C-ACDET-2506 Exam Test Centres- First-grade C-ACDET-2506 Passguide Pass Success

The SAP C-ACDET-2506 practice material of Prep4sureGuide came into existence after consultation with many professionals and getting their positive reviews. The majority of aspirants are office professionals, and we recognize that you don't have enough time to prepare for the SAP C-ACDET-2506 Certification Exam. As a result, several versions of the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C-ACDET-2506) exam questions will be beneficial to you.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.
Topic 2	Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 3	Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q43-Q48):

NEW QUESTION # 43

How can you make the attributes of a Flex Master Data field reportable?

- A. Flex Master Data objects and their attributes cannot be made reportable
- B. Flex Master Data objects automatically include all attributes as reportable without any additional configuration.
- **C. When the Flex Master Data Template is created, the attributes can be marked as reportable or not.**
- D. Create a custom reportable field and use a defaulting expression to set the value of the Flex Master Data attribute

Answer: C

NEW QUESTION # 44

Which SAP Ariba solutions are included in SAP Ariba Strategic Sourcing Suite? (Select 2 correct answers)

- A. SAP Ariba Buying and Invoicing
- **B. SAP Ariba Contracts**
- C. SAP Ariba Category Management
- **D. SAP Ariba Supplier Lifecycle and Performance**

Answer: B,D

Explanation:

The SAP Ariba Strategic Sourcing Suite typically includes SAP Ariba Contracts and SAP Ariba Supplier Lifecycle and Performance (SLP) solutions. These modules, along with SAP Ariba Sourcing and Supplier Risk, form the core sourcing suite for supplier management, contract lifecycle management, and performance analytics. Category Management and Buying and Invoicing belong to different SAP Ariba product suites focused on procurement and spend management rather than strategic sourcing.

NEW QUESTION # 45

You need to revise a published form template. What steps do you follow?

- A. Edit directly in production
- B. Clone and change ID
- C. Delete and recreate
- **D. Create a new version, edit, test, and publish**

Answer: D

Explanation:

SAP Ariba requires that revisions to published form templates be handled through creating a new version of the template, then editing and testing the draft version before publishing it. The system maintains the prior published version active while you work on the new draft, ensuring no disruption. Cloning and changing IDs is unnecessary and not best practice. Direct edits on published templates are not permitted, and deleting and recreating loses version history and control. This versioning mechanism supports safe, auditable template changes.

NEW QUESTION # 46

The full SAP Ariba Strategic Sourcing suite baseline (Greenfield baseline scenario) has been applied to the customer Test site. The customer and project team will configure SAP Ariba Sourcing and deploy that to the Production site, then configure and deploy the remaining solutions in stages. What does this mean for subsequent migration activities?

- A. If the baseline applied the full suite, the full suite must be configured and migrated to production at the same time.
- B. Subsequent migration activities will require a complete reconfiguration of existing solutions.
- C. Subsequent migration activities follow Bluefield deployment scenario.
- **D. Both SAP Ariba Sourcing as well as subsequent migration activities would be Brownfield deployments.**

Answer: D

NEW QUESTION # 47

Which scenarios are applicable when moving templates from the test site to the production site by ICM? Note: There are 2 correct answers to this question.

- A. Published templates with flex master data references in the test site are migrated to the production site during the first migration attempt.
- **B. Batch imports are available for templates when migrating configuration bundles.**
- C. New templates that successfully migrated to the production site are in Draft state.
- **D. Draft templates on the source site are skipped.**

Answer: B,D

NEW QUESTION # 48

.....

In your day-to-day life, things look like same all the time, but preparing for critical C-ACDET-2506 practice exam is not one of those options. About the exam ahead of you this time, our C-ACDET-2506 study braindumps will be your indispensable choices.
