

# 2026 Palo Alto Networks High-quality New PCCP Exam Testking

2026 Latest PrepAwayPDF PCCP PDF Dumps and PCCP Exam Engine Free Share: <https://drive.google.com/open?id=17afUxshuujDirQvblGuHNTohYYcFdWhw>

Without a doubt, there is one thing that can assist them with perceiving this interest and clearing their Palo Alto Networks Certified Cybersecurity Practitioner (PCCP) exam with flying colors. Palo Alto Networks PCCP dumps merge all that gigantic and the competitor doesn't require to purchase the aide or different books to review. They have this test material and need nothing else for planning Palo Alto Networks Certified Cybersecurity Practitioner exam.

## Palo Alto Networks PCCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Cybersecurity:</b> This section of the exam measures skills of a Cybersecurity Practitioner and covers fundamental concepts of cybersecurity, including the components of the authentication, authorization, and accounting (AAA) framework, attacker techniques as defined by the MITRE ATT&amp;CK framework, and key principles of Zero Trust such as continuous monitoring and least privilege access. It also addresses understanding advanced persistent threats (APT) and common security technologies like identity and access management (IAM), multi-factor authentication (MFA), mobile device and application management, and email security.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Security Operations:</b> This final section measures skills of a Security Operations Analyst and covers key characteristics and practices of threat hunting and incident response processes. It explains functions and benefits of security information and event management (SIEM) platforms, security orchestration, automation, and response (SOAR) tools, and attack surface management (ASM) platforms. It also highlights the functionalities of Cortex solutions, including XSOAR, Xpanse, and XSIAM, and describes services offered by Palo Alto Networks' Unit 42.</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>Secure Access: This part of the exam measures skills of a Secure Access Engineer and focuses on defining and differentiating Secure Access Service Edge (SASE) and Secure Service Edge (SSE). It covers challenges related to confidentiality, integrity, and availability of data and applications across data, private apps, SaaS, and AI tools. It examines security technologies including secure web gateways, enterprise browsers, remote browser isolation, data loss prevention (DLP), and cloud access security brokers (CASB). The section also describes Software-Defined Wide Area Network (SD-WAN) and Prisma SASE solutions such as Prisma Access, SD-WAN, AI Access, and enterprise DLP.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Cloud Security: This section targets a Cloud Security Specialist and addresses major cloud architectures and topologies. It discusses security challenges like application security, cloud posture, and runtime security. Candidates will learn about technologies securing cloud environments such as Cloud Security Posture Management (CSPM) and Cloud Workload Protection Platforms (CWPP), as well as the functions of a Cloud Native Application Protection Platform (CNAPP) and features of Cortex Cloud.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Network Security: This domain targets a Network Security Specialist and includes knowledge of Zero Trust Network Access (ZTNA) characteristics, functions of stateless and next-generation firewalls (NGFWs), and the purpose of microsegmentation. It also covers common network security technologies such as intrusion prevention systems (IPS), URL filtering, DNS security, VPNs, and SSL</li> <li>TLS decryption. Candidates must understand the limitations of signature-based protection, deployment options for NGFWs, cybersecurity concerns in operational technology (OT) and IoT, cloud-delivered security services, and AI-powered security functions like Precision AI.</li> </ul>

## PCCP Certification Questions, Exam Vce PCCP Free

Leave yourself some spare time to study and think. Perhaps you will regain courage and confidence through a period of learning our PCCP preparation quiz. If you want to have a try, we have free demos of our PCCP exam questions to help you know about our products. And there are three versions of the free demos according to the three different versions of the PCCP study braindumps: the PDF, the Software and the APP online. Just try and you will love them.

## Palo Alto Networks Certified Cybersecurity Practitioner Sample Questions (Q21-Q26):

### NEW QUESTION # 21

Which next-generation firewall (NGFW) deployment option provides full application visibility into Kubernetes environments?

- A. SASE
- B. Virtual
- C. Container
- D. Physical

**Answer: C**

Explanation:

A container-based NGFW is specifically designed to integrate with Kubernetes environments, providing full application visibility and control within containerized workloads. It operates at the pod level, making it ideal for securing dynamic microservices architectures.

### NEW QUESTION # 22

What is a function of SSL/TLS decryption?

- A. It protects users from social engineering.
- B. It identifies IoT devices on the internet.
- C. It reveals malware within web-based traffic.
- D. It applies to unknown threat detection only.

**Answer: C**

Explanation:

SSL/TLS decryption allows security tools to inspect encrypted traffic, enabling them to detect hidden malware, command-and-control communication, or data exfiltration that would otherwise bypass inspection if left encrypted.

#### **NEW QUESTION # 23**

Which product functions as part of a SASE solution?

- A. Kubernetes
- B. Prisma Cloud
- **C. Prisma SD-WAN**
- D. Cortex

**Answer: C**

Explanation:

Prisma SD-WAN is a key component of a SASE (Secure Access Service Edge) solution. It provides intelligent routing, traffic optimization, and secure connectivity between users and applications, supporting the networking part of SASE alongside security services like those in Prisma Access.

#### **NEW QUESTION # 24**

Which core component is used to implement a Zero Trust architecture?

- A. VPN Concentrator
- B. Web Application Zone
- **C. Segmentation Platform**
- D. Content Identification

**Answer: C**

Explanation:

"Remember that a trust zone is not intended to be a "pocket of trust" where systems (and therefore threats) within the zone can communicate freely and directly with each other. For a full Zero Trust implementation, the network would be configured to ensure that all communications traffic, including traffic between devices in the same zone, is intermediated by the corresponding Zero Trust Segmentation Platform."

#### **NEW QUESTION # 25**

In which step of the cyber-attack lifecycle do hackers embed intruder code within seemingly innocuous files?

- A. reconnaissance
- B. delivery
- C. exploitation
- **D. weaponization**

**Answer: D**

Explanation:

"Weaponization: Next, attackers determine which methods to use to compromise a target endpoint. They may choose to embed intruder code within seemingly innocuous files such as a PDF or Microsoft Word document or email message."

#### **NEW QUESTION # 26**

.....

It is similar to the PCCP desktop-based software, with all the elements of the desktop practice exam. This mock exam can be accessed from any browser and does not require installation. The Palo Alto Networks Certified Cybersecurity Practitioner (PCCP) questions in the mock test are the same as those in the real exam. And candidates will be able to take the web-based Palo Alto

Networks Certified Cybersecurity Practitioner (PCCP) practice test immediately through any operating system and browsers.
