identity and Access Management Engineers and deals with authentication and access control for users and devices. It covers how to use identity certificates, enforce multifactor authentication, define endpoint posture policies, and configure single sign-on (SSO) and OIDC protocols. The section also includes the use of SAML to establish trust between devices and applications.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Application and Data Security</b> This section of the exam measures skills of Cloud Security Analysts and explores how to defend applications and data from cyber threats. It introduces the MITRE ATT&amp;CK framework, explains cloud attack patterns, and discusses mitigation strategies. Additionally, it covers web application firewall functions, lateral movement prevention, microsegmentation, and creating policies for secure application connectivity in multicloud environments.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• <b>SAFE Key Structure:</b> This section of the exam measures skills of Network Security Designers and focuses on the SAFE framework's key structural elements. It includes understanding 'Places in the Network'—the different network zones—and defining 'Secure Domains' to organize security policy implementation effectively.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Visibility and Assurance:</b> This section of the exam measures skills of Security Operations Center (SOC) Analysts and focuses on monitoring, diagnostics, and compliance. It explains the Cisco XDR solution, discusses visibility automation, and describes tools for traffic analysis and log management. The section also involves diagnosing application access issues, validating telemetry for behavior analysis, and verifying user access with tools like firewall logs, Duo, and Cisco Secure Workload.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>SAFE Architectural Framework:</b> This section of the exam measures skills of Security Architects and explains the Cisco SAFE framework, a structured model for building secure networks. It emphasizes the importance of aligning business goals with architectural decisions to enhance protection across the enterprise.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Cloud Security Architecture:</b> This section of the exam measures the skills of Cloud Security Architects and covers the fundamental components of the Cisco Security Reference Architecture. It introduces the role of threat intelligence in identifying and mitigating risks, the use of security operations tools for monitoring and response, and the mechanisms of user and device protection. It also includes strategies for securing cloud and on-premise networks, as well as safeguarding applications, workloads, and data across environments.</li> </ul>

## Pass Guaranteed Quiz Cisco - Reliable 300-740 - Reliable Designing and Implementing Secure Cloud Access for Users and Endpoints Test Dumps

With the rapid development of computer, network, and semiconductor techniques, the market for people is becoming more and more hotly contested. Passing a 300-740 exam to get a certificate will help you to look for a better job and get a higher salary. If you are worried about your job, your wage, and a 300-740 Certification, if you are going to change this, we are going to help you solve your problem by our 300-740 exam torrent with high quality, now allow us to introduce you our 300-740 guide torrent.

## Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q146-Q151):

### NEW QUESTION # 146

The primary purpose of using a web application firewall (WAF) is to:

- A. Increase website loading times
- **B. Protect web applications from vulnerabilities and attacks like SQL injection and XSS**
- C. Monitor the content that users post on the web application
- D. Limit the number of users accessing a web application

**Answer: B**

#### NEW QUESTION # 147

An engineer is configuring multifactor authentication using Duo. The implementation must use Duo Authentication Proxy and the Active Directory as an identity source. The company uses Azure and a local Active Directory. Which configuration is needed to meet the requirement?

- A. Configure the Identity Source as "SAML" on the Single Sign-On tab, and configure the authentication proxy with the "[cloud]" section.
- B. Configure the Identity Source as "Active Directory" on the Single Sign-On tab in the Duo Admin Panel, and configure the permit list to "Local database".
- C. Configure the Identity Source as "SAML" on the Single Sign-On tab in the Duo Admin Panel, and configure the forwarding proxy as "local" for the Identity Source.
- **D. Configure the Identity Source as "Active Directory" on the Single Sign-On tab, and configure the authentication proxy with the "[sso]" section.**

**Answer: D**

Explanation:

When integrating Duo Authentication Proxy with Active Directory for multifactor authentication (MFA), you must: Configure the Identity Source in the Duo Admin Panel as Active Directory (not SAML), since it's using the Authentication Proxy. Configure the authentication proxy settings in the [sso] section to communicate with both AD and the Duo cloud. This setup allows Active Directory to be the primary identity store while Duo provides the second authentication factor. Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 2: User and Device Security, Pages 40-45

#### NEW QUESTION # 148

The use of a reverse proxy in cloud security is important for:

- A. Only logging HTTP/HTTPS traffic
- B. Simplifying the network by removing the need for firewalls
- C. Directly exposing application servers to the internet
- **D. Providing an additional layer of abstraction and control to ensure the security of backend servers**

**Answer: D**

#### NEW QUESTION # 149

The function of a reverse proxy includes:

- A. Decreasing the security of web applications
- **B. Acting as an intermediary for requests from clients seeking resources from servers**
- C. Directly exposing internal network architecture to the internet
- D. Slowing down the access to web services

**Answer: B**

#### NEW QUESTION # 150

Which method is used by a Cisco XDR solution to prioritize actions?

- A. Updating antivirus signatures
- B. Analyzing network traffic patterns
- C. Monitoring endpoint activity
- **D. Leveraging AI and machine learning**

**Answer: D**

Explanation:

Cisco XDR (Extended Detection and Response) leverages artificial intelligence (AI) and machine learning (ML) to prioritize actions

based on the severity, context, and impact of detected threats. According to the Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT) documentation, Cisco XDR consolidates telemetry from endpoints, networks, cloud, email, and identity sources and applies AI/ML models to reduce alert fatigue, correlate signals, and surface only the highest-risk threats for response.

This intelligent correlation and prioritization mechanism enables security analysts to focus on critical incidents first, dramatically reducing mean time to detect (MTTD) and mean time to respond (MTTR). Unlike static mechanisms such as antivirus updates or passive traffic inspection, AI-driven analytics enable Cisco XDR to make data-informed decisions across the entire attack surface.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 6:

Threat Response, Pages 113-117

## NEW QUESTION # 151

.....

As for the points you may elapse or being frequently tested in the real exam, we give referent information, then involved them into our 300-740 actual exam. Our experts expertise about 300-740 training materials is unquestionable considering their long-time research and compile. I believe that no one can know the 300-740 Exam Questions better than them. And they always keep a close eye on the changes of the content and displays of the 300-740 study guide.
