

# Hybrid-Cloud-Observability-Network-Monitoring Training Online - Sample Hybrid-Cloud-Observability-Network-Monitoring Questions

With Hybrid-Cloud-Observability-Network-Monitoring actual exam engine you will experience an evolution of products coupled with the experience and qualities of expertise. All the questions of Hybrid-Cloud-Observability-Network-Monitoring free pdf are checked chosen by several times of refining and verification, and all the Hybrid-Cloud-Observability-Network-Monitoring answers are correct and easy to understand. You can experience yourself a new dawn of technology with Hybrid-Cloud-Observability-Network-Monitoring exam torrent. We guarantee you 100% pass. If you are still worried, you can read our refund policy. In case of failure, full refund.

In order to let customers enjoy the best service, all Hybrid-Cloud-Observability-Network-Monitoring exam prep of our company were designed by hundreds of experienced experts. Our Hybrid-Cloud-Observability-Network-Monitoring test questions will help customers learn the important knowledge about exam. At the same time, our Hybrid-Cloud-Observability-Network-Monitoring test torrent can help you avoid falling into rote learning habits. You just need to spend 20 to 30 hours on study, and then you can take and pass your Hybrid-Cloud-Observability-Network-Monitoring Exam. In addition, the authoritative production team of our Hybrid-Cloud-Observability-Network-Monitoring exam prep will update the study system every day in order to make our customers enjoy the newest information.

## Sample Hybrid-Cloud-Observability-Network-Monitoring Questions, Exam Hybrid-Cloud-Observability-Network-Monitoring Practice

Success in acquiring the Hybrid-Cloud-Observability-Network-Monitoring is seen to be crucial for your career growth. But preparing for the Hybrid Cloud Observability Network Monitoring Exam (Hybrid-Cloud-Observability-Network-Monitoring) exam in today's busy routine might be difficult. This is where actual SolarWinds Hybrid-Cloud-Observability-Network-Monitoring Exam Questions offered by TrainingDumps come into play. For those candidates, who want to clear the Hybrid-Cloud-Observability-Network-Monitoring certification exam in a short time, we offer updated and real exam questions.

### SolarWinds Hybrid Cloud Observability Network Monitoring Exam Sample Questions (Q47-Q52):

#### NEW QUESTION # 47

A probe is to be built to test connections to Office 365 from two different locations. How would this be accomplished?

- A. Create both probes on hybrid cloud observability (HCO) server and designate each location.
- B. Create a probe, duplicate it, and change the source agent to the agent in another location.
- C. Create two probes and assign each to an agent in each location.
- D. Create two probes and assign each to an agent in one location.

Answer: C

#### NEW QUESTION # 48

An agent is deployed to the Windows server in order to monitor logs, however logs are not coming in from the related agent. It is confirmed that the agent software is deployed and installed on the target machine. What additional setting needs to be checked?

- A. polling method is set to agent
- B. correct rule to read logs is configured
- C. polling method is set to WMI
- **D. log forwarding feature is enabled**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

If logs are not being sent from a Windows agent, you must confirm that the log forwarding feature is enabled.

Even if the agent is installed, logs will not be transmitted unless this setting is turned on.

The documentation notes:

"Ensure the agent is configured to forward logs. Log forwarding must be enabled for the agent to transmit log data to the SolarWinds platform." References:

Log Analyzer Administrator Guide: Agent Log Forwarding Configuration

#### NEW QUESTION # 49

Which two of the following requirements are needed to set up network devices and export NetFlow data? (Choose two.)

- **A. The interface through which a device exports NetFlow data must be monitored in NPM.**
- **B. Each device that exports NetFlow data to SolarWinds' NTA must be monitored in NPM.**
- C. Each device that exports NetFlow data to SolarWinds' NTA must be monitored in NCM.
- D. Each device can be optionally configured to export NetFlow data to SolarWinds' NTA.

**Answer: A,B**

#### NEW QUESTION # 50

SNMP traps are being received from several devices. While most of the traps are normal, traps from one of the devices contain fields that are unreadable. The device is not being monitored in any other way. Which two of the following points should be checked? (Choose two.)

- A. Verify the device supports hybrid cloud
- **B. Verify the device's MIB file is in SolarWinds' MIB database.**
- **C. Verify the device supports SNMP and is added as a node.**
- D. Verify the device is not using SNMPv3 and is added as a node.

**Answer: B,C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Unreadable fields in SNMP traps from a device typically indicate either the device is not monitored as a node (so SolarWinds cannot fully parse its SNMP data) or the MIB file for that device is not included in the SolarWinds MIB database, making it impossible to decode certain OIDs.

Reference:

"Unreadable trap fields often result from the device not being monitored as a node or missing the relevant MIB definitions in the SolarWinds MIB database."

- (Network Performance Monitor Administrator Guide, SNMP Trap Troubleshooting section)

#### NEW QUESTION # 51

Which three of the following actions are native log entry actions? (Choose three.)

- A. add a tag to the log entry
- B. continue rule processing but do not save
- C. send an email notification
- D. halt further rule processing for the log entry

**Answer: A,B,D**

## NEW QUESTION # 52

.....

When you are studying for the Hybrid-Cloud-Observability-Network-Monitoring exam, maybe you are busy to go to work, for your family and so on. How to cost the less time to reach the goal? It's a critical question for you. Time is precious for everyone to do the efficient job. If you want to get good Hybrid-Cloud-Observability-Network-Monitoring prep guide, it must be spending less time to pass it. Exactly, our product is elaborately composed with major questions and answers. We are choosing the key from past materials to finish our Hybrid-Cloud-Observability-Network-Monitoring Guide Torrent. It only takes you 20 hours to 30 hours to do the practice. After your effective practice, you can master the examination point from the Hybrid-Cloud-Observability-Network-Monitoring exam torrent. Then, you will have enough confidence to pass it.
