## Pass SAP C-CPI-2506 Guide & C-CPI-2506 Exam Passing Score

Love is precious and the price of freedom is higher. Do you think that learning day and night has deprived you of your freedom? Then let Our C-CPI-2506 Guide tests free you from the depths of pain. Our study material is a high-quality product launched by the PassTorrent platform. And the purpose of our study material is to allow students to pass the professional qualification exams that they hope to see with the least amount of time and effort.

## SAP C-CPI-2506 Exam Syllabus Topics:

| Topic   | Details   |
|---------|---|
| Topic 1 | <ul style="list-style-type: none"><li>Implementing Cloud Integration: This section of the exam measures the skills of Integration Consultants and examines how cloud integration flows are designed and deployed. It emphasizes creating integration scenarios, handling connectivity, and applying best practices to build efficient, secure, and reliable integration processes in SAP's cloud environment.</li></ul> |
| Topic 2 | <ul style="list-style-type: none"><li>Managing APIs: This section of the exam measures the skills of Solution Architects and focuses on managing APIs within the SAP ecosystem. It covers topics such as API provisioning, lifecycle management, security policies, and monitoring, ensuring candidates can handle APIs effectively for enterprise integration needs.</li></ul>   |
| Topic 3 | <ul style="list-style-type: none"><li>SAP Integration Suite Overview: This section of the exam measures the skills of Integration Consultants and covers the foundational concepts of the SAP Integration Suite. It provides an understanding of the suite's capabilities, its role in connecting applications, and its relevance in modern cloud-based integration scenarios.</li></ul>                                |

|         |   |
|---------|---|
| Topic 4 | <ul style="list-style-type: none"> <li>• SAP Event Mesh: This section of the exam measures the skills of Solution Architects and centers on using SAP Event Mesh to support event-driven integration. It highlights the importance of asynchronous communication, event publishing, and subscription models, allowing organizations to build scalable and decoupled systems.</li> </ul> |
|---------|---|

## SAP Certified Associate - Integration Developer Sample Questions (Q11-Q16):

### NEW QUESTION # 11

What does an API consumer do?

- A. It provides an interface.
- B. It provides the server-side implementation of an interface.
- C. It invokes an interface.

**Answer: C**

Explanation:

An API consumer is an application or system that invokes an interface provided by an API provider. An API consumer uses the interface to access or manipulate data or functionality exposed by the API provider. An API consumer can be a web browser, a mobile app, a cloud service, or any other client that can send requests and receive responses from an API provider. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

### NEW QUESTION # 12

What does the "Open Integration" principle of the SAP Integration Suite mean?

- A. SAP Integration Suite allows SAP-to-SAP integrations.
- B. SAP Integration Suite by default supports third-party software integration.
- C. SAP Integration Suite by default supports integrations to other SAP software.

**Answer: B**

Explanation:

The "Open Integration" principle of SAP Integration Suite emphasizes openness beyond SAP-to-SAP integrations. SAP provides pre-built content and adapters for SAP solutions (S/4HANA, SuccessFactors, Ariba, Concur, etc.). Additionally, it supports third-party applications and ecosystems through: Open Connectors (over 160+ third-party apps like Salesforce, HubSpot, Workday). Open APIs and standards (REST, OData, SOAP, JMS, AMQP, etc.). Thus, the principle ensures SAP + non-SAP integration scenarios are fully supported by default.

### NEW QUESTION # 13

Where can you configure a static payload? Note: There are 2 correct answers to this question.

- A. In a Data Store Operation component
- B. In a Content Modifier component of the Message Body tab
- C. In a Content Modifier component of the Message Header tab
- D. In a Groovy script

**Answer: A,B**

Explanation:

You can configure a static payload in a Data Store Operation component or in a Content Modifier component of the Message Body tab. A Data Store Operation component allows you to store or retrieve messages in a data store. You can use the Write operation to store a static payload in a data store entry with a specified key. A Content Modifier component allows you to modify the message content, headers, and properties. You can use the Message Body tab to define a static payload for the message. Reference: Modernize Integration with SAP Integration Suite | openSAP

#### NEW QUESTION # 14

You want to set up Exchange Properties in an integration flow. Besides a Content Modifier, what can you use?

- A. XML scripting
- B. Python scripting
- C. Batch scripting
- **D. Groovy SDK scripting**

**Answer: D**

Explanation:

In SAP Cloud Integration, Exchange Properties can be created and set using:

Content Modifier # Standard way to configure properties.

Groovy Scripting # Via the SAP CPI Groovy SDK, you can dynamically add or update exchange properties at runtime.

Other options:

Batch scripting, XML scripting, Python scripting # Not supported in SAP CPI.

Thus, besides Content Modifier, you use Groovy SDK scripting.

#### NEW QUESTION # 15

What does the "Open Integration" principle of the SAP Integration Suite mean?

- A. SAP Integration Suite allows SAP-to-SAP integrations.
- **B. SAP Integration Suite by default supports third-party software integration.**
- C. SAP Integration Suite by default supports integrations to other SAP soft-ware.

**Answer: B**

Explanation:

The "Open Integration" principle of the SAP Integration Suite means that SAP Integration Suite by default supports third-party software integration. The SAP Integration Suite is an open and modular iPaaS that allows you to integrate any system or application, regardless of whether it is from SAP or not. The SAP Integration Suite provides various connectors, adapters, APIs, and pre-built integrations that enable you to connect to third-party software with ease and flexibility. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

#### NEW QUESTION # 16

.....
