Axis ANVE Latest Test Question - Latest ANVE Exam Questions

As usual, you just need to spend little time can have a good commend of our study materials, then you can attend to your ANVE exam and pass it at your first attempt. We also hire a team of experts, and the content of ANVE question torrent is all high-quality

test guidance materials that have been accepted by experienced professionals. ANVE practice materials will be the most professional and dedicated tutor you have ever met.

Axis Network Video Exam Sample Questions (Q149-Q154):

NEW QUESTION # 149

Which one of the following camera parameters may become a limiting factor for the camera in delivering full frame rate?

- A. Flicker-free mode
- **B. Exposure time**
- C. Aspect ratio 16:9
- D. Noise reduction

Answer: B

NEW QUESTION # 150

DRAG DROP

Match the following descriptions to their proper IP rating below. Drag each gray box from the left column to the matching blue box in the right column.

| | |
|------|---|
| IP51 | Solids Object Size protected against: >1 mm. Most wires, screws, etc.. Liquids Protected against: Spraying water. Water falling as a spray at any angle up to 60° from the vertical shall have no harmful effect. |
| IP67 | Solids Object Size protected against: Dust protected. ingress of dust is not entirely prevented, but it must not enter in sufficient quantity to interfere with the satisfactory operation of the equipment. Liquids Protected against: Dripping water. Dripping water (vertically falling drops) shall have no harmful effect. |
| IP43 | Solids Object Size protected against: Dust tight. No ingress of dust; complete protection against contact. Liquids Protected against: Powerful water jets. Water projected in powerful jets (12.5mm nozzle) against the enclosure from any direction shall have no harmful effects. |
| IP66 | Solids Object Size protected against: Dust tight. No ingress of dust; complete protection against contact. Liquids Protected against: Immersion up to 1m. Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1 m of submersion) |

Answer:

Explanation:

| | |
|------|------|
| IP51 | IP66 |
| IP67 | IP67 |
| IP43 | IP51 |
| IP66 | IP43 |

NEW QUESTION # 151

What protocol on layer 3 enables network traffic?

- A. UDP
- B. MAC
- C. Ip
- D. TCP

Answer: C

Explanation:

On layer 3 of the OSI model, the protocol that enables network traffic is IP (Internet Protocol). IP is responsible for addressing and routing packets of data so that they can travel across networks and reach the correct destination. It provides logical addressing and handles the path through which data is transferred between source and destination nodes. Axis documentation confirms that IP is crucial for network communication and is fundamental for the operation of network video systems.

NEW QUESTION # 152

Which is true for a multidirectional camera?

- A. Each sensor is assigned its own IP address
- B. The lenses move automatically when tracking an object
- C. The sensors are movable to enable optimal usage
- D. The image from each sensor is automatically dewarped

Answer: C

Explanation:

A multidirectional camera is equipped with multiple sensors that can be independently adjusted to cover different areas. This flexibility allows for optimal usage of the camera by positioning each sensor to capture specific scenes or angles. These sensors are typically fixed in place once set up, but their initial placement can be adjusted to ensure comprehensive coverage. Axis documents specify that multidirectional cameras are designed for customizable installation to meet varying surveillance needs.

NEW QUESTION # 153

This image represents an enlargement of an actual surveillance image. How could you improve the overall quality of the image?

(Choose two)

- A. Increase the image compression setting
- B. Decrease the gain setting in the camera
- C. Decrease image compression setting
- D. Increase the gain setting in the camera
- E. Change to a camera with higher resolution

Answer: C,E

Explanation:

To improve the overall quality of the image:

A). Decrease image compression setting: Lowering the compression setting will reduce artifacts and improve image clarity by preserving more of the original data in each frame. E. Change to a camera with higher resolution: Using a camera with higher resolution will capture more detail and improve the clarity of the enlarged image.

These adjustments ensure better image quality by enhancing the detail and reducing compression artifacts.

Reference: Axis Communications documentation on image quality settings and resolution.

NEW QUESTION # 154

.....

At present, our company has launched all kinds of ANVE study materials, which almost covers all official tests. Every ANVE exam questions are going through rigid quality check before appearing on our online stores. So you do not need to worry about trivial things and concentrate on going over our ANVE Exam Preparation. After careful preparation, you are bound to pass the ANVE exam. Just remember that all your efforts will finally pay off.
