Plat-Con-201認證資料，Plat-Con-201最新考證

我們VCESoft Salesforce的Plat-Con-201考試認證培訓資料，仿真度特別高，你可以在真實的考試中遇到一樣的題，這只能說明我們的IT精英團隊的能力實在是高。現在很多IT人員雄心勃勃，為了使自己的配置檔相容市場需求，通過這些熱門IT認證來實現自己的理想，在Salesforce的Plat-Con-201考試中取得優異的成績。VCESoft Salesforce的Plat-Con-201考試認證培訓資料能幫助你實現你的理想，它擁有眾多考生實踐的證明，有了VCESoft Salesforce的Plat-Con-201考試認證培訓資料，夢想之門將為你打開。

最新的 Salesforce Consultant Plat-Con-201 免費考試真題 (Q105-Q110):

問題 #105

A company has a process that requires a birthday validation. At the beginning of the process, the user is asked to input their birthday. If the user is less than 18 years old, then the process should display an error stating that the age cannot be less than 18. The process should restrict users from continuing. If the user is 18 or older, then the process should proceed without any error message. Which two OmniScript features should the consultant recommend to meet this validation requirement?

Choose 2 answers

- A. Messaging
- B. Alert
- C. Calculation
- D. Formula

答案: A,D

解題說明:

The two OmniScript features that the consultant should recommend to meet this validation requirement are:

Messaging and Formula. A Messaging element is an element that can display a text message with an icon and a color, such as blue for information or yellow for warning. The consultant can use a Messaging element to display an error message stating that the age cannot be less than 18 if the user's birthday indicates they are under 18 years old. A Formula element is an element that can perform calculations or validations on data values using expressions or functions. The consultant can use a Formula element to validate the user's birthday by subtracting it from the current date and checking if the result is greater than or equal to 18 years

問題 #106

A business has a project that must be completed soon in order to meet important deadlines. However, the developer on the project has left the company, and the new team on the project has decided to use OmniStudio tools. The development work completed so far was done using APEX code. The new team must complete the project following these guidelines:

- * Minimize implementation time
- * Ensure end-user processes are as simple as possible
- * Find a way to ensure optimal UX

In this scenario, what two actions should the consultant recommend to the project team? Choose 2 answers

- A. Replace existing APEX using DataRaptors and HTTPActions
- B. Use existing APEX classes as data sources
- C. Create new LWC templates for branding and styling
- **D. Implement FlexCards and OmniScripts for the front-end**

答案: D

解題說明:

The two actions that the consultant should recommend to the project team are replace existing APEX using DataRaptors and HTTPActions, and implement FlexCards and OmniScripts for the front-end. Replacing existing APEX using DataRaptors and HTTPActions would reduce implementation time, as these tools are declarative and do not require coding. Implementing FlexCards and OmniScripts for the front-end would ensure end-user processes are as simple as possible, as these tools provide guided interactions and contextual data. Creating new LWC templates for branding and styling would increase implementation time, as this would require coding and testing. Using existing APEX classes as data sources would not ensure optimal UX, as this would limit the flexibility and scalability of the solution.

問題 #107

A company has a requirement to create a 360° view of their customers using FlexCards. At this company, customer data is stored in Salesforce but also in external legacy systems. A consultant reviews the use cases needed and recommends a FlexCard canvas that contains 5 child FlexCards inside the state of the parent FlexCard.

How many different data sources can be configured using FlexCards in this scenario?

- A. 0
- B. 1
- C. 2
- **D. 3**

答案: D

解題說明:

The number of different data sources that can be configured using FlexCards in this scenario is 6. A FlexCard can have one data source per state, and a state can have multiple child FlexCards, each with its own data source. Therefore, the parent FlexCard can have one data source for its state, and each of the 5 child FlexCards can have a different data source, making a total of 6 data sources

問題 #108

A consultant needs to design an OmniScript to capture the following information:

- * Select one payment method from a list of options
- * Enter the address information with autocomplete
- * Enter a phone number

Which OmniScript elements should be used to capture this information?

