題 (Q20-Q25):

問題 #20

Which style of leadership is more likely to be effective in dealing with a craft professional's negative attitude?

- A. directing
- B. buddy
- C. dictator
- D. controlling

答案: A

解題說明:

When dealing with a negative attitude, a directing (C) leadership style, which involves clear expectations, specific instructions, and close supervision, can be effective in redirecting the individual's focus and behavior towards productive tasks. A "buddy" approach (A) might not address the negativity effectively. A "dictator" style (B) can create resentment. While "controlling" (D) might seem similar to directing, it often implies a lack of trust and can be demotivating in the long run. The directing style aims to guide and set clear boundaries. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.3.3 Understanding Leadership Styles)

問題 #21

Which of the following statements is NOT correct regarding work site first aid?

- A. Onsite treatment may be able to determine the need to call for professional aid.
- B. Work site responders can prepare the injured while waiting for professional aid.
- C. Company first-aid responders must be CPR-certified.
- D. Prompt onsite treatment of injuries may prevent them from becoming more serious.

答案: C

解題說明:

While CPR certification is highly recommended and often a requirement for designated first-aid responders, the statement that company first-aid responders must be CPR-certified is not universally correct as a fundamental requirement in all circumstances. The level of first-aid training required can vary based on regulations and the specific risks of the job site. Work site responders are indeed expected to prepare the injured for further assistance (B), assess the situation to determine the need for professional aid (C), and provide initial treatment to prevent injuries from worsening (D). (OSHA 29 CFR 1926.50, Medical Services and First Aid; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.1.3 First Aid Requirements)

問題 #22

What form is used by employers to report work-related injuries and illnesses?

- A. IRS Form 1040A
- B. OSHA Form 300
- C. SDS
- D. DOT Form 75

答案: B

解題說明:

Employers are required to record and report work-related injuries and illnesses using the OSHA Form 300, Log of Work-Related Injuries and Illnesses (C), and related forms (OSHA Form 300A and 301). SDS (Safety Data Sheets) provide information about hazardous chemicals (A). DOT Form 75 relates to hazardous materials transportation (B). IRS Form 1040A is for individual income tax (D). (OSHA 29 CFR Part 1904, Recording and Reporting Occupational Injuries and Illnesses; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.2.4 OSHA Recordkeeping and Reporting)

問題 #23

How is accountability defined?

- A. as holding an employee responsible for completing a particular duty

- B. as having the power to promote someone
- C. as the power to act or make decisions in carrying out assignments
- D. as giving an employee a particular task to perform

答案： A

解題說明：

Accountability is defined as holding an employee responsible for completing a particular duty (D) or task to a certain standard. It involves the expectation that individuals will answer for their actions and the outcomes of their assigned responsibilities. Having the power to promote (A) is related to authority. Giving a task (B) is delegation. The power to act or make decisions (C) is authority or empowerment. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.4.3 Understanding Responsibility and Accountability)

問題 #24

Who does the crew leader typically report directly to on a construction site?

- A. superintendent
- B. owner
- C. safety manager
- D. architect

答案： A

解題說明：

The crew leader, as a first-line supervisor, is directly responsible for the activities of the work crew and typically reports to the superintendent or general foreman on the construction site. This individual oversees multiple crews and is responsible for the overall progress and coordination of the work. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.2.1 Reporting Structure)
