Adobe AD0-E725 Exam Syllabus Topics:

Topic	Details
Topic 1	• Section 1: Architecture: This section of the exam measures the skills of Backend Developers and covers the core structural concepts of Adobe Commerce. It involves demonstrating effective cache implementation, understanding key code components like plugins and observers, and managing multi-site configurations on a single instance. The domain also includes explaining the use of Git patches, critical security features, the CRON scheduling system, and how indexing functions within the platform.
Topic 2	• Cloud: This section of the exam measures the skills of Cloud Architects and covers the deployment and management of Adobe Commerce on cloud infrastructure. It requires explaining the fundamental cloud architecture, performing setup and configuration tasks, and utilizing the Adobe Commerce Cloud CLI tool to manage the environment effectively.
Topic 3	• External Integrations: This section of the exam measures the skills of Integration Specialists and focuses on connecting Adobe Commerce with external SaaS services. It encompasses the skills needed to customize data flows, utilize Adobe App Builder for extensibility, and implement Adobe I • O events and webhooks to create automated and connected business processes.

Topic 4	Customizations: This section of the exam measures the skills of Solutions Engineers and involves modifying and extending platform functionality. This includes customizing core areas like the product catalog, checkout process, and admin panel, as well as manipulating data entities, customizing APIs, working with message queues, and writing integration tests to ensure code quality and functionality.

And similarly, only high quality and high accuracy AD0-E725 exam questions like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for your reference. Our AD0-E725 exam questions generally raised the standard of practice materials in the market with the spreading of higher standard of knowledge in this area. So your personal effort is brilliant but insufficient to pass the Adobe Commerce Developer Expert exam and our AD0-E725 Test Guide can facilitate the process smoothly & successfully. Our Adobe Commerce Developer Expert practice materials are successful by ensuring that what we delivered is valuable and in line with the syllabus of this exam.

Adobe Commerce Developer Expert Sample Questions (Q35-Q40):

NEW QUESTION # 35

An Adobe Commerce Expert is tasked with implementing a custom condition on salable quantity with reservations. The condition needs to be applicable only when added to cart.

Which option should the Developer implement?

- A. XML

```
<type name="Magento\InventoryApi\Model\Stock\ValidatorChain">
  <arguments>
    <argument name="validators" xsi:type="array">
      <item name="is_salable_with_reservations" xsi:type="object">
        >Vendor\InventorySales\Model\Stock\Validator\IsSalableWithReservationsValidator</item>
      </item>
    </argument>
  </arguments>
</type>
```
- B. XML

```
<preference for="
Magento\InventorySales\Model\IsProductSalableForRequestedQtyCondition\IsSalableWithReservationsC type="
Vendor\InventorySales\Model\IsProductSalableForRequestedQtyCondition\IsSalableWithReservationsCo
/>
```
- C. XML

```
<virtualType name="IsProductSalableForRequestedQtyConditionChainOnAddToCart">
  <arguments>
    <argument name="conditions" xsi:type="array">
      <item name="is_salable_with_reservations" xsi:type="array">
        <item name="object" xsi:type="object">
          >Vendor\InventorySales\Model\IsProductSalableForRequestedQtyCondition\IsSalableWithReservationsC
        </item>
      </item>
    </argument>
  </arguments>
</virtualType>
```

Answer: C

NEW QUESTION # 36

A Developer is writing an integration test. The functionality being tested has many admin area configurations that need to be tested.

Which DocBlock annotation should be used to allow configuration settings to be manipulated for testing purposes?

- A. `@testAdminArea`
- B. `@testConfigFixture`
- C. `@testAdminConfigFixture`

Answer: B

Explanation:

The correct annotation is `@testConfigFixture`. It allows developers to set or override configuration values during tests.

A does not exist.

B does not exist.

C is correct: `@testConfigFixture` provides a way to programmatically adjust admin configurations for the scope of the test.

NEW QUESTION # 37

A Developer is tasked with creating a new index. The custom indexer is not automatically updating the product data.

How should the Developer solve this issue?

- A. Use an event observer to monitor data changes.
- B. Use the mview to allow tracking database changes.
- C. Implement custom database triggers.

Answer: B

Explanation:

Magento uses the materialized view (mview) system to track database changes and trigger automatic updates to indexers.

B (mview) is correct because it enables Magento to automatically detect data changes and update indexers incrementally.

A (observer) is not reliable for large indexing operations and not the recommended method.

C (database triggers) are discouraged and not used in Magento's indexing mechanism.

NEW QUESTION # 38

An Adobe Commerce Developer creates a module that adds a product attribute via a data patch.

Adhering to best practices, how should the Developer remove this product attribute when the module is uninstalled?

- A. Delete the custom attribute directly from the database.
- B. Create a new CLI command that needs to be executed before the `bin/magento module:uninstall Vendor_ModuleName`.
- C. Make the patch implement `Magento\Framework\Setup\Patch\PatchRevertableInterface` with the `revert()` method in it.

Answer: C

NEW QUESTION # 39

An Adobe Commerce Expert is tasked with configuring different pricing for products across multi-site installation. Each website requires independent control of its prices while using the same catalog data.

What is the minimum store hierarchy structure required to achieve this?

- A. Multiple stores and a single store view for each store
- B. One website, one store, and multiple store views
- C. Multiple websites, each with one store and at least one store view

Answer: C

NEW QUESTION # 40
