100% Pass 2025 SAP Latest C-S4CPR-2502: SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Sourcing and Procurement Actual Braindumps

The C-S4CPR-2502 quiz guide through research and analysis of the annual questions, found that there are a lot of hidden rules are worth exploring, plus we have a powerful team of experts, so the rule can be summed up and use. The C-S4CPR-2502 prepare torrent can be based on the analysis of the annual questions, it is concluded that a series of important conclusions related to the qualification examination, combining with the relevant knowledge of recent years. C-S4CPR-2502 test material will improve the ability to accurately forecast the topic and proposition trend this year to help you pass the C-S4CPR-2502 exam.

SAP C-S4CPR-2502 Exam Syllabus Topics:

Topic	Details

Topic 1	• Introduction to Cloud Computing and SAP Cloud ERP Deployment Options: This section of the exam measures skills of a Cloud ERP Consultant and covers foundational knowledge of cloud computing and SAP S • 4HANA Cloud deployment options. It provides insights into multi-tenant vs single-tenant models and helps determine the best fit for customer requirements.
Topic 2	• System Landscapes and Identity Access Management: This section of the exam measures skills of a SAP System Administrator and covers basic understanding of the SAP S • 4HANA Cloud system architecture, including identity and access management concepts. It focuses on setting up user roles, managing authorizations, and maintaining secure system access within the SAP landscape.
Topic 3	• Implementation and Configuration for Sourcing and Procurement: This section of the exam measures skills of a SAP Sourcing and Procurement Consultant and covers the core configuration tasks required to set up sourcing and procurement processes in SAP S • 4HANA Cloud. It includes implementing purchase requisitions, purchase orders, approvals, sourcing, and invoice management while ensuring alignment with organizational procurement needs.
Topic 4	• Extensibility and Integration: This section of the exam measures skills of a SAP Integration Consultant and covers the basic principles of system extensibility and integration in SAP S • 4HANA Cloud. It touches upon in-app and side-by-side extensions as well as integrating with external systems through APIs and standard tools.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Sourcing and Procurement Sample Questions (Q29-Q34):

NEW QUESTION # 29

What is the characteristic of consignment in the Supplier Consignment (2LG) process?

- A. A supplier provides you with material with agreed periods and you have the liability of the consignment stock.
- B. A supplier stores your material in its premises but has no liability on the consignment stock.
- C. A supplier provides you with material with agreed periods that is stored in its premises.
- **D. A supplier provides you with material that is stored on your premises but is still the property of the supplier.**

Answer: D

NEW QUESTION # 30

Which tasks are mandatory before you can migrate data for a specific object? Note: There are 2 correct answers to this question.

- A. You select the same migration method previously used for other objects
- **B. Permission to migrate the data has been assigned**
- **C. Predecessor objects have been migrated**
- D. All previous migration projects are in the "Finished" status

Answer: B,C

Explanation:

Before migrating data for a specific object in SAP S/4HANA Cloud Public Edition, certain prerequisites must be fulfilled to ensure the migration process is successful and consistent. Based on SAP's official documentation, the following two tasks are mandatory:

* Predecessor objects have been migrated (Option B): In SAP S/4HANA Cloud Public Edition, many objects have dependencies on other objects. For example, before migrating purchase orders, you must ensure that the related vendor master data and material master data have already been migrated. This ensures referential integrity and avoids errors during the migration process. The SAP Help Portal and SAP Data Migration Guide explicitly state that predecessor objects must be migrated first to maintain data consistency.

* Permission to migrate the data has been assigned (Option C): To perform data migration, users must have the necessary permissions and roles assigned in the system. These permissions are required to access the migration tools, upload data files, and execute migration projects. Without the appropriate permissions, users will not be able to initiate or complete the migration process.

This requirement is documented in the SAP S/4HANA Cloud Security Guide and the SAP Data Migration Best Practices.

* A. You select the same migration method previously used for other objects: While consistency in migration methods can simplify the process, it is not a mandatory requirement. Different objects may require different migration methods based on their complexity and dependencies. SAP allows flexibility in choosing migration methods for each object.

* D. All previous migration projects are in the "Finished" status: It is not mandatory for all previous migration projects to be in the "Finished" status before starting a new migration. However, ensuring that predecessor objects are migrated (as stated in Option B) is critical. Some migration projects can run in parallel, provided there are no dependencies between them.

* SAP Help Portal - Data Migration Overview: Provides an overview of the data migration process, including prerequisites and dependencies. <https://help.sap.com>

* SAP Data Migration Guide for SAP S/4HANA Cloud Public Edition: Details the steps and prerequisites for migrating data, including the importance of migrating predecessor objects.

