100% Pass The Open Group - Unparalleled OGEA-103 - TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Valid Dumps Files

OGEA-103 study material has a high quality service team. First of all, the authors of study materials are experts in the field. They have been engaged in research on the development of the industry for many years, and have a keen sense of smell for changes in the examination direction. Experts hired by OGEA-103 exam questions not only conducted in-depth research on the prediction of test questions, but also made great breakthroughs in learning methods. With OGEA-103 training materials, you can easily memorize all important points of knowledge without rigid endorsements. With OGEA-103 Exam Torrent, you no longer need to spend money to hire a dedicated tutor to explain it to you, even if you are a rookie of the industry, you can understand everything in the materials without any obstacles. With OGEA-103 exam questions, your teacher is no longer one person, but a large team of experts who can help you solve all the problems you have encountered in the learning process.

Practice is one of the essential factors in passing the exam. To perform at their best on the real exam, candidates must use The Open Group OGEA-103 practice test material. To this end, OGEA-103 has developed three formats to help candidates prepare for their OGEA-103 exam: desktop-based practice test software, web-based practice test, and a PDF format.

Reliable OGEA-103 Exam Dumps - OGEA-103 Study Guides

If you get our OGEA-103 training guide, you will surely find a better self. As we all know, the best way to gain confidence is to do something successfully. With our OGEA-103 study materials, you will easily pass the OGEA-103 examination and gain more confidence. As there are three versions of our OGEA-103 praparation questions: the PDF, Software and APP online, so you will find you can have a wonderful study experience with your favorite version.

The Open Group TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Sample Questions (Q142-Q147):

NEW QUESTION # 142
Refer to the table below:
Which ADM Phase does this describe?

- A. Phase A

- B. Phase F
- C. Phase E
- D. Phase G

Answer: D

Explanation:
The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

NEW QUESTION # 143
Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.
* General rules and guidelines, intended to be enduring and seldom
amended, that inform and support the way in which an organization sets
about fulfilling its mission
* The joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture.
* A document that is sent from the sponsoring organization to the
architecture organization to trigger the start of an architecture
development cycle
* A set of quantitative statements that outline what an implementation
project must do in order to comply with the architecture.
Which deliverables match these descriptions?

- A. 1 Architecture Requirements Specification -2 Architecture Principles - 3 Architecture Vision - 4 Architecture Contracts
- B. 1 Architecture Principles -2 Architecture Contracts - 3 Architecture Requirements Specification-4 Request for Architecture Work
- C. 1 Architecture Contracts - 2 Architecture Requirements Specification - 3 Architecture Vision - 4 Architecture Principles
- D. 1 Architecture Principles -2 Architecture Contracts - 3 Request for Architecture Work - 4 Architecture Requirements Specification

Answer: D

Explanation:
According to the TOGAF standard, the deliverables that match the descriptions are as follows:
* 1 Architecture Principles: These are general rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission1. They reflect a level of consensus among the various elements of the enterprise, and form the basis for making future IT decisions1.
* 2 Architecture Contracts: These are the joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture2. They are used to ensure that the architecture is implemented and governed according to the agreed-upon specifications and standards2.
* 3 Request for Architecture Work: This is a document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle3. It defines the scope, schedule, budget, deliverables, and stakeholders of the architecture project3.
* 4 Architecture Requirements Specification: This is a set of quantitative statements that outline what an implementation project must do in order to comply with the architecture4. It defines the requirements for each architecture domain, as well as the relationships and dependencies among them4.

NEW QUESTION # 144
What does the TOGAF ADM recommend for use in developing an Architecture Vision document?

- A. Architecture Principles
- B. Gap Analysis
- C. Business Scenarios

- D. Requirements Management

Answer: C

Explanation:
Business scenarios are a technique recommended by the TOGAF ADM for use in developing an Architecture Vision document12.
Business scenarios are a means of capturing the business requirements and drivers, the processes and actors involved, and the desired outcomes and measures of success34. Business scenarios help to create a common vision and understanding among the stakeholders, and to identify and validate the architecture requirements. Business scenarios also provide a basis for analyzing the impact and value of the proposed architecture.

NEW QUESTION # 145
What are the four dimensions used to scope an architecture?

