

Boost Your Confidence with Oracle 1Z0-771 Oracle APEX Cloud Developer Professional Test

What's more, part of that DumpsQuestion 1Z0-771 dumps now are free: <https://drive.google.com/open?id=1ovt-wMMsyi-ra0GTWHVACJv8JH7Ly0ZX>

As a responsible company, we don't ignore customers after the deal, but will keep an eye on your exam situation. Although we can assure you the passing rate of our 1Z0-771 training guide nearly 100 %, we can also offer you a full refund if you still have concerns. So you have nothing to worry about, only to study with our 1Z0-771 Exam Questions with full attention. And as we have been in this career for over ten years, our 1Z0-771 learning materials have become famous as a pass guarantee.

Oracle 1Z0-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.
Topic 2	<ul style="list-style-type: none">Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Topic 3	<ul style="list-style-type: none">Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.
Topic 4	<ul style="list-style-type: none">Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
Topic 5	<ul style="list-style-type: none">Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.
Topic 6	<ul style="list-style-type: none">Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.
Topic 7	<ul style="list-style-type: none">Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.

Topic 8	<ul style="list-style-type: none"> • Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development.
Topic 9	<ul style="list-style-type: none"> • Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
Topic 10	<ul style="list-style-type: none"> • Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.
Topic 11	<ul style="list-style-type: none"> • Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.

2025 Oracle High-quality 1Z0-771 Study Test

In the PDF version, real 1Z0-771 exam questions are available. These Oracle 1Z0-771 real questions are printable and portable. You can take this PDF document anywhere and study for the Oracle APEX Cloud Developer Professional (1Z0-771) exam without time restrictions. DumpsQuestion regularly make changes in the 1Z0-771 PDF format when required. 1Z0-771 questions in this format are relevant to the actual test.

Oracle APEX Cloud Developer Professional Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which two tasks can be performed by the APEX Assistant when you create an application using the "Create App using Generative AI" option?

- **A. Create the application blueprint.**
- B. Update the App icon with a custom image.
- C. Create a Generative AI service.
- **D. Add a Dashboard page.**

Answer: A,D

Explanation:

The "Create App using Generative AI" feature in APEX Assistant leverages natural language processing to automate application creation. When invoked:

Create the application blueprint: APEX Assistant generates a foundational structure (blueprint) for the application, including pages, regions, and navigation, based on the user's natural language input (e.g., "Create an app to manage employees"). This blueprint serves as the starting point, which developers can refine.

Add a Dashboard page: The Assistant can interpret requests for specific page types, such as dashboards, and include them in the generated app. Dashboards typically feature charts, summaries, or key metrics, and this is a common task supported by the AI-driven creation process.

Create a Generative AI service: This is not a task performed during app creation; instead, it's a prerequisite configuration step done separately in the Instance Administration settings.

Update the App icon: While app icons can be customized manually post-creation, this is not an automated task performed by APEX Assistant during the generative process.

This feature streamlines development by interpreting intent and building functional components, saving significant time compared to manual creation.

NEW QUESTION # 41

In which two formats can the GetCurrentPosition Dynamic Action in Oracle APEX return coordinates?

- **A. GeoJSON**
- B. State and Pincode
- **C. Latitude and Longitude**
- D. Function Body returning SQL Query

Answer: A,C

Explanation:

The GetCurrentPosition Dynamic Action retrieves geolocation data from the user's device. It supports:

Latitude and Longitude: Returns coordinates as separate numeric values (e.g., lat: 37.7749, lon: -122.4194).

GeoJSON: Returns coordinates in a structured JSON format compliant with the GeoJSON standard (e.g., { "type": "Point", "coordinates": [-122.4194, 37.7749] }).

Function Body returning SQL Query is a dynamic action type, not a coordinate format, and State and Pincode is unrelated to geolocation coordinates.

NEW QUESTION # 42

Which two actions does the Create Application Wizard allow?

- **A. Adding or deleting application pages.**
- B. Uploading JavaScript or CSS files required for an application.
- **C. Reordering application pages.**
- D. Changing the application authorization.

Answer: A,C

Explanation:

The Create Application Wizard streamlines app creation with:

Adding or deleting application pages: Allows users to define initial pages (e.g., Home, Reports) and remove unwanted ones during the wizard process.

Reordering application pages: Provides drag-and-drop or list-based reordering of pages to set the navigation sequence.

Uploading JavaScript or CSS: This occurs post-creation in Shared Components, not within the wizard.

Changing the application authorization: Authorization schemes are set after creation, not during the wizard.

This wizard is a time-saver for rapid prototyping, offering a guided yet flexible setup.

NEW QUESTION # 43

Which statement is true about Theme Styles in Oracle APEX?

- A. Theme Styles control the layout of a webpage.
- B. The "Is Current" attribute of a Theme Style depends on the "Read Only" attribute.
- **C. When the Is Public attribute is enabled, end users can choose the Theme Style from the runtime environment.**

Answer: C

Explanation:

Theme Styles define visual aspects (e.g., colors, fonts) in APEX:

B . When the Is Public attribute is enabled: Setting "Is Public" to "Yes" allows end users to select from available Theme Styles at runtime (e.g., via a UI switcher), enhancing customization.

A . Control the layout: False; layout is managed by templates and regions, not Theme Styles, which focus on aesthetics.

C . "Is Current" depends on "Read Only": False; "Is Current" marks the active style, independent of "Read Only" (which locks editing).

Practical note: Public styles require multiple defined styles in Shared Components.

NEW QUESTION # 44

Which two are prerequisites to use the REST-enabled SQL feature in Oracle APEX?

- **A. Install ORDS 19.x or later on the remote Oracle Database.**

- B. Create a database link to the remote Oracle Database in the local APEX schema.
- C. Install Oracle APEX in the remote Oracle Database.
- D. REST-enable the schema in the remote Oracle Database by using ORDS.ENABLE_SCHEMA.

Answer: A,D

Explanation:

To use REST-enabled SQL in APEX:

Install ORDS 19.x or later: Oracle REST Data Services (ORDS) must be installed and configured on the remote database.

REST-enable the schema: The schema on the remote database must be REST-enabled using ORDS.ENABLE_SCHEMA to allow SQL execution via REST.

A database link is not required, and installing APEX on the remote database is unnecessary since REST-enabled SQL connects APEX to a remote schema via ORDS.

NEW QUESTION # 45

.....

We have applied the latest technologies to the design of our 1Z0-771 test prep not only on the content but also on the displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our 1Z0-771 training materials. Besides, you can consolidate important knowledge of 1Z0-771 Exam for you personally and design customized study schedule or to-do list on a daily basis. The last but not least, our after-sales service can be the most attractive project in our 1Z0-771 guide torrent.
