### The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q70-Q75):

#### NEW QUESTION # 70

Complete the sentence Business Transformation Readiness Assessment is \_\_\_\_\_.

- A. to ensure the active support of powerful stakeholders
- B. a joint effort between corporate staff lines of business and IT planners**
- C. widely used to validate an architecture that is being developed
- D. a way to put building blocks into context thereby supporting re-usable solutions

**Answer: B**

Explanation:

Business Transformation Readiness Assessment is a joint effort between corporate staff lines of business and IT planners to evaluate the readiness of the organization to undergo change. It involves assessing factors such as vision, commitment, capacity, capability, culture, and motivation that may influence the success of a business transformation initiative. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.2 Business Transformation Readiness Assessment.

#### NEW QUESTION # 71

According to the TOGAF standard, what term describes an individual with an interest in a system?

- A. stakeholder**
- B. lead architect
- C. sponsor
- D. consumer

**Answer: A**

Explanation:

According to the TOGAF Standard, 10th Edition, a stakeholder is "an individual with an interest in a system" 1. A stakeholder can be anyone who is affected by the system, or who can influence or be influenced by the system. Stakeholders can have different roles, perspectives, and concerns regarding the system, and they can be internal or external to the organization. Stakeholder management is a technique that helps to identify, analyze, and engage the stakeholders of an architecture project, and to address their needs and expectations 2. The other options are not correct, as they are not the term used by the TOGAF Standard to describe an individual with an interest in a system. A consumer is "an individual or group that uses a product or service" 1. A lead architect is "an individual who is responsible for leading the development of an architecture" 1. A sponsor is "an individual who provides funding and support

for an architecture project" 1. Reference: 1: TOGAF Standard, 10th Edition, Part I: Introduction, Chapter 3: Definitions. 2: TOGAF Standard, 10th Edition, Part III: ADM Guidelines and Techniques, Chapter 24: Stakeholder Management.

### NEW QUESTION # 72

Refer to the table below:

□ Which ADM Phase does this describe?

- A. Phase B
- B. Phase A
- C. Phase C
- D. Preliminary Phase

**Answer: A**

Explanation:

Phase B of the ADM cycle is the Business Architecture phase. It describes the development of a Business Architecture to support an agreed Architecture Vision. The objectives of this phase are to describe the baseline and target Business Architecture, identify candidate Architecture Roadmap components based on gaps between the baseline and target, and determine whether an incremental approach is required. Reference:

The TOGAF Standard | The Open Group Website, Section 3.2.2 Phase B: Business Architecture.

### NEW QUESTION # 73

In which section of the TOGAF template for Architecture Principles would a reader find the answer to the question of "How does this affect me?"

- A. Name
- B. Implications
- C. Rationale
- D. Statement

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation

TOGAF defines an Architecture Principle as a qualitative statement of intent that should be met by the architecture. To ensure clarity and consistent application, TOGAF provides a standard template for documenting each principle. The template includes four parts:

\* Name - A clear, precise, and easy-to-remember name for the principle.

\* Answers the question: What is this principle called?

\* Statement - A short, unambiguous sentence that communicates the essence of the principle.

\* Answers the question: What does this principle mean?

\* Rationale - Explains why the principle is important, the benefits of adopting it, and how it supports the enterprise's goals.

\* Answers the question: Why should we adopt this principle?

\* Implications - Highlights the consequences of adopting the principle, including the impact on business processes, technology, governance, and resources.

\* Answers the question: How does this affect me?

Therefore, the correct section where the reader would find the answer to "How does this affect me?" is Implications.

Why the other options are incorrect

\* A. Statement: Defines the essence of the principle but does not address consequences.

\* B. Rationale: Explains the reasoning and justification for the principle but not its practical effects.

\* C. Name: Only provides the identifier or title of the principle.

References

\* The Open Group, TOGAF Standard, Version 9.2, Part III: ADM Guidelines & Techniques - Architecture Principles.

\* The Open Group, TOGAF 9 Certified Study Guide - description of the Architecture Principles template and the purpose of each section.

### NEW QUESTION # 74

Exhibit:

□

Consider the image showing basic architectural concepts. What are items A and B?

- A. A-User, B-Requirement
- B. A-Candidate Architecture, B-Trade-off
- C. A-Base Architecture, B-Target Architecture
- D. A-Stakeholder, B-Concern

**Answer: D**

Explanation:

In the context of TOGAF, a stakeholder is any individual, team, or organization who has interests in, or concerns relative to, the outcome of the architecture. Concerns are those interests which pertain to any aspect of the system's functioning, development or operation, including considerations such as performance, reliability, and security<sup>1</sup>. Reference:

\* The TOGAF Standard, Version 9.2 - Definitions - The Open Group
