SAP Certified Associate - Implementation Consultant - End-to-End Business Processes for the Intelligent Enterprise Sample Questions (Q38-Q43):

NEW QUESTION # 38

Which valuation level do you need to choose when you want to use the Production Planning application?

- A. Client
- B. Controlling Area
- **C. Plant**
- D. Company Code

Answer: C

Explanation:

In SAP systems, the valuation level determines the granularity at which material stocks are valued. When implementing the Production Planning (PP) module, it is essential to set the valuation level at the plant level.

This configuration allows for distinct valuation of materials across different plants, facilitating accurate cost tracking and production planning. Setting the valuation at the plant level ensures that each plant's material valuations reflect their specific operational costs and activities.