- A. Strategy Portfolio Project Solution Delivery
- B. Breadth Depth Time Period Architecture Domains
- C. Business Data Application Technology
- D. Strategy Segment Capability Budget

Answer: B

Explanation:
The four dimensions used to scope an architecture are Breadth, Depth, Time Period, and Architecture Domains1, p. 8.
Breadth refers to the extent of the enterprise covered by the architecture, which can range from a specific business unit to the entire organization1, p. 8.
Depth refers to the level of detail and completeness of the architecture, which can vary depending on the purpose, scope, and stakeholders of the architecture1, p. 8.
Time Period refers to the temporal aspects of the architecture, such as the current state, the target state, and the transition plan1, p. 8.
Architecture Domains refers to the classification of the architecture into four domains: Business, Data, Application, and Technology1, p. 8.
These four dimensions help define the scope and boundaries of the architecture and ensure that it meets the needs and expectations of the stakeholders.

NEW QUESTION # 146
Exhibit

Consider the illustration showing an architecture development cycle Which description matches the phase of the ADM labeled as item 1?

- A. Conducts implementation planning for the architecture defined in previous phases
- B. Establishes procedures for managing change to the new architecture
- C. Provides architectural oversight for the implementation
- D. Operates the process of managing architecture requirements

Answer: D

Explanation:

The illustration shows an architecture development cycle based on the TOGAF ADM (Architecture Development Method), which is a method for developing and managing an enterprise architecture1.

The ADM consists of nine phases, each with a specific purpose and output. The phases are1:

Preliminary Phase: To prepare and initiate the architecture development cycle, including defining the architecture framework, principles, and governance.

Phase A: Architecture Vision: To define the scope, vision, and stakeholders of the architecture initiative, and to obtain approval to proceed.

Phase B: Business Architecture: To describe the baseline and target business architecture, and to identify the gaps between them.

Phase C: Information Systems Architectures: To describe the baseline and target data and application architectures, and to identify the gaps between them.

Phase D: Technology Architecture: To describe the baseline and target technology architecture, and to identify the gaps between them.

Phase E: Opportunities and Solutions: To identify and evaluate the opportunities and solutions for implementing the target architecture, and to define the work packages and transition architectures.

Phase F: Migration Planning: To finalize the implementation and migration plan, and to ensure alignment with the enterprise portfolio and project management.

Phase G: Implementation Governance: To provide architecture oversight and guidance for the implementation projects, and to manage any architecture change requests.

Phase H: Architecture Change Management: To monitor the changes in the business and technology environment, and to assess the impact and performance of the architecture.

In addition to these phases, there is a central process called Requirements Management, which is labeled as item 1 in the illustration.

This process operates throughout the ADM cycle, and its purpose is to manage the architecture requirements throughout the architecture development, ensuring that they are aligned with the business requirements and the stakeholder concerns2.

Therefore, the description that matches the phase of the ADM labeled as item 1 is C. Operates the process of managing architecture requirements.

NEW QUESTION # 147

......

With the rapid development of society, people pay more and more attention to knowledge and skills. So every year a large number of people take OGEA-103 tests to prove their abilities. But even the best people fail sometimes. In addition to the lack of effort, you may also not make the right choice on our OGEA-103 Exam Questions. A good choice can make one work twice the result with half the effort, and our OGEA-103 study materials will be your right choice.

Reliable OGEA-103 Exam Dumps: https://www.prep4surereview.com/OGEA-103-latest-braindumps.html

Our Reliable OGEA-103 Exam Dumps - TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam dumps torrent has been carefully designed to help you easily to pass even the most challenging Reliable OGEA-103 Exam Dumps - TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam certification and get certified, The Open Group OGEA-103 Valid Dumps Files Also many candidates hope to search free exam materials, The technology of the OGEA-103 study materials will be innovated every once in a while, The Open Group OGEA-103 Valid Dumps Files Your life will totally have a great change.

So when you build your mobile strategy, consider OGEA-103 the full spectrum of web, hybrid and native applications, We have moved the user interface ideas into the Facade iteration, because the evolution OGEA-103 Exam Guide Materials of the user interface should proceed in parallel with the early use case creation, not following.

Enterprise Architecture OGEA-103 free valid dumps & The Open Group OGEA-103 actual pdf exam

Our TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam dumps torrent has been carefully designed to help you easily Reliable OGEA-103 Exam Dumps to pass even the most challenging TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam certification and get certified, Also many candidates hope to search free exam materials.

The technology of the OGEA-103 Study Materials will be innovated every once in a while, Your life will totally have a great change, Later on, working on these The Open Group OGEA-103 weak topic areas you can make it perfect.
