our PL-200 Study Materials. And we will give you the most considerate suggestions on our PL-200 learning guide with all our sincere and warm heart.

Job Roles + Salary

The candidates who pass the Microsoft PL-200 Exam and obtain the associated certification will be able to pursue numerous job roles. Some of them include a Microsoft Dynamics Consultant, a Microsoft Functional Consultant, a Microsoft Dynamics CRM Consultant, and a Software Consultant. The average salary for these positions amounts to \$67,000 per annum. Depending on your experience level and type of organization, this figure can be much higher.

Microsoft Power Platform Functional Consultant Sample Questions (Q11-Q16):

NEW QUESTION # 11

You are designing the organization structure for a company that has 5,000 users. You need to configure security roles for the company while minimizing administrative effort. What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Requirement	Action
Apply a security role to everyone in a business unit.	<input type="checkbox"/> Assign the security role to the default business unit team. <input type="checkbox"/> Assign the security role individually to each user in the business unit. <input type="checkbox"/> Create a new team, add the business unit users, and then assign the security role to the team.
Ensure an individual can see records in their current business unit and a child business unit.	<input type="checkbox"/> Grant the user a security role from the child business unit. <input type="checkbox"/> Grant the user the Parent: Child Business Units security permission. <input type="checkbox"/> Grant the user a security role from the root business unit.

Answer:

Explanation:

Requirement	Action
Apply a security role to everyone in a business unit.	<input type="checkbox"/> Assign the security role to the default business unit team. <input type="checkbox"/> Assign the security role individually to each user in the business unit. <input checked="" type="checkbox"/> Create a new team, add the business unit users, and then assign the security role to the team.
Ensure an individual can see records in their current business unit and a child business unit.	<input checked="" type="checkbox"/> Grant the user a security role from the child business unit. <input type="checkbox"/> Grant the user the Parent: Child Business Units security permission. <input type="checkbox"/> Grant the user a security role from the root business unit.

NEW QUESTION # 12

You are embedding a Power Apps visual in a Power BI dashboard. External customers must authenticate to have access to the dashboard. You need to configure the solution. Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

- A. Set the Power BI service to allow anonymous access.
- B. Share the Power Apps visual components with external users.
- C. Publish to Power BI Report Server.
- D. Use a table in the Power BI dashboard.
- E. Set the Power BI service to authenticate users.

Answer: B,E

Explanation:

Power BI uses Azure Active Directory (AAD) to authenticate users who sign in to the Power BI service, and in turn, uses the Power BI login credentials whenever a user attempts to access resources that require authentication. Users sign in to the Power BI service using the email address used to establish their Power BI account; Power BI uses that login email as the effective username, which is passed to resources whenever a user attempts to connect to data. The effective username is then mapped to a User Principal Name (UPN) and resolved to the associated Windows domain account, against which authentication is applied.

NEW QUESTION # 13

A company's sales staff wants a simplified way to manage their opportunities in Dynamics 365 Sales without adding custom code. You need to provide a solution for each requirement.

Which solutions should you provide? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Solution
Drag and drop opportunities to change the stage.	<ul style="list-style-type: none">Add a Kanban control.Add a Timeline control.Add an Editable Grid control.Add a Calendar control.
Show each salesperson their opportunities in Calendar and Kanban view.	<ul style="list-style-type: none">Add both controls to a custom view.Add both controls to the My Opportunities view.Add one control to All Opportunities and a custom view.Add one control to My Opportunities and a custom view.
Show each salesperson the number of open opportunities by stage in a standard view.	<ul style="list-style-type: none">Use the List view.Use the Timeline control.Use the Kanban control.Use the chart pane on the view.

Answer:

Explanation:

Requirement	Solution

Show each salesperson their opportunities in Calendar and Kanban view.	<ul style="list-style-type: none">Add both controls to a custom view.Add both controls to the My Opportunities view.Add one control to All Opportunities and a custom view.Add one control to My Opportunities and a custom view.
Show each salesperson the number of open opportunities by stage in a standard view.	<ul style="list-style-type: none">Use the List view.Use the Timeline control.Use the Kanban control.Use the chart pane on the view.

Explanation

Graphical user interface, text, application, email Description automatically generated

Requirement

Solution

Drag and drop opportunities to change the stage.

Show each salesperson their opportunities in Calendar and Kanban view.

Show each salesperson the number of open opportunities by stage in a standard view.

▼
Add a Kanban control.
Add a Timeline control.
Add an Editable Grid control.
Add a Calendar control.

▼
Add both controls to a custom view.
Add both controls to the My Opportunities view.
Add one control to All Opportunities and a custom view.
Add one control to My Opportunities and a custom view.

▼
Use the List view.
Use the Timeline control.
Use the Kanban control.
Use the chart pane on the view.

Box 1: Add a Kanban control.

The Kanban view allows your sales team to move opportunities from one stage to another by simply dragging them.

Box 2: Add both controls to the My Opportunities view.

Kanban views help salespeople to manage their opportunities and activities effectively. Add the Kanban control to the Opportunity and Activity entity so salespeople can use the Kanban views. The Kanban control works only on the Opportunity and Activity entities.

If you use unified interface, you can display any record in a calendar view via the calendar control.

- Go to Settings->Customization->Customize the System
- Open the configuration for the entity that you want to use the calendar control (Opportunities in our example)
- Click the View tab
- Click "Add Control" and select the calendar control.
- Click the dot for every interface from which you want the calendar control to be available.

Box 3: Use a List view

opportunities in Dynamics 365 Sales

NEW QUESTION # 14

You create a parent entity and a child entity. The parent entity has a 1:N relationship with the child entity.

You need to ensure that when the owner changes on the parent record that all child records are assigned to the new owner.

You need to configure the relationship behavior type.

What should you use?

- A. Referential, Restrict Delete
- B. Restrict
- C. Parental
- D. Referential

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/create-and-edit-1n-relationships> A parental table relationship is any 1:N table relationship where one of the cascading options in the Parental column of the following table is true.

Graphical user interface, application Description automatically generated

Action	Parental	Not Parental
Assign	<div style="border: 2px solid red; padding: 5px;"> Cascade All Cascade User-owned Cascade Active </div>	Cascade None
Delete	Cascade All	RemoveLink Restrict
Reparent	Cascade All Cascade User-owned Cascade Active	Cascade None
Share	Cascade All Cascade User-owned Cascade Active	Cascade None
Unshare	Cascade All <div style="display: flex; align-items: center;"> <div style="width: 10px; height: 10px; background-color: red; margin-right: 5px;"></div> Cascade User-owned <div style="width: 10px; height: 10px; background-color: blue; margin-right: 5px; margin-top: 2px;"></div> Cascade Active </div>	Cascade None

NEW QUESTION # 15

A customer has a support website that includes FAQ pages, knowledge articles, and support content.

You plan to leverage an existing Power Virtual Agents bot to enhance and streamline existing support functionality for the existing support portal.

You need to create topics from existing website content. The process must minimize human errors during topic creation.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

Explanation

Select Suggest topics on the Topics page to extract content from FAQ/support pages or online files.

Add the suggested topics to your bot.

Enable the topics.
