I suggest that you strike while the iron is hot since time waits for no one. with the high pass rate as 98% to 100%, you will be sure to pass your C-SIGVT-2506 Exam and achieve your certification easily.

SAP Certified Associate - Validating Business Transformation Sample Questions (Q12-Q17):

NEW QUESTION # 12

What ensures that architecture documentation is aligned with business capability goals?

- A. Fact Sheet Owners
- B. Lifecycle Milestones
- C. Capability Mapping
- D. RACI Grid Builder

Answer: C

Explanation:

Capability Mapping links business capabilities to applications, interfaces, and technologies. This mapping ensures that architectural artifacts remain connected to strategic business objectives. By organizing IT components according to the business capabilities they

support, organizations can validate whether their architecture aligns with transformation goals and identify redundancy, gaps, or misalignment. Other options may support governance tasks, but only capability mapping directly assures alignment with business capabilities.

NEW QUESTION # 13

What does SAP LeanIX use to represent applications and capabilities?

- A. Linked Lists
- B. Forms
- C. Fact Sheets
- D. Survey Database

Answer: C

Explanation:

Fact Sheets are the core building blocks in SAP LeanIX. Each Fact Sheet holds information about a specific entity, such as an application, business capability, interface, or technology component. These structured profiles include lifecycle data, ownership, dependencies, and relationships. Using Fact Sheets ensures a standardized representation of architectural components, enabling transparency and accurate transformation planning.

NEW QUESTION # 14

What tool offers access to SAP Activate roadmaps?

- A. Process Explorer
- B. Readiness Check
- C. Cloud ALM Dashboard
- D. Roadmap Viewer

Answer: D

Explanation:

The SAP Activate Roadmap Viewer provides complete access to SAP's implementation roadmaps. These roadmaps detail phases, deliverables, tasks, configuration steps, and accelerators required for SAP project execution. The Roadmap Viewer is specifically designed to guide project teams through standardized transformation activities. Other tools serve different purposes (e.g., process modeling or readiness evaluation) but do not host SAP Activate roadmaps.

NEW QUESTION # 15

What tool is used for test automation within SAP Cloud ALM projects?

- A. SAP Business Data Cloud
- B. SAP Walk Me
- C. SAP Enable Now
- D. Tricentis

Answer: D

NEW QUESTION # 16

What is the significance of data privacy compliance in a clean core strategy?

- A. It eliminates the need for data archiving
- B. It ensures data is stored and processed only for justifiable purposes.
- C. It allows unrestricted access to all data.
- D. It focuses on data duplication.

Answer: B