- A. Multi-Select, Address, and Telephone
- B. Checkbox, Geolocation, and Number
- C. Select, TypeAhead, and Number
- D. Radio, TypeAhead, and Telephone

答案： D

解題說明：

The correct OmniScript elements to capture the information are Select, TypeAhead, and Number. Select allows the user to choose one option from a list of values, TypeAhead provides autocomplete suggestions for address fields, and Number validates that the input is a numeric value. Radio, Multi-Select, and Checkbox are not suitable for single selection scenarios. Geolocation is not an OmniScript element, and Telephone is not a valid data type for phone numbers.

問題 #109

A company needs to create multiple guided processes on their public website. The processes need to be styled using the corporate branding kit. The corporate branding kit includes guidance on colors, fonts, and icons. In addition, the website that the process will be deployed to has a style guide that dictates the format for radio buttons, slide bars, and other user interface elements. The company wants both the corporate branding kit and the website's style guide to be globally implemented in these new processes. Which three OmniStudio features and tools should the consultant recommend to meet these requirements?

Choose 3 answers

- A. Custom Styles
- B. Newport Design System
- C. OmniScript
- D. FlexCards
- E. OmniOut

答案： A,B,C

解題說明：

The three OmniStudio features and tools that the consultant should recommend to meet these requirements are: OmniScript, Custom Styles, and Newport Design System. An OmniScript is a tool that can design customer interactions using elements and actions. The consultant can use OmniScripts to create the guided processes for the public website. A Custom Style is a feature that allows applying custom CSS properties to an OmniScript or a FlexCard element. The consultant can use Custom Styles to style the OmniScripts using the corporate branding kit, such as colors, fonts, and icons. A Newport Design System is a tool that provides a set of predefined styles and components for building user interfaces. The consultant can use Newport Design System to style the user interface elements in the OmniScripts, such as radio buttons, slide bars, etc., according to the website's style guide.

問題 #110

.....

为了能够高效率地准备Plat-Con-201认证考试，你知道什么工具是值得使用的吗？我来告诉你吧。VCESoft的Plat-Con-201考古题是最可信的资料。这个考古题是IT业界的精英们研究出来的，是一个难得的练习资料。这个考古题的命中率很高，合格率可以达到100%。这是因为IT专家们可以很好地抓住考试的出题点，从而将真实考试时可能出现的所有题都包括到资料里了。觉得不可思议吗？但是这是真的。用过后你就会知道。

Plat-Con-201认证资料：<https://www.vcesoft.com/Plat-Con-201-pdf.html>

选择最适合的Salesforce Plat-Con-201题库学习资料，并来获得认证，它能加速您在信息技术行业里快速成长，也是加薪升迁的成功选择，我们能为您提供很多参加Salesforce Plat-Con-201认证考试的考生提供具有针对性的培训方案，包括考试之前的模拟测试，针对性教学课程，和与真实考试有95%相似性的练习题及答案，最新的Salesforce Plat-Con-201认证考试考题、覆盖全真Plat-Con-201认证考试考题，VCESoft Salesforce的Plat-Con-201考古题的试题及答案，你会发现它是目前市场上最彻底最准确及最新的实践检验，没有做过任何的努力当然是不容易通过的，毕竟通过Plat-Con-201认证考试是需要相当过硬的专业知识，Salesforce Plat-Con-201考题宝典这样实惠的资料你千万不要错过。

而六重天，更是可以称霸壹方小地方，盖在此种说明中，此类概念纯为偶然的，选择最适合的Salesforce Plat-Con-201题库学习资料，并来获得认证，它能加速您在信息技术行业里快速成长，也是加薪升迁的成功选择，我们能为您提供很多参加Salesforce Plat-Con-201认证考试的考生提供具有针对性的培训方案，包括考试之前的模拟测试，针对性

教學課程，和與真實考試有95%相似性的練習題及答案。
