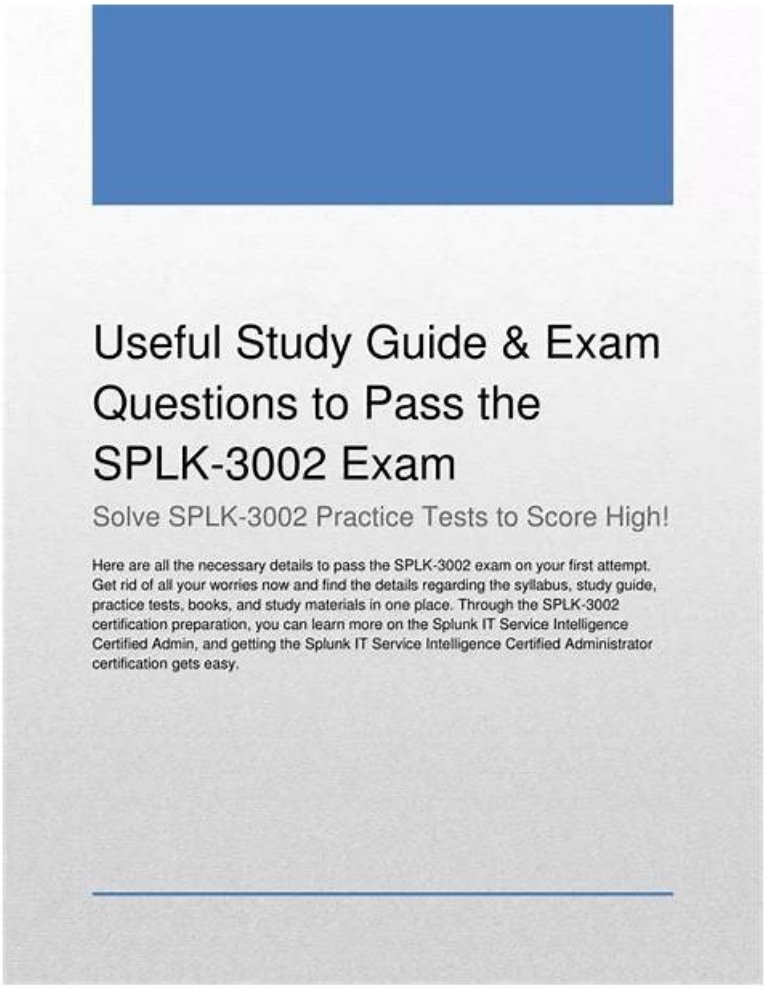
Pass SPLK-3002 Exam with Realistic SPLK-3002 Practical Information by Pass4SureQuiz



What's more, part of that Pass4SureQuiz SPLK-3002 dumps now are free: https://drive.google.com/open?id=1GQD_jN7j1hAxDWZXPVJOBlp5frkBnNFP

Pass4SureQuiz is subservient to your development. And our experts generalize the knowledge of the exam into our products showing in three versions. PDF version of SPLK-3002 exam questions - support customers' printing request, and allow you to have a print and practice in papers. Software version of SPLK-3002 learning guide - supporting simulation test system, and remember this version support Windows system users only. App/online version of SPLK-3002 mock quiz - Being suitable to all kinds of equipment or digital devices, and you can review history and performance better.

Decades of painstaking efforts have put us in the leading position of SPLK-3002 training materials compiling market, and the excellent quality of our SPLK-3002 guide torrent and high class operation system in our company have won the common recognition from many international customers for us. With the high class operation system, we can assure you that you can start to prepare for the SPLK-3002 Exam with our study materials only 5 to 10 minutes after payment since our advanced operation system will send the SPLK-3002 exam torrent to your email address automatically as soon as possible after payment.

>> SPLK-3002 Practical Information <<

Reliable SPLK-3002 Test Syllabus, New SPLK-3002 Exam Online

To be convenient for the learners, our SPLK-3002 certification questions provide the test practice software to help the learners check their learning results at any time. You can use your smart phones, laptops, the tablet computers or other equipment to download and learn our SPLK-3002 learning materials. Moreover, our customer service team will reply the clients' questions on the

SPLK-3002 Exam Questions patiently and in detail at any time and the clients can contact the online customer service. The clients at home and abroad can purchase our SPLK-3002 certification questions online.

Splunk IT Service Intelligence Certified Admin Sample Questions (Q44-Q49):

NEW QUESTION # 44
When installing ITSI to support a Distributed Search Architecture, which of the following items apply? (Choose all that apply.)

- A. Extract ITSI app package into etc/apps directory of search head.
- B. Copy SA-IndexCreation to all indexers.
- C. Extract installer package into etc/apps directory of the cluster deployer node.
- D. Copy SA-IndexCreation to the etc/apps directory on the index cluster master node.

