The CompTIA CY0-001 certification exam is a crucial part of career development in the tech sector. Cracking the CompTIA SecAI+ Certification Exam (CY0-001) exam strengthens your chances of landing high-paying jobs and promotions. Yet, preparing for the CY0-001 Exam can be challenging, and many working applicants struggle to find CY0-001 practice test questions they require to be successful in their pursuit.

You must want to receive our CY0-001 practice questions at the first time after payment. Don't worry. As long as you finish your payment, our online workers will handle your orders of the CY0-001 study materials quickly. The whole payment process lasts a few seconds. And if you haven't received our CY0-001 Exam Braindumps in time or there are some trouble in opening or downloading the file, you can contact us right away, and our technicals will help you solve it in the first time.

CY0-001 Current Exam Content, CY0-001 Pass Guaranteed

If you don't want to waste much time on preparing for your exam, CompTIA CY0-001 exam braindumps files will be a shortcut for you. Good exam materials make you twice the result with half the effort. Our CompTIA CY0-001 exam braindumps cover many questions and answers of the real test so that you can be familiar with the real test question. When you attend CompTIA CY0-001 Exam, it is easy for you to keep good mood and control your finishing time.

CompTIA SecAI+ Certification Exam Sample Questions (Q96-Q101):

NEW QUESTION # 96

A machine learning (ML) engineer is working with a security engineer to identify the best practices for securing a system with various AI models.

Which of the following actions should the engineers suggest?

- A. Implementing comprehensive security architecture
- B. Conducting guardrail testing and security validation
- C. Using a secure software development life cycle (SDLC)
- **D. Following a secure model development life cycle (MDLC)**

Answer: D

Explanation:

A secure MDLC is tailored to AI and ML systems, ensuring security is integrated throughout the model's design, training, validation, deployment, and monitoring phases. This directly addresses best practices for securing systems with AI models.

NEW QUESTION # 97

A security analyst is aware of an active penetration test in the environment. The analyst examines security information and event management (SIEM) log data and notices the following output from the AI system:

Which of the following is the vulnerability that has occurred and the control the analyst should implement?

- **A. The vulnerability is sensitive information disclosure, and the analyst should employ masking.**
- B. The vulnerability is prompt injection, and the analyst should use endpoint detection response (EDR).
- C. The vulnerability is role impersonation, and the analyst should use validation.
- D. The vulnerability is model hallucinations, and the analyst should develop output validations.
- E. The vulnerability is jailbreaking, and the analyst should utilize role-based access control.

Answer: A

Explanation:

The log data reveals personally identifiable information (PII) such as name, address, and a full credit card number. This represents a sensitive information disclosure vulnerability. The appropriate control is data masking, which protects sensitive data in logs and outputs while still allowing necessary system monitoring.

NEW QUESTION # 98

A security architect performs threat modeling of an AI system. The architect needs to determine which attacks can be performed against the system.

Which of the following actions should the architect take next?

- A. Analyze MITRE Adversarial Threat Landscape for AI Systems (ATLAS) for tactics, techniques, and procedures (TTPs).
- **B. Identify trust boundaries and perform threat modeling with Open Worldwide Application Security Project (OWASP) Top 10.**
- C. Leverage a large language model (LLM) to map likely attack paths based on the code base.
- D. Quantify the risk of known vulnerabilities identified in the AI system.

Answer: B

Explanation:

MITRE ATLAS is specifically designed to catalog adversarial TTPs targeting AI systems. By analyzing ATLAS, the architect can determine which types of attacks are possible against the AI system, making it the most appropriate resource for threat modeling in this context.

NEW QUESTION # 99

A manufacturing company wants to use AI within its operations to improve the efficiency and accuracy of its processes. Which of the following should the organization do first to enable adoption and achieve the business objectives?

- A. Introduce a generative adversarial network (GAN).
- **B. Hire a data and AI architect.**
- C. Achieve International Organization for Standardization (ISO) 42001 certification.
- D. Select a large language model (LLM).

Answer: B

Explanation:

The first step in adopting AI to meet business objectives is to establish the right expertise. A data and AI architect can design the overall strategy, infrastructure, and data pipelines needed for effective AI integration, ensuring alignment with operational goals before selecting specific models or certifications.

NEW QUESTION # 100

Faculty members at a university are concerned about potential inherent bias and inconsistency in one department's AI plagiarism detection service.

Which of the following principles will most likely to address their concerns?

- **A. Consistency**
- B. Accountability
- C. Explainability
- D. Transparency

Answer: A

Explanation:

Consistency ensures that an AI system applies rules and produces results in a uniform manner across all cases. This principle directly addresses concerns about bias and irregular outcomes in the plagiarism detection service.

NEW QUESTION # 101

.....

We are equipped with a team of IT elites who have a good knowledge of IT field and do lots of study in CompTIA certification exam. All dumps free of Prep4King are creating based on the actual test. Our colleagues check the updating of CY0-001 Test Questions everyday to make sure that all answers are latest and valid. Our CY0-001 test study material contains valid top questions and detailed exam answers.
