VCESoft始終致力於為客戶提供高品質的學習資料，來提高考生一次性通過CIPS L5M10考試的概率，這是考生獲取認證最佳捷徑。我們的L5M10認證PDF和軟件版本具有最新更新的問題解答，涵蓋了所有考試題目和課題大綱，在線測試引擎測試可以幫助您準備并熟悉實際考試情況。在您決定購買我們產品之前，您可以先免費嘗試CIPS L5M10 PDF版本的DEMO，此外，我們還提供全天24/7的在線支持，以便為客戶提供最好的便利服務。

CIPS L5M10 考試大綱：

主題	簡介
主題 1	• Understand Capacity Planning and Control in Logistics Management: This section of the exam measures the skills of Operations Planners and focuses on the techniques and systems used to manage capacity, demand, and resource planning across logistics activities. It explains how organizations balance planning with real-time control, adjust to fluctuating demand, and schedule workloads effectively. Candidates are expected to understand capacity concepts, constraints, demand forecasting, capacity measurement, and different planning approaches such as level planning, chase demand strategies, and demand management methods. The section also examines the use of technology in capacity planning, particularly Materials Requirements Planning (MRP), MRP II, ERP systems, master production scheduling, inventory data, and bills of materials, while recognizing the limitations of these tools. Finally, it covers the role of reverse logistics, emphasizing the handling of customer returns, the development of return policies, and how returned items are reintegrated into the supply chain.
主題 2	• Analyse the Role and Activities of Logistics Management: This section of the exam measures the skills of Logistics Managers and covers the essential concepts, functions, and strategic importance of logistics within modern supply chains. It explains what logistics is, how its key elements work together—such as transportation, warehousing, inventory, packaging, information flow, and security—and how these components support procurement, production, distribution, after-sales processes, and product disposal. The section explores how logistics integrates with broader supply chain management and introduces the idea of total logistics and total cost thinking, showing how multimodal transport and pipeline inventory contribute to efficiency. Candidates must understand how logistics creates competitive advantage by aligning operations with business strategy, managing customer service levels, measuring service quality, and recognizing its financial impact. This heading also evaluates the increasing role of technology in logistics, including barcoding, RFID, e-fulfilment systems, warehouse management systems, automated data capture, and the integration of digital tools across the logistics network.

通過率高的L5M10软件版，真實還原CIPS L5M10考試內容

有人問，成功在哪里？我告訴你，成功就在VCESoft。選擇VCESoft就是選擇成功。VCESoft CIPS的L5M10考試培訓資料是幫助所有IT認證的考生通過認證的，它針對CIPS的L5M10考試認證的，經過眾多考生反映，VCESoft CIPS的L5M10考試培訓資料在考生中得到了很大的反響，建立了很好的口碑，說明選擇VCESoft CIPS的L5M10考試培訓資料就是選擇成功。

最新的 CIPS Level 5 Advanced Diploma in Procurement and Supply L5M10 免費考試真題 (Q23-Q28):

問題 #23

When using a Total Cost of Ownership (TCO) model to determine the true cost of holding inventory, which of the following costs would not be included in the calculation?

- A. Pilferage
- B. Obsolescence
- C. Warehouse staff uniforms
- D. Insurance

答案： C

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

TCO for inventory focuses on all direct and indirect costs incurred in holding stock - such as pilferage (theft), obsolescence (unsellable items), and insurance (risk protection for loss/damage). Staff uniforms, however, are general overheads unrelated to inventory holding cost. (Reference: CIPS L5M10 Study Guide, "Costs of holding inventory," p. 27)

問題 #24

Mobile Ltd offers customers £50 to return old or broken phones. What is the most likely reason?

- A. Recovery
- B. Reuse
- C. Re-manufacture
- D. Recycle

答案： A

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

"Recovery" focuses on extracting valuable materials (e.g., precious metals) from returned items. For broken phones, recovery is often most economical versus full remanufacture. (CIPS L5M10 Study Guide, p. 191)

問題 #25

Bradbury's Ltd manufactures chocolate and uses an ERP system. Which of the following would be included in the Master Production Schedule (MPS)?

- A. The number of customers served by Bradbury's
- B. The profit margin of each chocolate bar
- C. The full list of ingredients to order
- D. The rate at which chocolate must be produced in Q1

答案： D

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

The MPS defines what products will be made, in what quantities, and when. It is driven by sales forecasts, existing inventory, and resource capacity. Ingredients (A) are part of the Bill of Materials, not the MPS.

(Reference: CIPS L5M10 Study Guide, Master Production Scheduling, p. 180)

問題 #26

Systems which prevent issues that are likely to occur in the future, and which include preventative maintenance for machinery, are commonly known as what type of control system? Select TWO

- A. Feedback control
- **B. Feedforward control**
- C. Concurrent control
- **D. Preventative control**

答案: B,D

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

Feedforward (preventative) control anticipates and prevents deviations before they occur (e.g., scheduled maintenance). This contrasts with concurrent (controls during the activity) and feedback (after-the-fact correction). (CIPS L5M10 Study Guide, pp. 101-102)

問題 #27

Strategic planning is long-term planning, usually over 5-10 years in the future. Is this sentence correct?

- A. No - long-term plans are tactical rather than strategic
- **B. Yes - the longer the strategic plan, the less detail it will include**
- C. No - strategic plans detail the objectives of the organisation over the upcoming year
- D. Yes - strategic plans have more detail than short-term plans

答案: B

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

Strategy deals with long-term direction and typically contains broad objectives with lower detail; tactical (mid-term) and operational (short-term) plans add specificity and detail. Therefore, longer-horizon strategic plans contain less operational detail than short-term plans. (Reference: CIPS L5M10 Study Guide, Planning horizons-strategic/tactical/operational, pp. 99-100)

問題 #28
