ISO-IEC-27001-Foundation資訊 - ISO-IEC-27001-Foundation參考資料

永遠不要說你已經盡力了。這個對每個人的忠告，就算你認為自己沒有能力通過苛刻的APMG-International的ISO-IEC-27001-Foundation考試認證。因為就算你沒有通過APMG-International的ISO-IEC-27001-Foundation考試認證，你可以找一個快捷又方便省時又不費力的培訓工具，來幫助你通過APMG-International的ISO-IEC-27001-Foundation考試認證，Fast2test APMG-International的ISO-IEC-27001-Foundation考試培訓資料就是個很不錯的黃金培訓資料，它可以幫助你順利通過考試，保證100%通過，而且價格很合理，保證你利用了它會受益匪淺，所以說永遠不要說自己已經盡力了，不放棄下一秒就是希望，趕緊抓住你的希望吧，就在Fast2test APMG-International的ISO-IEC-27001-Foundation考試培訓資料裏。

最新的 ISO/IEC 27001 ISO-IEC-27001-Foundation 免費考試真題 (Q30-Q35):

問題 #30

Which activity is an operational planning and control requirement?

- A. Review the consequences of unintended changes
- B. Perform information security risk assessments at planned intervals
- C. Document information security objectives
- D. Scheduling of second party audits

答案： A

解題說明：

Clause 8.1 (Operational planning and control) requires organizations to:

"Ensure that changes are controlled. The organization shall review the consequences of unintended changes, taking action to mitigate any adverse effects, as necessary." This requirement ensures that operational processes are planned, controlled, and adjusted where unexpected changes occur. Risk assessments (B) are covered in Clause 6.1.2 (Planning), not operations. Scheduling second-party audits (C) is not an ISMS requirement but part of supplier/customer arrangements. Documenting objectives (D) belongs to Clause 6.2 (Planning).

Thus, the required operational planning and control activity is A: Review the consequences of unintended changes.

問題 #31

Which item is required to be considered when defining the scope and boundaries of the information security management system?

- A. The regular activities necessary to maintain and improve the ISMS
- B. The dependencies between activities performed by the organization
- C. The level of quality to which the ISMS must adhere
- D. The lessons learned from the information security experiences of other organizations

答案： B

解題說明：

Clause 4.3 (Determining the scope of the ISMS) requires consideration of:

"the external and internal issues referred to in 4.1; the requirements referred to in 4.2; and interfaces and dependencies between activities performed by the organization, and those that are performed by other organizations." This confirms that dependencies between activities are a required factor when defining scope. Options B (quality levels), C (lessons learned), and D (regular activities for improvement) are not scope requirements, though they may be relevant in planning or improvement processes.

Thus, the verified answer is A: Dependencies between activities performed by the organization.

問題 #32

Which statement about the conduct of audits is true?

- A. During Stage 1 of a certification audit, evidence is collected by observing activities
- B. One of the focus areas for a surveillance audit is the output from internal audits and management reviews
- C. Third party audits are conducted by a customer of the organization
- D. The certificate issued after a successful re-certification audit in typical schemes lasts for one year

答案： B

解題說明：

Clause 9.2 (Internal Audit) and Clause 9.3 (Management Review) highlight that audit outputs and management reviews are key inputs for evaluating ISMS performance. Surveillance audits, conducted by Certification Bodies, check ongoing compliance and effectiveness. ISO certification schemes (per ISO/IEC

17021) require surveillance audits to verify whether corrective actions and continuous improvements are being made. A critical focus area is the results of internal audits and management reviews, ensuring that the organization maintains its ISMS between certification cycles.

Option A is incorrect - third-party audits are performed by independent Certification Bodies, not customers.

Option B is incorrect - certificates are typically valid for three years with annual surveillance. Option D is incorrect - Stage 1 is primarily a documentation and readiness review, not evidence observation.

Therefore, the verified correct answer is C.

問題 #33

Which is a control title within Annex A of ISO/IEC 27001?

- A. Change control
- B. Responsibilities and procedures
- **C. Information security in supplier relationships**
- D. Protection of documents

答案：C

解題說明：

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled: "Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier agreements and relationships. It is part of the Organizational Controls theme. The other options are not control titles in Annex A:

* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.

* "Protection of documents" (C) relates to document control but is not a specific Annex A control.

* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.

Therefore, the correct Annex A control title is A: Information security in supplier relationships.

問題 #34

Which benefit is NOT relevant by implementing an ISMS for an organization?

- **A. Information security staff will be qualified to ISO/IEC 27001 Foundation level**
- B. Information security controls are tailored to suit the organization's specific circumstances
- C. Information security risks are assessed and the probability and/or impact reduced
- D. Information security compliance will increase stakeholder trust in the organization

答案：A

解題說明：

The benefits of implementing an ISMS under ISO/IEC 27001 are well established. Clause 0.1 (General) explains that an ISMS provides a systematic approach to managing sensitive information and "preserves confidentiality, integrity, and availability of information by applying a risk management process and gives confidence to interested parties that risks are adequately managed." Option A is correct as a benefit, since trust and confidence from stakeholders is an outcome of compliance.

Option C is also a benefit, since controls are chosen and tailored based on organizational context and risk assessment (Clause 6.1.3). Option D reflects another real benefit—reducing the probability and/or impact of incidents through effective risk management. However, staff qualifications (option B) are not guaranteed benefits of implementing an ISMS. While training and competence (Clause 7.2) are required, the standard does not require or provide ISO/IEC 27001 Foundation-level certification for staff. That is an external training/certification scheme, not an ISMS outcome.

Therefore, the benefit NOT relevant to implementing ISO/IEC 27001 is B.

問題 #35

.....

我們Fast2test APMG-International的ISO-IEC-27001-Foundation的考題按照相同的教學大綱，其次是實際的APMG-International的ISO-IEC-27001-Foundation認證考試，我們也是不斷的升級我們的培訓資料，你得到的所有產品高達1年的免費更新，你也可以隨時延長更新訂閱時間，你將得到更多的時間來充分準備考試。如果你還為了要不要使用Fast2test這個網站的培訓資料而感到困惑或者猶豫不決，那麼你可以先在Fast2test網站裏下載部分關於考試的試題及答案，免費試用，如果它很適合你，你可以再去購買也不遲，保證你絕不後悔。
