If you purchasing the UiPath-TAEPv1 study materials designed by many experts and professors from our company, we can promise that our online workers are going to serve you day and night during your learning period. If you have any questions about our study materials, you can send an email to us, and then the online workers from our company will help you solve your problem in the shortest time. So do not hesitate to buy our UiPath-TAEPv1 Study Materials.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 2	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 3	• Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.

Topic 4	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 5	• CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.
Topic 6	• UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 7	• UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.

The study materials from our company can help you get your certification easily, we believe that you have been unable to hold yourself back to understand our UiPath Test Automation Engineer Professional v1.0 guide torrent, if you use our study materials, it will be very easy for you to save a lot of time. In order to meet the needs of all customers, Our UiPath-TAEPv1 study torrent has a long-distance aid function. If you feel confused about our UiPath-TAEPv1 test torrent when you use our products, do not hesitate and send a remote assistance invitation to us for help, we are willing to provide remote assistance for you in the shortest time.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q64-Q69):

NEW QUESTION # 64
What is the purpose of UiPath Test Manager Hub?

- A. Test execution in a scheduled manner or build-driven through a CI/CD pipeline.
- B. Management of the testing process.
- C. Integration between UiPath Test Suite and third-party ALM tools.
- D. Reporting and dashboards for test results.

Answer: C

Explanation:
The UiPath Test Manager Hub acts as the integration point between UiPath Test Suite and third-party ALM tools (like Jira, Azure DevOps). It enables synchronization of requirements, defects, test results, and assignments, supporting seamless lifecycle management.

NEW QUESTION # 65
What should be ensured before uploading items to test data queues?

- A. The creation of a test data queue with a corresponding JSON schema.
- B. All the items in the queue are set as consumed.

- C. The test data queue was uploaded to the server.
- D. The administrator permissions for Orchestrator is obtained.

Answer: A

Explanation:
Before uploading items to test data queues, it is essential to ensure that the test data queue is created with a corresponding JSON schema. This schema defines the structure of the data to be uploaded, ensuring that the items are correctly formatted and compatible with the test case execution.

NEW QUESTION # 66
Who can import projects in Test Manager?

- A. Anyone with access to the project.
- B. Only users that are specifically designated by the admin.
- C. Any user that has a valid Test Manager License.
- D. Only users who originally created the artifact in the ALM system.

Answer: B

Explanation:
In UiPath Test Manager, only users specifically designated by the admin can import projects. This ensures controlled access and prevents unauthorized or unintentional modifications to project structures and artifacts.

NEW QUESTION # 67
According to the troubleshooting Test Manager tips, what is one of the ways to resolve the following issue?

UiPath
Test cases could not be executed since no executable versions could be found. Only test cases published with the latest package version to Orchestrator can be executed.

- A. Re-link the faulty test case to the test set.
- B. Re-publish the project to Orchestrator.
- C. Unlink the automation in Test Manager.
- D. Duplicate the faulty test case within Studio.

Answer: B

Explanation:
The warning message indicates that the test cases were not available in the latest published package version. To resolve this, you need to re-publish the project to Orchestrator to ensure all test cases are included and executable.

NEW QUESTION # 68
What does the Total Coverage KPI from the UiPath Test Manager Dashboard measure?

- A. The percentage of requirements that have at least one test case out of the total number of requirements.
- B. The percentage of projects in a tenant that have at least one test case out of the total number of projects in that tenant.
- C. The percentage of manual test cases that are also automated.
- D. The percentage of projects in an organization that have at least one test case out of the total number of projects in that organization.

Answer: A

Explanation:
The Total Coverage KPI in the UiPath Test Manager Dashboard measures the percentage of requirements that have at least one test case linked to them, out of the total number of requirements. It reflects how well the requirements are being tested.

NEW QUESTION # 69

......

In order to meet different needs for UiPath-TAEPv1 exam bootcamp, three versions are available. You can choose the most suitable one according to your own exam needs. All three have free demo for you to have a try before buying. UiPath-TAEPv1 PDF version is printable, you can study them anytime. UiPath-TAEPv1 Soft test engine supports MS operating system, and have two modes for practice, and it can also stimulate the real exam environment, therefore, this version can build you exam confidence. UiPath-TAEPv1 Online test engine is convenient to learn, and it also supports offline practice.
