AZ-500 Latest Exam Cost & Valid Dumps AZ-500 Files

As we all know, the preparation process for an exam is very laborious and time-consuming. We had to spare time to do other things to prepare for AZ-500 exam, which delayed a lot of important things. If you happen to be facing this problem, you should choose our AZ-500 Study Materials. With our study materials, only should you take about 20 - 30 hours to preparation can you attend the exam. The rest of the time you can do anything you want to do to, which can fully reduce your review pressure.

The Microsoft AZ-500 Exam measures the candidate's ability to design and implement security controls, including identity and access management, network security, and data protection. Candidates must demonstrate proficiency in using Azure Security Center, Azure Sentinel, and Azure Monitor to monitor and respond to security incidents. They must also be able to configure and manage Azure Active Directory, Azure Key Vault, and Azure Information Protection to protect sensitive data.

Microsoft Azure Security Technologies Sample Questions (Q50-Q55):

NEW QUESTION # 50

You need to ensure that the Azure AD application registration and consent configurations meet the identity and access requirements. What should you use in the Azure portal? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

To configure the registration settings:

	Microsoft	▼
Azure AD – User settings		
Azure AD – App registrations settings		
Enterprise Applications – User settings		

To configure the consent settings:

	▼
Azure AD – User settings	
Azure AD – App registrations settings	
Enterprise Applications – User settings	

Answer:

Explanation:

To configure the registration settings:

A screenshot of a dropdown menu in the Azure portal. The menu is open, showing three options: "Azure AD – User settings", "Azure AD – App registrations settings", and "Enterprise Applications – User settings". The first option, "Azure AD – User settings", is highlighted with a red border.

To configure the consent settings:

A screenshot of a dropdown menu in the Azure portal. The menu is open, showing three options: "Azure AD – User settings", "Azure AD – App registrations settings", and "Enterprise Applications – User settings". The first option, "Azure AD – User settings", is highlighted with a red border.

NEW QUESTION # 51

You work at a company named Contoso, Ltd. that has the offices shown in the following table.

Name	IP address space
Boston	180.15.10.0/24
Seattle	132.32.15.0/24

Contoso has an Azure Active Directory (Azure AD) tenant named contoso.com. All contoso.com users have Azure Multi-Factor Authentication (MFA) enabled. The tenant contains the users shown in the following table.

Name	User device	Last sign-in	During last sign-in, user selected Don't ask again for 14 days
User1	Device1	June 1	Yes
User2	Device2	June 3	No

The multi-factor settings for contoso.com are configured as shown in the following exhibit.

multi-factor authentication

users service settings

app passwords [\(learn more\)](#)

☒ Allow users to create app passwords to sign in to non-browser apps
☐ Do not allow users to create app passwords to sign in to non-browser apps

trusted ips [\(learn more\)](#)

☐ Skip multi-factor authentication for requests from federated users on my intranet
 Skip multi-factor authentication for requests from following range of IP address subnets

180.15.10.0/24

verification options [\(learn more\)](#)

Methods available to users:

☐ call to phone
☒ Text message to phone
☒ Notification through mobile app
☒ Verification code from mobile app or hardware token

remember multi-factor authentication [\(learn more\)](#)

☒ Allow users to remember multi-factor authentication on devices they trust
 Days before a device must re-authenticate (1-60):

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
When User1 signs in to Device1 from the Seattle office on June 10, the user will be prompted for MFA.	☐	☐
When User2 signs in to Device2 from the Boston office on June 5, the user will be prompted for MFA.	☐	☐
When User1 signs in to a new device from the Seattle office on June 7, the user will be prompted for MFA.	☐	☐

Answer:

Explanation:

Statements	Yes	No
When User1 signs in to Device1 from the Seattle office on June 10, the user will be prompted for MFA.	☐	☒
When User2 signs in to Device2 from the Boston office on June 5, the user will be prompted for MFA.	☒	☐
When User1 signs in to to a new device from the Seattle office on June 7, the user will be prompted for MFA.	☒	☐

NEW QUESTION # 52

You need to configure an access review. The review will be assigned to a new collection of reviews and reviewed by resource owners.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create an access review program.

Set Reviewers to Selected users.

Create an access review audit.

Create an access review control.

Set Reviewers to Group owners.

Set Reviewers to Members.

Answer Area

Answer:

Explanation:

Explanation

Step 1: Create an access review program

Step 2: Create an access review control

Step 3: Set Reviewers to Group owners

In the Reviewers section, select either one or more people to review all the users in scope. Or you can select to have the members review their own access. If the resource is a group, you can ask the group owners to review.
