Latest CPRE-FL_Syll_3.0 Learning Material & CPRE-FL_Syll_3.0 Reliable Exam Sims

It is known to us that getting the CPRE-FL_Syll_3.0 certification is not easy for a lot of people, but we are glad to tell you good news. The CPRE-FL_Syll_3.0 study materials from our company can help you get the certification in a short time. Now we are willing to introduce our CPRE-FL_Syll_3.0 Practice Questions to you in detail, we hope that you can spare your valuable time to have a try on our products. Please believe that we will not let you down!

ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q175-Q180):

NEW QUESTION # 175

A version number is typically composed of which components? (Select 2 answers.)

- A. ID
- B. Serial number
- C. Version
- D. Day/month
- E. Increment

Answer: C,E

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The handbook states that version identifiers usually have at least two hierarchical parts: a version (major) and an increment (minor). For example, in "3.2", 3 is the version and 2 the increment; further qualifiers (build, date) may optionally be added. IDs, serial numbers or dates can be stored as additional attributes but are not the fundamental composition of the version number itself. Therefore, the standard structure is version plus increment, corresponding to options A and B.

NEW QUESTION # 176

Requirements conflict resolution is considered to be part of which major RE task?

- A. Documentation
- B. Management
- C. Validation
- D. Elicitation

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

According to the CPRE syllabus, Requirements Engineering comprises four major tasks: elicitation, documentation, validation and management. Elicitation is not just "collecting" requirements; it also includes dealing with conflicts that emerge when different stakeholders express incompatible needs, expectations or priorities. Conflict analysis, negotiation and resolution are therefore components of elicitation activities.

Validation focuses on checking correctness and quality of documented requirements, while management handles versioning, traceability and change control. Documentation is about representing requirements in suitable forms. Thus, conflict resolution is explicitly placed under elicitation.

NEW QUESTION # 177

You would like to design a requirements document in such a way that it is particularly well suited to the project participants who are to continue working with it. Please select from the following statements the two most appropriate assignments of requirement properties to participants. (1 Point)

- A. For all participants the requirements must be consistent.
- B. For the developers the requirements must be easily changeable.
- C. For the project manager the requirements must be evaluated.
- D. For maintenance the requirements must be testable.
- E. For the tester the requirements must be practicable.

Answer: A,C

NEW QUESTION # 178

Which of the following is NOT considered to be a RE major task?

- A. Tool support for RE
- B. Documentation of requirements
- C. Validation of requirements
- D. Elicitation of requirements

Answer: A

NEW QUESTION # 179

Taking a requirement as a reference, which type of traceability would be used to pinpoint which work product is based on this given requirement?

- A. Integrated traceability
- **B. Forward traceability**
- C. Traceability between requirements
- D. Backward traceability

Answer: B

NEW QUESTION # 180

.....

PDF4Test online digital ISQI CPRE-FL_Syll_3.0 exam questions are the best way to prepare. Using our IREB Certified Professional for Requirements Engineering. Foundation Level (CPRE-FL_Syll_3.0) exam dumps, you will not have to worry about whatever topics you need to master.