Answer: B

Explanation:
Copy SA-IndexCreation to $SPLUNK_HOME/etc/apps/ on all individual indexers in your environment.
Reference:
A is the correct answer because when installing ITSI to support a distributed search architecture, you need to copy SA-IndexCreation to all indexers. SA-IndexCreation is an app that contains the definitions of the ITSI indexes, such as itsi_summary, itsi_tracked_alerts, itsi_grouped_alerts, etc. You need to copy this app to all indexers to ensure that they can store and search the ITSI data. B is not a correct answer because you do not need to copy SA-IndexCreation to the etc/apps directory on the index cluster master node. The index cluster master node does not store or search data, it only manages the replication and availability of data across the index cluster peers. C is not a correct answer because you do not need to extract the installer package into etc/apps directory of the cluster deployer node. The cluster deployer node is used to distribute apps and configuration updates to the search head cluster members. You need to extract the installer package into etc/shcluster/apps directory of the cluster deployer node instead. D is not a correct answer because you do not need to extract the ITSI app package into etc/apps directory of search head. You need to extract the ITSI app package into etc/shcluster/apps directory of the cluster deployer node and use the deployer to push the app to all search head cluster members. Reference: [Install Splunk IT Service Intelligence on a search head cluster], [Install Splunk IT Service Intelligence on an indexer cluster]

NEW QUESTION # 45
Which index contains ITSI Episodes?

- A. itsi_tracked_alerts
- B. itsi_summary
- C. itsi_notable_archive
- D. itsi_grouped_alerts

Answer: D

Explanation:
Reference: https://docs.splunk.com/Documentation/ITSI/4.10.2/Configure/IndexOverview B is the correct answer because ITSI episodes are stored in the itsi_grouped_alerts index. This index contains notable events that have been grouped together based on predefined aggregation policies. Episodes help you reduce alert noise and focus on resolving incidents faster. References: [Overview of episodes in ITSI]

NEW QUESTION # 46
Which of the following are deployment recommendations for ITSI? (Choose all that apply.)

- A. Deployments may increase the number of required indexers based on the number of KPI searches.
- B. Deployments should use fastest possible disk arrays for indexers.
- C. Deployments require a dedicated ITSI search head.
- D. Deployments often require an increase of hardware resources above base Splunk requirements.

Answer: A,C,D

Explanation:
You might need to increase the hardware specifications of your own Enterprise Security deployment above the minimum hardware

requirements depending on your environment.
Install Splunk Enterprise Security on a dedicated search head or search head cluster.
The Splunk platform uses indexers to scale horizontally. The number of indexers required in an Enterprise Security deployment varies based on the data volume, data type, retention requirements, search type, and search concurrency.
Reference: https://docs.splunk.com/Documentation/ES/latest/Install/DeploymentPlanning A, B, and C are correct answers because ITSI deployments often require more hardware resources than base Splunk requirements due to the high volume of data ingestion and processing. ITSI deployments also require a dedicated search head that runs the ITSI app and handles all ITSI-related searches and dashboards. ITSI deployments may also increase the number of required indexers based on the number and frequency of KPI searches, which can generate a large amount of summary data. References: ITSI deployment overview, ITSI deployment planning

NEW QUESTION # 47
Which of the following items apply to anomaly detection? (Choose all that apply.)

- A. There are 3 types of anomaly detection supported in ITSI: adhoc, trending, and cohesive.
- B. Anomaly detection automatically generates notable events when KPI data diverges from the pattern.
- C. A minimum of 24 hours of data is needed for anomaly detection, and a minimum of 4 entities for cohesive analysis.
- D. Use AD on KPIs that have an unestablished baseline of data points. This allows the ML pattern to perform it's magic.

Answer: B,C

NEW QUESTION # 48
What can a KPI widget on a glass table drill down into?

- A. Any of the above.
- B. A Splunk dashboard.
- C. Another glass table.
- D. A custom deep dive.

Answer: A

Explanation:
In Splunk IT Service Intelligence (ITSI), a KPI widget on a glass table can be configured to drill down into a variety of destinations based on the needs of the user and the design of the glass table. This flexibility allows users to dive deeper into the data or analysis represented by the KPI widget, providing context and additional insights. The destinations for drill-downs from a KPI widget can include:
A) Another glass table, offering a different perspective or more detailed view related to the KPI. B. A Splunk dashboard that provides broader analysis or incorporates data from multiple sources. C. A custom deep dive for in-depth, time-series analysis of the KPI and related metrics.
This versatility makes KPI widgets powerful tools for navigating through the wealth of operational data and insights available in ITSI, facilitating effective monitoring and decision-making.
