Pass Guaranteed Quiz 2026 NS0-901: NetApp Certified AI Expert Exam – Trustable Upgrade Dumps

The software version is one of the different versions that is provided by our company, and the software version of the NS0-901 study materials is designed by all experts and professors who employed by our company. We can promise that the superiority of the software version is very obvious for all people. It is very possible to help all customers pass the NS0-901 Exam and get the related

certification successfully.

Network Appliance NetApp Certified AI Expert Exam Sample Questions (Q61-Q66):

NEW QUESTION # 61

An MLOps team is using the BlueXP Workload Factory to automate the deployment of a Jupyter notebook environment for a new data scientist. The deployment job fails. The team reviews the job details in the BlueXP UI.

Job ID: 78a1c-2b3d-4e5f

Service: BlueXP Workload Factory

Action: Deploy JupyterHub on Kubernetes

Status: FAILED

Error Message: "Failed to create PersistentVolumeClaim 'jupyter-pvc-user01'.

User 'service-account- bluexp' does not have permission to 'create' resource 'persistentvolumeclaims' in cluster 'k8s-prod- cluster-01'."

What is the most direct way to resolve this issue?

- A. Increase the storage quota for the 'jupyter-pvc-user01' PVC.
- B. Manually create the PersistentVolumeClaim using 'kubectl'.
- C. Modify the Kubernetes RBAC (Role-Based Access Control) configuration to grant the 'service- account-bluexp' the necessary permissions to create PVCs in the target cluster.
- D. Restart the BlueXP Connector to refresh its permissions.

Answer: C

NEW QUESTION # 62

An enterprise is planning a generative AI solution to power its internal support chatbot. The architect must choose between a RAG-based approach and fine-tuning a base model. The project stakeholders have provided a list of prioritized requirements.

| Requirement | Priority | Details

|

| | -- | |

| Factual Accuracy | Critical | Must use the latest product documentation, updated daily.

| | Brand Voice & Persona | High | Must respond in the company's specific, formal tone.

| | Development Cost | High | Limited budget for GPU compute hours for model training.

|

| Data Traceability | Critical | Must be able to cite the exact source document for each answer.

|

Which two recommendations should the architect make to best satisfy these requirements?

(Choose 2.)

- A. Prioritize fine-tuning to embed the company's brand voice and persona into the model.
- B. Recommend training a new LLM from scratch to ensure both brand voice and factual accuracy are built-in.
- C. Propose a hybrid approach where a base model is first lightly fine-tuned for persona, then used within a RAG system for factual grounding.
- D. Prioritize a RAG architecture to meet the critical requirements for factual accuracy and data traceability.
- E. Use RAG exclusively, as prompt engineering alone can fully replicate a specific brand voice and persona.

Answer: C,D

NEW QUESTION # 63

A data scientist needs to test a new data normalization technique. To do this, they require an isolated, writable copy of a 50 TB curated simulation dataset that resides on the NetApp ASA system. The operation must be completed as quickly as possible and consume minimal additional storage space. Which NetApp technology is the most appropriate solution for this requirement?

- A. NetApp SnapMirror
- B. NetApp FlexClone
- C. NetApp FabricPool
- D. NetApp XCP

Answer: B

NEW QUESTION # 64

An MLOps team uses a variety of platforms to manage their AI workloads. They need to understand the primary function of each tool within their ecosystem. Which statement best describes the role of an MLOps/LLMOps platform like Kubeflow or Run:AI?

- A. They are integrated development environments (IDEs) used exclusively for writing Python code.
- B. They are networking protocols designed to accelerate data transfer between GPUs.
- **C. They are orchestration and management platforms that automate and streamline the entire AI/ML lifecycle, from data preparation and model training to deployment and monitoring.**
- D. They are specialized storage systems designed to hold large datasets for training.

Answer: C

NEW QUESTION # 65

The architect is designing the complete, automated data pipeline from the on-premises data center to the Azure cloud for this medical imaging project. The design must prioritize security, efficiency, and reproducibility.

Which sequence of actions provides the most robust and automated solution?

- **A. Use BlueXP classification to scan the on-prem data; use a DataOps Toolkit script to trigger a FlexClone of the source volume for anonymization; use SnapMirror to replicate the anonymized clone to Cloud Volumes ONTAP; then begin training in Azure.**
- B. Use SnapMirror to replicate the raw, sensitive data to Azure first, then run BlueXP classification in the cloud to find PII.
- C. Manually copy raw data to Azure, run a cloud-based script to anonymize it, then start training.
- D. Use FabricPool to automatically tier all raw data to Azure Blob storage, then mount the blob container to the training VMs.

Answer: A

NEW QUESTION # 66

.....

We have 24/7 Service Online Support services, and provide professional staff Remote Assistance. Besides, if you need an invoice of our NS0-901 practice materials please specify the invoice information and send us an email. And you can download the trial of our NS0-901 training engine for free before your purchase. This kind of service shows our self-confidence and actual strength about NS0-901 Study Materials in our company. Besides, our company's website purchase process holds security guarantee, so you needn't be anxious about download and install our NS0-901 exam questions.

Reliable NS0-901 Test Questions: <https://www.torrentexam.com/NS0-901-exam-latest-torrent.html>

Since it is obvious that different people have different preferences, we have prepared three kinds of different versions of our NS0-901 practice test, PDF, Online App and software version, Network Appliance Upgrade NS0-901 Dumps They include PDF Version Demo, PC Test Engine and Online Test Engine, Network Appliance Upgrade NS0-901 Dumps Also the software has memory function that it can pick out mistakes you make and it will require you practice many times, Network Appliance Upgrade NS0-901 Dumps Thus your will have a good mentality for the actual test.

Our NS0-901 training engine will help you realize your dreams, While scope indicates what will be contained, granularity determines what will be known about each configuration item or relationship.
