**Trusted C-TS414-2023 Exam Resource | Study C-TS414-2023 Group**

In the past few years, our C-TS414-2023 study materials have helped countless candidates pass the C-TS414-2023 exam. After having a related certification, some of them encountered better opportunities for development, some went to great companies, and some became professionals in the field. C-TS414-2023 Study Materials have stood the test of time and market and received countless praises. Through the good reputation of word of mouth, more and more people choose to use C-TS414-2023 study torrent to prepare for the C-TS414-2023 exam, which makes us very gratified.

## **SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q22-Q27):**

### **NEW QUESTION # 22**

You want to complete a quality notification, but an error message appears during the status check. What could be the cause?

- A. Open defects
- B. Open activities
- **C. Open tasks**
- D. Open causes

**Answer: C**

Explanation:

Completing a quality notification (e.g., transaction QM02, status NOCO) requires all dependent objects to be closed:

\* Open Tasks (B): Open tasks (e.g., "Investigate issue") prevent completion because they indicate unresolved actions. The system checks task status (e.g., TSOS) and blocks completion if any remain open (SPRO > QM > Quality Notifications > Define Status Profiles).

\* Open Defects (A): Defects are recorded in lots or notifications but don't directly block completion unless tied to tasks.

\* Open Activities (C): Activities are logged events, not blockers unless configured as tasks.

\* Open Causes (D): Causes describe problems but don't prevent completion unless linked to open tasks.

Thus, "Open tasks" is the correct answer. References: SAP Help Portal - "Notification Completion in QM"; SAP S/4HANA QM User Guide - "Status Management".

### **NEW QUESTION # 23**

What are the prerequisites for the automatic usage decision? Note: There are 3 correct answers to this question.

- **A. No inspection characteristic was rejected**
- B. All inspection operations were completed
- C. Activity recording has been finished for all inspection operations
- **D. There are no defect records for the inspection lot**
- **E. All required inspection characteristics were confirmed and completed**

**Answer: A,D,E**

Explanation:

Automatic usage decision (UD) in SAP QM (configured via transaction QA16) requires:

\* No Inspection Characteristic Was Rejected (A): All characteristics must be accepted (e.g., valuation

"A") for the system to proceed automatically (SPRO > QM > Quality Inspection > Usage Decision > Define Automatic UD).

\* All Required Inspection Characteristics Were Confirmed and Completed (B): Required characteristics (marked in the plan) must have results recorded and valuated (status RREC).

\* There Are No Defect Records for the Inspection Lot (E): Open defects block automatic UD, ensuring quality issues are resolved first.

\* Activity Recording Finished for All Operations (C): Activity confirmation (e.g., time) is optional and not a prerequisite.

\* All Inspection Operations Completed (D): Operations completion isn't mandatory; characteristic completion is sufficient.

Thus, "A, B, E" are the correct answers. References: SAP Help Portal - "Automatic Usage Decision"; SAP S/4HANA QM User Guide - "UD Processing".

### **NEW QUESTION # 24**

Your customer uses MIC and requests automatic defect recording

After configuration defect recording the implementation Guide, which additional steps must you perform to satisfy customer requirements?

(2 correct ans)

- A. Assign an inspection method to your MIC
- B. Activate defects recording in the characteristic control indicator for your MIC
- C. Assign a notification type to an inspection type
- D. Select the radio button to activate quality notification in the defect class

**Answer: B,C**

#### **NEW QUESTION # 25**

Which settings are required for the immediate creation of inspection instruction during goods receipt process. Note : 3 correct answer

- A. Settings for print control in implementation Guide (IMG)
- B. Control setting in quality info record
- C. Control setting in characteristic of the task list
- D. Inspection type settings in the implementation guide (IMG)
- E. Inspection type settings in Material master

**Answer: A,C,D**

#### **NEW QUESTION # 26**

A buyer wants to quality management department to approve a new vendor malarial -combination.

After activating the QM in procurement process , what the quality management department ensure in.....

Correct 2

- A. The inspection plan includes a relevant control key at operation level
- B. A valid release quality info record exists
- C. The material master has an active inspection type
- D. The material master has a relevant QM Control key assigned to it
- E. A quality agreement for vendor master exists

**Answer: B,E**

#### **NEW QUESTION # 27**
