SAP C-S4EWM-2023 Latest Study Guide | Passing C-S4EWM-2023 Score Feedback

As is known to us, getting the newest information is very important for all people to pass the exam and get the certification in the shortest time. In order to help all customers gain the newest information about the C-S4EWM-2023 exam, the experts and professors from our company designed the best C-S4EWM-2023 Study Materials. The IT experts will update the system every day. If there is new information about the exam, you will receive an email about the newest information about the C-S4EWM-2023 study materials.

SAP C-S4EWM-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.
Topic 2	Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).
Topic 3	Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.

Topic 4	Shipping and Receiving: It focuses on configuring Yard Management, SAP Dock Appointment Scheduling, and using the Shipping Cockpit.
Topic 5	Cross Topics (Labor Management, Exception Handling, Batches, Serial Numbers): This topic includes setting up labor management and exception handling, and working with additional product information.
Topic 6	Managing Clean Core: It covers evaluating and applying clean core principles to ERP to maximize business process agility, reduce adaptation efforts, and accelerate innovation.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q47-Q52):

NEW QUESTION # 47

Where do you enable opportunistic cross-docking in a decentralized EWM? (Repeated question from batch 1, included for completeness)

- A. In the warehouse and the document type
- B. In the product and the document type
- C. In the warehouse and the product
- D. In the product and the warehouse process type

Answer: D

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Opportunistic cross-docking in decentralized EWM is enabled at the product level and linked to the warehouse process type.

Option B ("In the product and the warehouse process type") is correct, configured in the product master (Warehouse tab) and

SPRO: SCM Extended Warehouse Management > Cross-Docking > Opportunistic Cross-Docking. Options A, C, and D miss the critical process type linkage. (See Question 1 for full details.)

NEW QUESTION # 48

With decentralized EWM, you can skip certain document categories. Which document category combination is still mandatory?

- A. A production material request and a stock transfer
- B. A posting change request and a posting change
- C. An outbound delivery order and an outbound delivery
- D. An outbound delivery request and an outbound delivery order

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

In decentralized EWM, some document categories can be bypassed, but option A ("An outbound delivery order and an outbound delivery") is mandatory because the outbound delivery order (ODO) is created in EWM from an ERP outbound delivery request, and the outbound delivery is completed after processing, configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Outbound Delivery.

Other combinations (B, C, D) can be optional or situational.

NEW QUESTION # 49

What are the advantages of using a mobile device during physical inventory? Note: There are 2 correct answers to this question.

- A. You can use collective counting for bulk storage.
- B. It is optional to block bin.
- C. There is a special SAP Fiori app available.
- D. The stock is immediately corrected in SAP ERP.

Answer: A,D

NEW QUESTION # 50

What is the purpose of a business system in the system integration? Note: There are 2 correct answers to this question.

- A. It allows the mapping of document type and item type depending on the source system.
- **B. It is connected to a logical system, as in warehouse requests only the business system is stored.**
- **C. It can be used to separate materials coming from two different systems.**
- D. It defines the RFC parameters for the integration.

Answer: B,C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The business system in EWM integration represents the source or target system (e.g., ERP) in the landscape.

Option A ("It is connected to a logical system...") is correct because it links to a logical system via RFC, and warehouse requests store the business system for tracking, configured in SPRO: SCM Extended Warehouse Management > Interfaces > Define Business System. Option C ("It can be used to separate materials...") is correct as it differentiates stock origins in multi-system scenarios. Option B is incorrect because RFC parameters are defined separately, and option D is handled by document type mapping, not the business system itself.

NEW QUESTION # 51

You want to use Labor Management. For which combination must you activate Labor Management?

- A. Warehouse number and warehouse process type
- B. Warehouse number and external process step
- C. Warehouse number and labor activity
- **D. Warehouse number and internal process step**

Answer: D

Explanation:

Labor Management Activation

* To utilize labor management effectively, it must be activated at the warehouse number and internal process step level, as these define the operational tasks within the warehouse.

Excluded Options

* A (External Process Step): External steps are not used for labor tracking.

* C (Warehouse Process Type): While process types are relevant, labor management activation occurs at a higher level.

* D (Labor Activity): Labor activity is defined within labor management but not used for activation.

SAP S/4HANA Cloud Private Edition Reference

* Refer to Labor Management Activation and Configuration in EWM.

NEW QUESTION # 52

.....

To help applicants prepare successfully according to their styles, we offer three different formats of C-S4EWM-2023 exam dumps. These formats include desktop-based C-S4EWM-2023 practice test software, web-based SAP C-S4EWM-2023 Practice Exam, and SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management dumps pdf format. Our customers can download a free demo to check the quality of C-S4EWM-2023 practice material before buying.
