Free PDF Unparalleled NIS-2-Directive-Lead-Implementer - Latest PECB Certified NIS 2 Directive Lead Implementer Test Question

If you are preparing for the PECB NIS-2-Directive-Lead-Implementer exam dumps our NIS-2-Directive-Lead-Implementer Questions help you to get high scores in your PECB NIS-2-Directive-Lead-Implementer exam. Test your knowledge of the PECB NIS-2-Directive-Lead-Implementer Exam Dumps with SureTorrent PECB NIS-2-Directive-Lead-Implementer practice questions. The software is designed to help with PECB NIS-2-Directive-Lead-Implementer exam dumps preparation.

PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Planning of NIS 2 Directive requirements implementation: This domain targets Project Managers and Implementation Specialists focusing on how to initiate and plan the rollout of NIS 2 Directive requirements. It includes using best practices and methodologies to align organizational processes and cybersecurity programs with the directive's mandates.
Topic 2	<ul style="list-style-type: none"> • Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.
Topic 3	<ul style="list-style-type: none"> • Cybersecurity controls, incident management, and crisis management: This domain focuses on Security Operations Managers and Incident Response Coordinators and involves implementing cybersecurity controls, managing incident response activities, and handling crisis situations. It ensures organizations are prepared to prevent, detect, respond to, and recover from cybersecurity incidents effectively.
Topic 4	<ul style="list-style-type: none"> • Communication and awareness: This section covers skills of Communication Officers and Training Managers in developing and executing communication strategies and awareness programs. It emphasizes fostering cybersecurity awareness across the organization and effective internal and external communication during cybersecurity events or compliance activities.
Topic 5	<ul style="list-style-type: none"> • Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q62-Q67):

NEW QUESTION # 62

Which of the following entities are excluded from the scope of the NIS 2 Directive?

- A. Regulatory entities
- B. Public administration entities involved in law enforcement activities
- C. Entities with only marginal relevance to the areas of national security, public security, defense, or law enforcement activities

Answer: B

NEW QUESTION # 63

What is the requirement for Member States regarding resources for competent authorities and single points of contact under Article 8 of the NIS 2 Directive?

- A. To allocate resources solely for international cooperation
- B. To provide unlimited resources for any related tasks
- C. To provide adequate resources for efficient execution of tasks and the Directive's objectives

Answer: C

NEW QUESTION # 64

Should the organization's departments be informed in advance about the internal audit?

- A. No, it is against audit principles to inform departments in advance about the internal audit
- B. Yes, it is crucial to provide prior notification to the departments
- C. No, the audit should aim for an accurate assessment of the departments' current status; informing departments may allow

them time to cover issues

Answer: B

NEW QUESTION # 65

According to Article 20 of the NIS 2 Directive, what should members of management bodies of essential and important entities be trained on?

- A. Business development strategies
- B. Financial accounting principles
- C. Cybersecurity risk management practices

Answer: C

NEW QUESTION # 66

Scenario 4: StellarTech is a technology company that provides innovative solutions for a connected world. Its portfolio includes groundbreaking Internet of Things (IoT) devices, high-performance software applications, and state-of-the-art communication systems. In response to the ever-evolving cybersecurity landscape and the need to ensure digital resilience, StellarTech has decided to establish a cybersecurity program based on the NIS 2 Directive requirements. The company has appointed Nick, an experienced information security manager, to ensure the successful implementation of these requirements. Nick initiated the implementation process by thoroughly analyzing StellarTech's organizational structure. He observed that the company has embraced a well-defined model that enables the allocation of verticals based on specialties or operational functions and facilitates distinct role delineation and clear responsibilities.

To ensure compliance with the NIS 2 Directive requirements, Nick and his team have implemented an asset management system and established as asset management policy, set objectives, and the processes to achieve those objectives. As part of the asset management process, the company will identify, record, maintain all assets within the system's scope.

To manage risks effectively, the company has adopted a structured approach involving the definition of the scope and parameters governing risk management, risk assessments, risk treatment, risk acceptance, risk communication, awareness and consulting, and risk monitoring and review processes. This approach enables the application of cybersecurity practices based on previous and currently cybersecurity activities, including lessons learned and predictive indicators. StellarTech's organization-wide risk management program aligns with objectives monitored by senior executives, who treat it like financial risk. The budget is structured according to the risk landscape, while business units implement executive vision with a strong awareness of system-level risks. The company shares real-time information, understanding its role within the larger ecosystem and actively contributing to risk understanding. StellarTech's agile response to evolving threats and emphasis on proactive communication showcase its dedication to cybersecurity excellence and resilience.

Last month, the company conducted a comprehensive risk assessment. During this process, it identified a potential threat associated with a sophisticated form of cyber intrusion, specifically targeting IoT devices. This threat, although theoretically possible, was deemed highly unlikely to materialize due to the company's robust security measures, the absence of prior incidents, and its existing strong cybersecurity practices.

In terms of the NIST Framework, under which implementation tier does StellarTech fall based on the level of implementation of its risk management measures within the company? Refer to scenario 4.

- A. Tier 2: Risk informed
- B. Tier 4: Adaptive
- C. Tier 3: Repeatable

Answer: B
