New JN0-650 Exam Question & New JN0-650 Test Vce Free

When you are studying for the JN0-650 exam, maybe you are busy to go to work, for your family and so on. How to cost the less time to reach the goal? It's a critical question for you. Time is precious for everyone to do the efficient job. If you want to get good JN0-650 prep guide, it must be spending less time to pass it. Exactly, our product is elaborately composed with major questions and answers. If your privacy let out from us, we believe you won't believe us at all. That's uneconomical for us. In the website security, we are doing well not only in the purchase environment but also the JN0-650 Exam Torrent customers' privacy protection. We are seeking the long development for JN0-650 prep guide.

Juniper Enterprise Routing and Switching, Professional (JNCIP-ENT) Sample Questions (Q31-Q36):

NEW QUESTION # 31

Regarding class of service, which two are roles of traffic classification? (Choose two.)

- A. to schedule transmission rates
- B. to calculate buffer sizes for outbound queues
- C. to assign packets to queues
- D. to examine incoming traffic

Answer: C,D

NEW QUESTION # 32

While deploying class of service on an EX Series switch, what are two aspects of the scheduler? (Choose two.)

- A. It defines a buffer size of the queue to which it is assigned.
- B. It identifies the priority of the queue to which it is assigned.
- C. It defines interface rate-limiting.
- D. It provides DiffServ code translation.

Answer: A,B

Explanation:

In Junos OS Class of Service (CoS), schedulers are the components that define how traffic in a specific queue is treated before it is transmitted out of an interface.

* Queue Priority (Statement C): A scheduler identifies the priority of the queue (e.g., low, medium-low, medium-high, or high). This determines the order in which the hardware handles traffic from different queues.

* Buffer Size (Statement D): A scheduler defines the buffer size (amount of memory) allocated to a queue, which can be specified as a percentage, a temporal value (in microseconds), or the remainder of available buffer space. This helps manage bursts of traffic and prevent tail drops.

* Other Components: Rate-limiting (Statement A) is typically handled by policers or interface-level shaping, while code translation (Statement B) is the role of rewrite rules.

NEW QUESTION # 33

You have configured DHCP snooping on a Juniper switch. Which statement is true?

- A. All access ports are untrusted by default.
- B. All ports are untrusted by default.
- C. All access ports are trusted by default.
- D. All ports are trusted by default.

Answer: A

NEW QUESTION # 34

You are deploying IP phones in your enterprise networks. When plugged in, the IP phones must be automatically provided with the correct VLAN ID needed for sending voice traffic to the EX Series switches.

In this scenario, which two solutions are required to accomplish this task? (Choose two.)

- A. Enable LLDP-MED on appropriate access interfaces.
- B. Use LLDP on appropriate interfaces.
- C. Enable the voice VLAN feature with the appropriate access interfaces and VLAN ID for voice traffic.
- D. Create two VLANs and assign them as VLAN members to the appropriate access interfaces.

Answer: A,C

NEW QUESTION # 35

In the context of IS-IS, which statement accurately describes the difference between Level 1 and Level 2 routers?

- A. Level 1 routers are used in the backbone area, while Level 2 routers are used in non-backbone areas.
- B. Level 1 routers cannot form adjacencies with Level 2 routers.

- C. Level 1 routers hold a complete routing table, while Level 2 routers only have partial routing tables.
- **D. Level 1 routers route within an area, while Level 2 routers route between areas.**

Answer: D

NEW QUESTION # 36

.....

Our company has always been keeping pace with the times, so we are pushing renovation about JN0-650 test engine all the time to meet the different requirements of diversified production market. However it is obvious that different people have different preferences on JN0-650 preparation materials, thus we have three kinds of versions. If you are used to study with paper-based materials you can choose the PDF version. If you would like to get the mock test before the Real JN0-650 Exam you can choose the software version, if you want to study in anywhere at any time then our online APP version should be your best choice.

New JN0-650 Exam Question: <https://www.practicematerial.com/JN0-650-exam-materials.html>

We are being imitated so many years, but never being surpassed, our high passing rate of JN0-650 exams cram makes us keep a good reputation in this line, Juniper JN0-650 Valid Test Cram Don't mind what others say, trust you and make a right choice, Helping you pass the JN0-650 : Enterprise Routing and Switching, Professional (JNCIP-ENT) test study guide at your first attempt is what we are desired and confident to achieve, The Juniper JN0-650 exam dumps will provide you with everything that you need to prepare, learn and pass the difficult Juniper JN0-650 exam.

Even the most basic plan can save you hours, if not days JN0-650 or weeks, of development work, And recent technologies allow for review of current data, or what is, We are being imitated so many years, but never being surpassed, our high passing rate of JN0-650 Exams cram makes us keep a good reputation in this line.

Well-Prepared Juniper JN0-650 Valid Test Cram Are Leading Materials & Accurate JN0-650: Enterprise Routing and Switching, Professional (JNCIP-ENT)

Don't mind what others say, trust you and make a right choice, Helping you pass the JN0-650 : Enterprise Routing and Switching, Professional (JNCIP-ENT) test study guide at your first attempt is what we are desired and confident to achieve.

The Juniper JN0-650 exam dumps will provide you with everything that you need to prepare, learn and pass the difficult Juniper JN0-650 exam, Preparing and testing yourself, again and again, can be nerve-wracking, so in this scenario, we provide a Juniper JN0-650 PDF for exam preparation.
