MS-721 Online Training | Latest MS-721 Exam Testking

You only need 20-30 hours to learn MS-721 exam torrent and prepare the MS-721 exam. Many people, especially the in-service staff, are busy in their jobs, learning, family lives and other important things and have little time and energy to learn and prepare the MS-721 exam. But if you buy our MS-721 Test Torrent, you can invest your main energy on your most important thing and spare 1-2 hours each day to learn and prepare the exam. Our MS-721 exam questions and answers are based on the real exam and conform to the popular trend in the candidates.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q187-Q192):

NEW QUESTION # 187

Your company has offices in Paris and London.

You are migrating from an on-premises PBX telephony solution to a Microsoft Teams Phone deployment that uses Direct Routing. You plan to use the existing telephony carrier. The new solution will provide telephony services to users in both offices.

You need to recommend a solution that is the most resistant to possible failures. The solution must ensure that calls are routed through each user's respective office.

Which two actions should you include in the recommendation? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Configure a single voice routing policy for all users.
- **B. Configure voice routing policies for each office.**
- C. Deploy one Session Border Controller (SBC) to each office. Configure the SBCs as a high-availability pair.
- **D. Deploy a highly available Session Border Controller (SBC) pair to each office.**

Answer: B,D

Explanation:

B: Microsoft only supports the certified SBCs to pair with Direct Routing.

SBCs in each site must be paired with Direct Routing to provide dial tone and PSTN calling capabilities by using your own trunks.

C: The solution must ensure that calls are routed through each user's respective office.

<https://docs.microsoft.com/en-us/microsoftteams/direct-routing-voice-routing>

NEW QUESTION # 188

Hotspot Question

You have a Microsoft Teams Phone deployment. Direct Routing is enabled for all users. The users can place and receive PSTN calls.

You are implementing emergency numbers in Teams.

You need to remove the + symbol from any three-digit calls to the Session Border Controller (SBC).

How should you complete the PowerShell script? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Explanation:

The -OutboundTeamsNumberTranslationRules is the calling (i.e. Teams client) number of a call going to PSTN.

Therefore naming convention is:

OUTBOUND CALLS (Teams > PSTN)

OutboundTeamsNumberTranslationRules = calling number

OutboundPSTNNumberTranslationRules = called number

INBOUND CALLS (PSTN > Teams)

InboundPSTNNumberTranslationRules = calling number

InboundTeamsNumberTranslationRules = called number

This shows how dumb Microsoft is, it's overcomplicating stuff just for the sake of not using standard and established names in VoIP, they have to come up with their random stuff.

In the end is:

New-CsTeamsTranslationRule

Set-CsOnlinePSTNGateway

OutboundPstnNumberTranslationRules

NEW QUESTION # 189

You have a dial plan named DPI.

You need to assign DPI to a new Microsoft Teams user named User1. You must verify that the appropriate dial plan and the associated normalization rules are assigned to User1.

How should you complete the PowerShell script? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 190

You have a Microsoft 365 E5 subscription that uses Teams.

You discover that the Conference Bridge list contains two dial-in phone numbers for an office in Calgary. One of the dial-in phone numbers is +14035554321 and is configured as a secondary number for the Calgary office. The number is NOT set as the default. You need to remove + 14035554321 from the list.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 191

Your company has a branch office named Branch1 that has limited network bandwidth.

The company has a Microsoft Teams Phone deployment.

You need to limit the amount of data the Teams client utilizes when users are in Branch1.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 192

.....
