To which partner role does the IT Contact first assign access permission for SAP Cloud ALM?

- A. LoB configuration expert
- B. Project manager
- C. Lead configuration expert
- D. Communication contact

Answer: B

Explanation:

The IT Contact is the person who receives the welcome email from SAP and is responsible for setting up the initial access to SAP Cloud ALM. The IT Contact needs to eventually provide all project team members access to SAP Cloud ALM, but it's most important the partner and customer project managers are given access first, because they are responsible for setting up the implementation project and assigning tasks to the other project team members¹.
