39. Frage

In general journal entries. Which date determines the reporting period in which document values are included?

- A. Translation Date
- B. Journal Entry Date
- C. Posting Date
- D. Reference Date

Antwort: C

Begründung:

In the context of general journal entries in SAP S/4HANA Cloud Public Edition, the 'Posting Date' determines the reporting period in which document values are included. This date is critical as it defines the financial period to which the transaction belongs, affecting the accounting records, financial statements, and the overall financial reporting for that period. Ensuring the correct posting date is vital for maintaining accurate and timely financial information.

40. Frage

Which asset characteristic controls if an asset is under construction

- A. Asset class
- B. Settlement profile
- C. Capitalization date
- D. Depreciation key

Antwort: A

Begründung:

In SAP S/4HANA Cloud Public Edition, the characteristic that controls whether an asset is under construction is the 'Asset class'. Asset classes are used to categorize assets and define the controlling parameters for asset postings, including whether the asset is under construction. Assets under construction are typically managed in their own asset class with specific configurations, such as capitalization date rules and depreciation keys, tailored to the treatment of construction in progress until they are ready to be capitalized and put into use.

41. Frage

Which process in the integrated procure-to-pay process generates a balance sheet relevant financial accounting document? Note: There are 2 correct answers to this question

- A. Purchase order creation
- B. Material requirements planning
- C. Invoice verification
- D. Goods receipt

Antwort: C,D

Begründung:

In the integrated procure-to-pay process within SAP S/4HANA Cloud Public Edition, the processes that generate balance sheet relevant financial accounting documents are: A. Invoice Verification: This process involves the verification of incoming invoices against purchase orders and goods receipts. The process results in the posting of liabilities to the vendor and adjustments to the corresponding expense or asset accounts, impacting the balance sheet. D. Goods Receipt: This process records the receipt of goods from a vendor into inventory, affecting inventory assets on the balance sheet. The goods receipt process increases inventory values and records the corresponding obligation to pay the vendor, impacting the balance sheet.
