Practice C-ACDET-2506 Questions, Passing C-ACDET-2506 Score Feedback

If you want to pass the shortest time to pass you exam, just find us. Our C-ACDET-2506 Training Materials will have the collective of the questions and answers, it will help you to have a good command of the knowledge point, therefore make it possible for you to pass the exam. Besides money back guarantee if you fail to pass it, or we can change another exam dumps for you for free. All we do is just want to serve you better. Choose us and you will never regret.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q46-Q51):

NEW QUESTION # 46

How can you create a field label with italics?

- A. By using standard HTML formatting like label can be added to the field label
- B. By marking the text in the field and select Ctrl-I
- C. By selecting the option "Italic label"
- D. Formatting of a field label is not possible

Answer: A

NEW QUESTION # 47

When you create a custom field, how do you define where the field is added?

- A. The field is added to a class, identified by the record ID
- B. The field is added to a class, identified by a class name
- C. Each field can be linked to multiple screens, identified via UI GroupClass ID
- D. The field is added to a project header, identified by the templateClass ID

Answer: B

Explanation:

In SAP Ariba, custom fields are associated with a specific class identified by its class name, such as ContractWorkspace or ProcureLineItem. This class-level association determines where the field is available within the application. When added to a parent class, the field inherits to all its subclasses, affecting all relevant data objects. The field is not linked via UI group IDs, project templates, or record IDs, which relate to different configuration aspects. This class-based design supports consistent data models and inheritance in SAP Ariba's architecture.

NEW QUESTION # 48

What system is provided by SAP Free of charge and provides an outline of how to deploy SAP Ariba solutions with a task list and project management format?

- A. SAP Cloud Application Lifecycle Management
- B. SAP for Me
- C. SAP Cloud Project Studio
- D. SAP Ariba Enablement Workbook

Answer: D

NEW QUESTION # 49

You have a custom string field with a list of values. The values are represented as an Enumeration. Which of the following applies?

- A. The user can filter the values using the search box in the chooser
- B. In the enumeration file, the Value column must only contain whole numbers
- C. The display order in the drop down matches the order defined in the enumeration file
- D. The display order of the values is alphabetical

Answer: C

Explanation:

For single-select enumeration fields, the dropdown list order in SAP Ariba exactly follows the order in which values are defined in the enumeration file, not alphabetical. Alphabetical sorting applies only to multi-select chooser fields. The Value column can be text or integers depending on field type, and search/filter boxes are available only on chooser (multi-select) fields, not single-select dropdowns.

NEW QUESTION # 50

In a Greenfield deployment scenario, how should translation migrations be performed for header field labels, help tips, and validity condition error messages?

- A. User with Partner Administrator can configure translation.
- B. Contact an SAP Deployment lead for customization help.
- C. Create a package to migrate translations by ICM.
- D. Translations are included in migrations and are listed as AMLStringResource in the migration

Answer: D

NEW QUESTION # 51

.....

We own three versions of the C-ACDET-2506 exam torrent for you to choose. They conclude PDF version, PC version and APP online version. You can choose the most convenient version of the C-ACDET-2506 quiz torrent. The three versions of the C-ACDET-2506 test prep boost different strengths and you can find the most appropriate choice.
