- A. You can change the Alias of these default FCCS_ members at any time.
- B. You cannot change the Alias of these default FCCS_ members.
- C. You can change the default FCCS_ member prefix at application creation.
- **D. You can change the Name of these default FCCS_ members at any time.**

Answer: D

NEW QUESTION # 21

For which task categories is Audit enabled by default?

- A. No task categories
- **B. All task categories**
- C. Journals
- D. Data only

Answer: B

Explanation:

Audit is enabled by default for all task categories in Financial Consolidation and Close. Audit is a feature that allows you to track the changes made to data, metadata, security, application settings, etc. in Financial Consolidation and Close. You can view the audit records in the Audit page or export them to a file. Audit is enabled by default for all task categories, such as Data, Journals, Metadata, Security, etc., but you can disable it for specific task categories if needed. Oracle Financial Consolidation and Close 2023 Implementation Essentials Study Guide, page 85; [Oracle Financial Consolidation and Close Cloud Service Administrator's Guide], page 11-5.

NEW QUESTION # 23

Security is enabled for the Account dimension, but you have not assigned member access rights to any users or groups. What will be users' default access to members in the Account dimension?

- A. Comment

- B. None
- C. Write
- **D. Read**

Answer: D

Explanation:

The users' default access to members in the Account dimension when security is enabled but no member access rights are assigned is Read. This means that users can view data for any account member, but they cannot enter or modify data. Read is also the default access level for any dimension when security is enabled but no member access rights are assigned. The other options are not users' default access to members in the Account dimension when security is enabled but no member access rights are assigned. None means that users cannot view or modify data for any account member, which would prevent them from using the application. Comment means that users can view and comment on data for any account member, but they cannot enter or modify data. Write means that users can view and modify data for any account member, which would give them full access to the application.
