

Quiz 2026 Nutanix High Pass-Rate NCP-AI: Nutanix Certified Professional - Artificial Intelligence v6.10 Brain Dumps

You can easily download these formats of Nutanix NCP-AI actual dumps and use them to prepare for the Nutanix NCP-AI certification test. You do not need to enroll yourself in expensive NCP-AI Exam Training classes. With the Nutanix NCP-AI valid dumps, you can easily prepare well for the actual Nutanix Certified Professional - Artificial Intelligence v6.10 exam at home.

Nutanix NCP-AI Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Troubleshoot a Nutanix Enterprise AI Environment: This domain covers diagnosing and resolving performance issues, resource utilization problems, cluster health check failures, and model import or endpoint creation errors.
Topic 2	<ul style="list-style-type: none">• Perform Day 2 Operations: This domain addresses ongoing management including preparing application integration requirements, interpreting and optimizing performance metrics, monitoring access for anomalies, and selecting appropriate LLMs for optimal output.
Topic 3	<ul style="list-style-type: none">• Deploy a Nutanix Enterprise AI Environment: This domain covers initial deployment tasks including validating prerequisites, installing Enterprise AI components, and configuring DNS, URLs, and certificates for secure platform operation.
Topic 4	<ul style="list-style-type: none">• Configure a Nutanix Enterprise AI Environment: This domain focuses on operational setup including onboarding users, importing large language models, creating and securing API endpoints with keys, and delivering these endpoints to consumers.
Topic 5	<ul style="list-style-type: none">• Connect Applications to a Nutanix Enterprise AI Environment: This domain focuses on configuring and validating application connections to endpoints and monitoring endpoint metrics to track application usage and integration performance.

Exam NCP-AI Lab Questions | Vce NCP-AI Torrent

Nowadays, we live so busy every day. Especially for some businessmen who want to pass the NCP-AI exam and get related certification, time is vital importance for them, they may don't have enough time to prepare for their exam. Some of them may give it up. But our NCP-AI guide tests can solve these problems perfectly, because our study materials only need little hours can be grasped. Believing in our NCP-AI Guide tests will help you get the certificate and embrace a bright future. Time and tide wait for no man. Come to buy our test engine.

Nutanix Certified Professional - Artificial Intelligence v6.10 Sample Questions (Q42-Q47):

NEW QUESTION # 42

An administrator is configuring a container registry to store custom models for secure Nutanix Enterprise AI deployment. During testing, the administrator notices the registry is accessible both via HTTP and HTTPS, with a self-signed certificate. Which two actions should the administrator take to meet the deployment prerequisites? (Choose two.)

- A. Ensure registry runs on the same node as the cluster.
- **B. Replace the certificate with a trusted TLS/SSL certificate.**
- C. Install Nutanix Enterprise AI in offline mode.
- **D. Disable HTTP on the container registry.**

Answer: B,D

NEW QUESTION # 43

An AI/ML Admin initiates an import of a new Large Language Model (LLM) from Hugging Face using its Model URL into Nutanix Enterprise AI. After the import process begins, the LLM's status on the Models page changes to Pending. Based on this status, what is the most probable cause for the delay?

- A. The NVIDIA GPU Operator is not installed on the Kubernetes cluster.
- **B. The system is awaiting the necessary cluster resources.**
- C. The Hugging Face access token provided is unauthorized.
- D. The LLM is a custom model that Nutanix has not validated.

Answer: B

NEW QUESTION # 44

What is the minimum number of supported GPUs required to deploy Google pre-validated LLMs?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

NEW QUESTION # 45

Here is the text converted from the uploaded image.
What does hibernating an endpoint do?

- A. It pauses the endpoint and releases compute resources without deleting the endpoint.
- **B. It deletes all the resources from the endpoint without affecting the LLM.**

- C. It freezes the activity of the endpoint to make edits to the endpoint.
- D. It optimizes resource usage and deletes the endpoint for new endpoints to be created.

Answer: B

NEW QUESTION # 46

An administrator is monitoring the performance of a deployed Large Language Model within the Nutanix Enterprise AI platform. After initial deployment, users report slow inference response times and occasional timeouts when accessing the model through its API endpoint.

The administrator reviews the performance metrics available in the NAI Dashboard and notes the following:

CPU usage is consistently high across all inference-serving containers.

Memory utilization is nearing the allocated limits for the model service.

The request latency graph shows increasing average inference times during peak usage.

Which action should the administrator take to improve performance and reduce latency?

- A. Restart the model container to clear memory cache and allow the system to rebalance performance.
- **B. Scale out the number of instances and allocate additional CPU and memory resources.**
- C. Increase the number of API keys assigned to the endpoint to allow more concurrent access.
- D. Disable logging temporarily to reduce resource consumption during peak load periods.

Answer: B

NEW QUESTION # 47

.....

The most interesting thing about the learning platform is not the number of questions, not the price, but the accurate analysis of each year's exam questions. Our NCP-AI guide dump through the analysis of each subject research, found that there are a lot of hidden rules worth exploring, this is very necessary, at the same time, our NCP-AI training materials have a super dream team of experts, so you can strictly control the proposition trend every year. In the annual examination questions, our NCP-AI study questions have the corresponding rules to summarize, and can accurately predict this year's test hot spot and the proposition direction. This allows the user to prepare for the test full of confidence.
