Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q135-Q140):

NEW QUESTION # 135

Which NIST SP defines the Assessment Procedure leveraged by the CMMC?

- A. NIST SP 800-171
- B. NISTSP800-53a
- **C. NISTSP800-171a**
- D. NIST SP 800-53

Answer: C

NEW QUESTION # 136

The results package for a Level 2 Assessment is being submitted. What MUST a Final Report. CMMC Assessment Results include?

- A. Gaps or deltas due to any reciprocity model are recorded as met
- B. Suggested improvements for each failed practice
- C. Affirmation for each practice or control
- **D. Documented rationale for each failed practice**

Answer: D

Explanation:

Understanding the CMMC Level 2 Final Report Requirements

For a CMMC Level 2 Assessment, the Final CMMC Assessment Results Report must include:

Assessment findings for each practice

Final ratings (MET or NOT MET) for each practice

A detailed rationale for each practice rated as NOT MET

Why "B. Documented rationale for each failed practice" is Correct?

The CMMC Assessment Process (CAP) Guide states that if a practice is marked NOT MET, the assessors must provide a rationale explaining why it failed.

This rationale helps the OSC understand what needs remediation and, if applicable, whether the deficiency can be addressed via a Plan of Action & Milestones (POA&M).

The Final Report serves as an official record and must be submitted as part of the results package.

Why Other Answers Are Incorrect?

A). Affirmation for each practice or control (Incorrect)

While the report includes a MET/NOT MET rating for each practice, affirmation is not a required component.

C). Suggested improvements for each failed practice (Incorrect)

Assessors do not provide recommendations for improvement—they only document findings and rationale.

Providing suggestions would create a conflict of interest per CMMC-AB Code of Professional Conduct.

D). Gaps or deltas due to any reciprocity model are recorded as met (Incorrect) If an organization is leveraging reciprocity (e.g., FedRAMP, Joint Surveillance Voluntary Assessments), gaps must still be documented—not automatically marked as "MET."

Conclusion The correct answer is B. Documented rationale for each failed practice, as this is a mandatory requirement in the Final CMMC Assessment Results Report.

NEW QUESTION # 137

What is the MINIMUM required marking for a document containing CUI?

- A. "CUI" must be placed in the header and footer of the document
- B. A cover page must be placed to obscure content with the acronym "CUI" prominently placed
- C. "WCUI" must be placed in the header and footer of the document
- D. Portion marks must be placed on all sections, parts, paragraphs, etc. known to contain CUI

Answer: A

Explanation:

Per DoDI 5200.48, Controlled Unclassified Information (CUI), the minimum marking requirement is that the word "CUI" must appear in the header and footer of each page of a document containing CUI. Additional markings such as portion markings or cover sheets may be applied depending on the situation, but the minimum baseline requirement is header and footer placement of "CUI".

NEW QUESTION # 138

In CMMC High-Level scoping, which definition BEST describes an HQ organization?

- A. The unit to which a CMMC Level is applied for each contract
- B. The entity that carries out the tasks under a contract
- C. The teams, services, and technologies that provide support to a Host Unit
- D. The entity legally responsible for the delivery of products or services under a contract

Answer: D

Explanation:

In CMMC scoping terminology, an HQ Organization is the entity legally responsible for contract performance and delivery of products or services.

Supporting Extracts from Official Content:

* CMMC Scoping Guide: "HQ Organization is the legal entity responsible for the performance and delivery of contract requirements." Why Option D is Correct:

* The HQ Org is legally accountable, while Host Units (option A/B) are subordinate entities.

* Option C refers to shared services, not the HQ.

NEW QUESTION # 139

The Assessment Team has completed the assessment and determined the preliminary practice ratings. The preliminary practice ratings must be shared with the OSC prior to being finalized for submission. Based on this information, the assessor should present the preliminary practice ratings:

- A. Over the phone after the final Daily Checkpoint
- B. After discussing with the CMMC-AB
- C. Via email after the final Daily Checkpoint
- D. During the final Daily Checkpoint

Answer: D

Explanation:

According to the CMMC Assessment Process (CAP) v2.0, assessors are required to conduct Daily Checkpoint Meetings at the end of each day to summarize progress with the OSC (Organization Seeking Certification).

The final Daily Checkpoint is where preliminary practice ratings are shared, before the quality assurance review and Out-Brief. The Out-Brief is reserved for the presentation of final results. Additionally, Department of Defense regulations (32 CFR §170.17(c)(2)) provide a 10-business-day re-evaluation window for requirements marked NOT MET before the final report is delivered, which necessitates that the OSC see preliminary ratings during the assessment process itself.
