Free Download Reliable 1Z0-1163-1 Source & Useful 1Z0-1163-1 Training Courses & The Best Oracle Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1

What's more, part of that It-Tests 1Z0-1163-1 dumps now are free: https://drive.google.com/open?id=1M8C9G9X74I-MY2Vooek6P2N2GSnmb1ns

You must believe that you have extraordinary ability to work and have an international certificate to prove your inner strength. You will definitely be the best one among your colleagues. The help you provide with our 1Z0-1163-1 Learning Materials is definitely what you really need. And if you study with our 1Z0-1163-1 exam braindumps, you will know your dream clearly. Join 1Z0-1163-1 study guide and you will be the best person!

Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details

Topic 1	• OMBPs for Procurement: This section tests the abilities of Procurement Specialists in managing procurement operations within Oracle Cloud Applications. It covers the flow of procurement processes, integration points with other SCM modules, and best practices for improving procurement efficiency. Candidates will gain insights into the key metrics used to evaluate procurement performance and cost-effectiveness.
Topic 2	• OMBPs for Sustainability: This section assesses the knowledge of Sustainability Specialists in integrating environmental and social responsibility into supply chain and procurement processes. It focuses on the benefits of aligning sustainability goals with business operations, ensuring compliance with global regulations, and implementing eco-friendly best practices.
Topic 3	• OMBPs for Logistics: This section tests the expertise of Logistics Coordinators in optimizing logistics and transportation management within Oracle Cloud Applications. It covers the process flows, best practices for logistics operations, and integration of different logistics modules. Candidates will understand performance metrics that impact supply chain visibility, efficiency, and customer satisfaction.
Topic 4	• Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.
Topic 5	• OMBPs for Innovation: This section evaluates the expertise of Supply Chain Innovation Analysts in leveraging SCM Innovation modules. It focuses on understanding the functionalities that drive product development and improving time-to-market. Candidates will explore key design considerations, best practices, and performance metrics that ensure faster product launches and enhanced innovation processes.
Topic 6	• OMBPs for Supply Chain Planning: This section assesses the knowledge of Supply Chain Planners in managing planning modules within Oracle SCM. It explains process flows, integration points, and how different planning modules work together. Candidates will learn about best practices for designing efficient planning workflows and key metrics used to measure supply chain responsiveness and effectiveness.
Topic 7	• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.

1Z0-1163-1 Training Courses, 1Z0-1163-1 Valid Exam Registration

Our company provides three different versions to choice for our customers. The software version of our 1Z0-1163-1 exam question has a special function that this version can simulate test-taking conditions for customers. If you feel very nervous about exam, we think it is very necessary for you to use the software version of our 1Z0-1163-1 guide torrent. The simulated tests are similar to recent actual exams in question types and degree of difficulty. By simulating actual test-taking conditions, we believe that you will relieve your nervousness before examination. So hurry to buy our 1Z0-1163-1 Test Questions, it will be very helpful for you to pass your exam and get your certification.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q43-Q48):

NEW QUESTION # 43
Which key metric measures the effectiveness of the Demand to Management OMBP in Oracle Fusion Cloud SCM?

• A. Supplier Lead Time, which measures supplier response efficiency.

- B. Forecast Accuracy, evaluates the precision of demand predictions against actual market demand.
- C. Inventory Turnover, which tracks the speed of inventory movement.

Answer: B

Explanation:
For the Demand to Management OMBP, Forecast Accuracy is the primary metric, as it evaluates how precisely demand predictions match actual market demand, a foundational step in effective supply chain planning. Calculated as a percentage (e.g., actual demand of 800 units versus a forecast of 850 yields 94% accuracy), it directly reflects the OMBP's ability to drive downstream processes like procurement and production. Option B (Supplier Lead Time) measures supplier performance, which affects supply execution but not demand forecasting accuracy. Option C (Inventory Turnover) tracks inventory movement efficiency, an outcome influenced by forecast accuracy, not a direct measure of the OMBP itself. Accurate forecasts prevent overproduction or shortages-for example, overestimating demand by 20% could lead to $50,000 in excess inventory costs, underscoring the metric's importance.

