High-quality C-TS414-2023 Test Answers & Passing C-TS414-2023 Exam is No More a Challenging Task

Before making a final purchase, Dumpkiller customers can try the features of the C-TS414-2023 practice material with a free demo. If a customer purchases our C-TS414-2023 exam preparation material, we will provide them with Free C-TS414-2023 Exam Questions updates for up to 1 year. If the C-TS414-2023 certification test content changes after your purchase within 1 year, you will instantly get free real questions updates.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q60-Q65):

NEW QUESTION # 60

Which object must combined in test scheduling in the stability study Correct 3

- A. Physical samples
- B. Strategy
- C. Inspection plans
- D. Initial sample
- E. Physical drawing procedure

Answer: A,B,C

NEW QUESTION # 61

Which of the following are features of the clean core dashboard? Note: There are 2 correct answers to this question.

- A. It can be accessed by using SAP For Me
- B. Customers can grant access to the dashboard to partners
- C. It can be used in all SAP S/4HANA Cloud editions
- D. Customers can use the dashboard in the dev, test, and production tenants

Answer: A,D

Explanation:

The clean core dashboard in SAP S/4HANA monitors system adherence to clean core principles:

* Customers Can Use the Dashboard in the Dev, Test, and Production Tenants (B): The dashboard is available across all system tenants (development, test, production) to assess clean core status universally.

* It Can Be Accessed by Using SAP For Me (C): SAP For Me (customer portal) provides access to the clean core dashboard, a standard entry point as of 2025.

* Customers Can Grant Access to Partners (A): Partner access isn't a standard feature; it's customer- controlled.

* It Can Be Used in All SAP S/4HANA Cloud Editions (D): Primarily for Cloud Private Edition and Public Cloud, not guaranteed for all editions (e.g., on-premise specifics vary).

Thus, "Customers can use the dashboard in the dev, test, and production tenants" and "It can be accessed by using SAP For Me" are the correct answers. References: SAP Help Portal - "Clean Core Dashboard"; SAP S/4HANA Cloud User Guide - "SAP For Me".

NEW QUESTION # 62

Which of the following are possible starting points for the internal problem-solving process using the 8D methodology? Note: There are 2 correct answers to this question.

- A. Defects recording for an inspection lot
- B. Defect of the defect category production defect
- C. Item of a quality notification
- D. Defect of defect category Generic Defect

Answer: A,C

Explanation:

The 8D methodology in SAP QM is an internal problem-solving process triggered by quality issues:

* Defects Recording for an Inspection Lot (A): Recording defects in an inspection lot (e.g., transaction QE51N) can initiate an 8D process via a linked notification (e.g., Q2), a standard starting point (SPRO

> QM > Quality Notifications > 8D Methodology).

* Item of a Quality Notification (C): The notification item (e.g., in QM01) directly supports 8D by documenting the problem (D1) and subsequent steps, a primary entry point.

* Defect of Defect Category Generic Defect (B): "Generic Defect" isn't a standard category; defect types are specific (e.g., production, supplier).

* Defect of the Defect Category Production Defect (D): While relevant, it's the act of recording (A) or notification (C) that starts 8D, not the category alone.

Thus, "Defects recording for an inspection lot" and "Item of a quality notification" are the correct answers.

References: SAP Help Portal - "8D Methodology in QM"; SAP S/4HANA QM User Guide - "Problem Solving".

NEW QUESTION # 63

What are some SAP recommended guiding principles to achieve clean core operations? Note: There are 3 correct answers to this question.

- A. Establish an organizational structure, technical foundation, and transformation methodology for clean core
- B. Establish regular housekeeping tasks and procedures
- C. Integrate clean core practices in the end-to-end value process chain
- D. Define roles and responsibilities as part of a process transformation office
- E. Establish release management

Answer: A,B,C

Explanation:

SAP's clean core principles (as per S/4HANA Cloud strategy) aim for a standardized, upgrade-friendly system:

* Establish an Organizational Structure, Technical Foundation, and Transformation Methodology for Clean Core (A): This foundational principle ensures governance and methodology (e.g., SAP Activate) for clean core adoption.

* Integrate Clean Core Practices in the End-to-End Value Process Chain (B): Embedding clean core into business processes ensures minimal customization and maximum standard use.

* Establish Regular Housekeeping Tasks and Procedures (C): Ongoing maintenance (e.g., data cleanup) keeps the system lean and standard-compliant.

* Establish Release Management (D): While important, it's a broader IT practice, not a core clean core principle.

* Define Roles and Responsibilities as Part of a Process Transformation Office (E): Useful but not a primary SAP-defined clean core principle.

Thus, "A, B, C" are the correct answers. References: SAP Help Portal - "Clean Core Strategy"; SAP S/4HANA Cloud Best Practices - "Clean Core".

NEW QUESTION # 64

What must you do in configuration to enable defects recording during an inspection with inspection lots? Note : 2 correct answer

- A. Activate reference to Existing notifications.
- B. Activate the work flow template
- C. Assign the notification type to the inspection type.
- D. Define the defect report type

Answer: C,D

NEW QUESTION # 65

.....

You do not need to think it is too late for you to study. As the saying goes, success and opportunity are only given to those people who are well-prepared! If you really long to own the C-TS414-2023 certification, it is necessary for you to act now. We are willing to help you gain the certification. In order to meet the needs of all people, the experts of our company designed such a C-TS414-2023 Guide Torrent that can help you pass your exam successfully.
