- B. NextGen IPS
- C. Snort
- D. SIEM

**Answer: A**

Explanation:

"SOAR solutions provide orchestration, automation, and response capabilities. They collect security data from multiple systems, enable analysts to manage incidents, and automate repetitive tasks in the response process." (CCST Cybersecurity, Incident Handling, Security Automation Tools section, Cisco Networking Academy) A (SIEM) collects and correlates security logs but lacks full orchestration and automated response capabilities.