NEW QUESTION # 44
Which feature in Oracle Fusion Cloud SCM assesses and approves suppliers based on compliance and performance criteria?

- A. Cost Accounting.
- B. Manufacturing Execution.
- C. Supplier Qualification Management.
- D. Supplier Portal.

Answer: C

Explanation:
Supplier Qualification Management (D) assesses and approves suppliers based on compliance (e.g., regulatory standards) and performance criteria (e.g., delivery reliability). For example, it might evaluate a supplier's 95% on-time delivery rate and ISO certification before approval. Option A (Cost Accounting) tracks costs, not supplier quality. Option B (Supplier Portal) facilitates communication, not qualification. Option C (Manufacturing Execution) manages production, not supplier vetting. This feature ensures reliable, high-quality suppliers, reducing supply chain risks and enhancing procurement outcomes.
Reference:
Below is the batch of questions formatted as requested, with comprehensive and detailed explanations verified against Oracle Fusion Cloud Applications SCM and Procurement documentation. Each explanation is extensive, covering the reasoning behind the correct answer, why other options are incorrect, practical examples, and the broader implications within the SCM or Procurement framework. All questions have four options, so the format includes A, B, C, and D. Note that Question 11 was included in this batch as it aligns with the pattern of your request.

NEW QUESTION # 45
Which feature in Oracle Fusion Cloud SCM tracks and manages real-time production processes?

- A. Cost Accounting.
- B. Inventory Management.
- C. Supplier Qualification.
- D. Manufacturing Execution.

Answer: D

Explanation:
Manufacturing Execution (C) in Oracle Fusion Cloud SCM tracks and manages real-time production processes on the shop floor, capturing data like work order progress, material usage, and labor hours. For example, if a worker completes 100 units, the system logs the time, resources consumed (e.g., 50 kg of steel), and any delays (e.g., machine downtime), providing live visibility. Option A (Supplier Qualification) evaluates suppliers, not production. Option B (Cost Accounting) analyzes costs post-production, not real-time processes. Option D (Inventory Management) tracks stock, not manufacturing activities. This feature ensures production aligns with schedules, identifies bottlenecks instantly, and feeds data into cost and quality systems, enhancing operational control.

NEW QUESTION # 46
What is a key benefit of Supplier Qualification Management in Oracle Fusion Cloud SCM?

- A. It assesses and approves suppliers based on compliance and performance criteria.
- B. It only tracks supplier payments.
- C. It eliminates supplier performance reviews.

Answer: A

Explanation:
Supplier Qualification Management in Oracle Fusion Cloud SCM evaluates and approves suppliers based on predefined compliance and performance criteria, ensuring reliable partnerships. Option A is incorrect as it focuses on payments, not qualification. Option C is wrong-performance reviews are integral to the process. This benefit mitigates risks and ensures quality suppliers.

NEW QUESTION # 47
How can Oracle Fusion Applications ensure that supply planning recommendations reflect the latest supplier information?

- A. Using separate forecasting models for procurement and supply chain planning.
- B. Increasing reorder points in inventory management.
- C. Implementing manual verification of supplier information before updating supply plans.
- D. By enabling real-time supplier collaboration to update supply planning with lead times and inventory availability.

Answer: D

Explanation:
Oracle Fusion Cloud SCM ensures supply planning recommendations are up-to-date by enabling real-time supplier collaboration through tools like the Supplier Portal and Supply Chain Collaboration features. This integration allows suppliers to provide current data on lead times and inventory availability, which is directly reflected in supply plans. Option A (manual verification) contradicts Oracle's automation-driven approach. Option B (increasing reorder points) is a reactive measure, not a solution for real-time updates. Option D (separate forecasting models) undermines the unified planning framework of Oracle Fusion. Real-time collaboration enhances planning accuracy and responsiveness.

NEW QUESTION # 48
......

With the help of performance reports of Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) Desktop practice exam software, you can gauge and improve your growth. You can also alter the duration and Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) questions numbers in your practice tests. Questions of this Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) mock test closely resemble the format of the actual test. As a result, it gives you a feeling of taking the actual test.
