## Salesforce Certified Platform Strategy Designer Sample Questions (Q30-Q35):

### NEW QUESTION # 30

A project team led by a strategy designer has just facilitated 3 weeks of user research. What should they do to identify key insights?

- A. As a team, spend time affinity mapping, spotting patterns, and surfacing surprises.
- B. Plot insights on a 2x2 diagram of effort and impact, and align with stakeholders.
- C. Ask each team member to create insights based on their expertise and support with collected quotes.

**Answer: A**

Explanation:

The project team should spend time affinity mapping, spotting patterns, and surfacing surprises, to identify key insights after conducting user research. This method involves grouping data points into themes or categories, finding connections or trends among them, and highlighting unexpected or surprising findings. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/identify-key-insights>

### NEW QUESTION # 31

Cloud Kicks has a complex manufacturing process that allows several factories to contribute to the production of a custom footwear order. The design team is asked to make a new, more efficient process to reduce the time between order placement and delivery to customers.

Which approach should the team use?

- A. Customer journey mapping
- B. Jobs to Be Done framework
- C. Business process modeling

**Answer: C**

Explanation:

Business process modeling is the most suitable approach for redesigning a complex manufacturing process. It allows for the visualization, analysis, and optimization of the production workflow, identifying inefficiencies and opportunities for streamlining operations to reduce lead times.

### NEW QUESTION # 32

A design team presents their vision for a new product, and their executive team has some fundamental questions about how the product strategy will drive business outcomes.

What should the strategy designer do to address these concerns?

- A. Share stories from research that show the design team understands the customers' needs.
- B. Provide a breakdown of the strategy, linking features with consumer benefits and outcomes.
- C. Collect feedback and use it to define constraints for a new co-creation activity with stakeholders.

**Answer: B**

Explanation:

The design team should provide a breakdown of the strategy, linking features with consumer benefits and outcomes, to address the concerns of the executive team. This helps communicate the value proposition and rationale of the product vision, and how it aligns with the business goals and objectives. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/communicate-the-product-vision>

### NEW QUESTION # 33

A cross-disciplinary team at Cloud Kicks has to synthesize top customer quotes and insights from research and turn them into design opportunities.

Which question should the team use to prioritize insights?

- A. How will this improve the customer experience?
- B. What will bring in the most revenue?
- C. Is our technology capable of supporting this need?

**Answer: A**

Explanation:

The best question to prioritize insights from customer research is how will this improve the customer experience, as this focuses on the value proposition and user needs of the design. Asking if the technology is capable of supporting the need or what will bring in the most revenue may not reflect the user-centric approach of design thinking.

#### NEW QUESTION # 34

A fitness company is starting a service that combines data from connected weights with virtual coaching. The company is about to start a new innovation sprint with the following challenge statement: "How might we empower people who are new to fitness to increase their strength?" Which metrics should be used to measure the success of the initiative?

- A. Increase in user referrals and net promoter score (NPS) rating
- B. Increase in new user activity and connected weight utilization
- C. New user activations and connected weight sales

**Answer: B**

Explanation:

The metrics that should be used to measure the success of the initiative are increase in new user activity and connected weight utilization. These metrics are aligned with the challenge statement of empowering people who are new to fitness to increase their strength, as they indicate engagement and retention of the target audience.