* SAP S/4HANA Cloud Security Guide: Explains the role-based permissions required for performing data migration tasks.

* SAP Data Migration Best Practices: Outlines best practices for ensuring a smooth and error-free migration process, including permission assignments and dependency management.

Why the other options are incorrect: Key References: By adhering to these verified guidelines, organizations can ensure a seamless and compliant data migration process in SAP S/4HANA Cloud Public Edition.

NEW QUESTION # 31

Which job template can you use for automated invoice settlement when you schedule supplier invoice jobs?

- A. Automatic Delivery Cost Settlement
- **B. Evaluated Receipt Settlement**
- C. Consignment and Pipeline Settlement
- D. Schedule Supplier Invoice Output

Answer: B

Explanation:

When scheduling supplier invoice jobs for automated invoice settlement in SAP S/4HANA Cloud Public Edition, the Evaluated Receipt Settlement (ERS) job template is used. ERS automates the settlement process based on goods receipts and purchase orders, eliminating the need for manual invoice entry.

* Evaluated Receipt Settlement (Option B): ERS is a feature that automatically generates invoices based on the goods receipt and purchase order data. This ensures timely and accurate settlement of supplier invoices. The SAP Invoice Management Guide confirms that ERS is the appropriate job template for automated invoice settlement.

* A. Schedule Supplier Invoice Output: This job template is used for generating and sending supplier invoice outputs, not for automated settlement.

* C. Consignment and Pipeline Settlement: This template is used for settling consignment and pipeline stock, which involves different processes than standard supplier invoices.

* D. Automatic Delivery Cost Settlement: This template is used for settling delivery costs, not for supplier invoices.

* SAP Invoice Management Guide: Explains the functionality of Evaluated Receipt Settlement and its role in automating supplier invoice processing. <https://help.sap.com>

* SAP S/4HANA Cloud Accounts Payable Guide: Provides details on supplier invoice processing and automation options.

Why Option B is Correct: Why the Other Options Are Incorrect: Key References:

NEW QUESTION # 32

What provides a foundation for the SAP Cloud ERP where integrations and extensions live?

- A. SAP ABAP Environment
- B. SAP Discovery Center
- C. SAP Business Accelerator Hub
- **D. SAP Business Technology Platform**

Answer: D

Explanation:

The SAP Business Technology Platform (BTP) provides the foundation for SAP Cloud ERP, enabling integrations, extensions, and innovations. It serves as a unified platform for developing, integrating, and extending SAP solutions.

* SAP Business Technology Platform (Option D): SAP BTP is the underlying platform that supports integrations, extensions, and custom developments for SAP S/4HANA Cloud Public Edition. It includes tools like SAP Integration Suite, SAP Extension Suite,

and SAP Analytics Cloud, which facilitate seamless connectivity and extensibility. The SAP BTP Documentation confirms its role as the foundation for SAP Cloud ERP.

* A. SAP Discovery Center: The SAP Discovery Center is a resource for exploring best practices, reference architectures, and implementation guidance but does not serve as the technical foundation for integrations and extensions.

* B. SAP Business Accelerator Hub: The SAP Business Accelerator Hub is a platform for testing and exploring APIs but does not provide the foundational infrastructure for SAP Cloud ERP.

* C. SAP ABAP Environment: The SAP ABAP Environment is a development environment for building custom applications but is not the overarching platform for integrations and extensions.

* SAP BTP Documentation: Explains the role of SAP Business Technology Platform in supporting SAP Cloud ERP. <https://help.sap.com>

* SAP S/4HANA Cloud Integration Guide: Provides details on how SAP BTP enables integrations and extensions for SAP S/4HANA Cloud Public Edition.

Why Option D is Correct: Why the Other Options Are Incorrect: Key References:

NEW QUESTION # 33

Through which component do you access your assigned process tasks from the SAP Activate Roadmap of SAP S/4HANA Cloud Public Edition (3-system landscape)?

- A. SAP Cloud ALM for Implementation
- B. SAP Cloud ALM for Service
- C. SAP Cloud ALM for Operations
- D. SAP Central Business Configuration

Answer: A

NEW QUESTION # 34

.....

Just like the saying goes, it is good to learn at another man's cost. In the process of learning, it is more important for all people to have a good command of the method from other people. The C-S4CPR-2502 study materials from our company will help you find the good study method from other people. Using the C-S4CPR-2502 Study Materials from our company, you can not only pass your exam, but also you will have the chance to learn about the different and suitable study skills. We believe these skills will be very useful for you near life.
