## Check out a few resources to prepare for the PL-900 Exam:

There is a large number of resources available with which you can prepare for the examination. Some of them are as follows:

- Online resources - These are some online resources that you can study from, such as the Microsoft certification website, Microsoft Power Platform Fundamentals PL-900 test exam dumps, and also books. You can also search and watch any video to get an idea of the exam.
- Test materials - Test materials also help you in preparing for the exams by practicing all possible questions types and gives you ample guidance on how to answer them correctly. Assessment tools are also available on the dashboards for this exam.
- Exam preparation guides - There are guidebooks available to help you with the study material for this exam that would include a section on each topic that would include a set of questions that would test your knowledge regarding the subject. Capabilities for this would be very helpful especially if you are doing these on your own.

Several options like, above sources would be very much helpful in the preparation for the PL-900 Exam, but there are some limitations. It demands time, focus, and a lot of studies. Harder, you study the more focused you will become on the topic. Many paid courses are available on different tech sites which will improve your knowledge and will help you to cover all the subjects of the exam. Selection of the right material and also note-taking must be done in a proper manner to get the exam preparation completed. Shared information would be very much helpful. Display of your learning pattern is very important.

## Latest PL-900 Dumps Free | Guaranteed PL-900 Questions Answers

People need to increase their level by getting the Microsoft PL-900 certification. If you take an example of the present scenario in this competitive world, you will find people struggling to meet their ends just because they are surviving on low-scale salaries. Even if they are thinking about changing their jobs, people who are ready with a better skill set or have prepared themselves with Microsoft PL-900 Certification grab the chance.

Microsoft PL-900 (Microsoft Power Platform Fundamentals) Exam is designed to validate the skills and knowledge of individuals who are interested in working with the Microsoft Power Platform. PL-900 exam is ideal for individuals who want to learn about the

various components of the Microsoft Power Platform, including Power BI, Power Apps, Power Automate, and Power Virtual Agents. PL-900 Exam is a great way to demonstrate your competency and understanding of the Microsoft Power Platform, which is a suite of tools that enables users to build custom business applications and automate workflows.

## Microsoft Power Platform Fundamentals Sample Questions (Q361-Q366):

### NEW QUESTION # 361

You create a model-driven app.

The app is ready to be shared.

You need to complete the process required to set the app up to be shared.

How should you complete the process for setting up the app to be shared? To answer, drag the appropriate setting to the correct drop targets. Each source may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Step | Process |
|------|---------|
| 1    | Process |
| 2    | Process |
| 3    | Process |
| 4    | Process |

**Answer:**

Explanation:

| Step | Process                              |
|------|--------------------------------------|
| 1    | Select an app from the Power Apps    |
| 2    | Select Share.                        |
| 3    | Select the app and select a security |
| 4    | Select a user and choose a security  |

Explanation

| Step | Process                                    |
|------|--|
| 1    | Select an app from the Power Apps list.    |
| 2    | Select Share.                              |
| 3    | Select the app and select a security role. |
| 4    | Select a user and choose a security role.  |

Reference:

### NEW QUESTION # 362

An organization plans to create Power Platform solutions and is evaluating Microsoft Dataverse.

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

|  | Yes                   | No                    |
|--|-----------------------|-----------------------|
| Virtual table data is stored in Microsoft Dataverse. | <input type="radio"/> | <input type="radio"/> |
| Columns are used in forms and views.                 | <input type="radio"/> | <input type="radio"/> |

**Answer:**

Explanation:

|  | Yes                              | No                               |
|--|----------------------------------|----------------------------------|
| Virtual table data is stored in Microsoft Dataverse. | <input type="radio"/>            | <input checked="" type="radio"/> |
| Columns are used in forms and views.                 | <input checked="" type="radio"/> | <input type="radio"/>            |

Explanation

Graphical user interface, text Description automatically generated with medium confidence

|  | Yes                              | No                               |
|--|----------------------------------|----------------------------------|
| Virtual table data is stored in Microsoft Dataverse. | <input type="radio"/>            | <input checked="" type="radio"/> |
| Columns are used in forms and views.                 | <input checked="" type="radio"/> | <input type="radio"/>            |

Box 1: No

A virtual table is a definition of a table in the Dataverse platform without the associated physical tables for table instances created in the Dataverse database. Instead during runtime, when a table instance is required, its state is dynamically retrieved from the associated external system.

Box 2: Yes

Columns in forms: In the form designer, drag any columns from the Columns Explorer into the section on the form.
