You may know that we are so popular for the passing rate of our OGEA-101 guide quiz is very high. Generally speaking, 98 % - 99 % of the users can successfully pass the OGEA-101 exam, obtaining the corresponding certificate. In addition, the content of our OGEA-101 Exam Materials is easy to learn and suitable for the public. No matter what your previous learning level is, there will be no problem of understanding.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.
Topic 2	<ul style="list-style-type: none">• Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.
Topic 3	<ul style="list-style-type: none">• Implementation Governance: This topic of The Open Group OGEA-101 Exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.
Topic 4	<ul style="list-style-type: none">• Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 exam measures their understanding of content organization and documentation.
Topic 5	<ul style="list-style-type: none">• ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.

Latest updated Instant OGEA-101 Access - How to Download for OGEA-101 Latest Study Plan free

Our OGEA-101 dumps pdf vce is absolutely the right and valid study material for candidates who desired to pass the OGEA-101 actual test. Now, please go and free download our OGEA-101 practice demo first. The questions & answers of OGEA-101 free

demo are parts of the complete exam dumps, which can give you some reference to assess the valuable of the OGEEA-101 Training Material. In addition, there is one year time for the access of the updated OGEEA-101 practice dumps after purchase. You will get OGEEA-101 latest study pdf all the time for preparation.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q102-Q107):

NEW QUESTION # 102

Consider the following statements

- 1 A whole corporation or a division of a corporation
 - 2 A government agency or a single government department
 - 3 Partnerships and alliances of businesses working together such as a consortium or supply chain
- What are those examples of according to the TOGAF Standard?

- A. Business Units
- **B. Enterprises**
- C. Architectures Scopes
- D. Organizations

Answer: B

Explanation:

Enterprises are examples of the scope of an architecture according to the TOGAF Standard. An enterprise is defined as any collection of organizations that has a common set of goals and/or a single bottom line. Enterprises can be whole corporations or divisions of a corporation, government agencies or single government departments, partnerships and alliances of businesses working together, etc. Reference: The TOGAF Standard | The Open Group Website, Section 2.1 Core Concepts.

NEW QUESTION # 103

Complete the sentence. The "Rationale" part of the recommended TOGAF template for Architecture Principles should:

- A. explain the requirements for carrying out the principle
- B. communicate the fundamental rule
- C. describe the relationship to other principles
- **D. state the impact to the business of adopting the principle**

Answer: D

Explanation:

In TOGAF, an Architecture Principle is defined using a structured template that includes several key elements such as Name, Statement, Rationale, and Implications. Each element serves a distinct purpose to ensure clarity, usability, and governance effectiveness.

The Rationale specifically explains why the principle exists and why it is important to the organization. It provides the business justification for the principle and describes the benefits of applying it. This includes outlining how adopting the principle supports business objectives, improves operations, reduces risk, or enables strategic outcomes. Therefore, the Rationale is closely tied to business impact and value, making option C the correct answer.

Option B is incorrect because communicating the fundamental rule is the role of the Statement, not the Rationale. Option A refers more to implementation guidance, which belongs to the Implications section, where the consequences and actions required to follow the principle are described. Option D is not part of the standard TOGAF template for principles.

By clearly stating the business impact, the Rationale helps stakeholders understand the importance of adhering to the principle and ensures alignment between architecture governance and business strategy.

Therefore, the correct answer is C.

NEW QUESTION # 104

Which of the following supports the need to govern Enterprise Architecture?

- A. The TOGAF standard cannot be used without executive governance
- B. The Stakeholders preferences may go beyond the architecture project scope and needs control
- C. The Architecture Project mandates the governance of the target architecture

- **D. Best practice governance enables the organization to control value realization**

Answer: D

Explanation:

This statement best supports the need to govern Enterprise Architecture. Best practice governance enables the organization to control value realization by ensuring that architectures are aligned with the enterprise's strategy and objectives, meet the quality and performance requirements, and deliver the expected benefits and outcomes. The Architecture Project does not mandate the governance of the target architecture, but rather follows the governance framework established by the enterprise. The TOGAF standard can be used without executive governance, but it is recommended that executive sponsorship and support are obtained for successful architecture development and transition. The Stakeholders preferences may go beyond the architecture project scope and need control, but this is not the primary reason for governing Enterprise Architecture. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.6 Architecture Governance.

NEW QUESTION # 105

The _____ ensures that a project transitioning into implementation also smoothly transitions into appropriate Architecture Governance.

- A. Migration Plan
- **B. Implementation Governance Model**
- C. Transition Plan
- D. Implementation Strategy

Answer: B

Explanation:

The Implementation Governance Model is a framework that defines the roles, responsibilities, processes, and standards for governing the implementation of the target architecture. It ensures that a project transitioning into implementation also smoothly transitions into appropriate Architecture Governance, which is the practice of ensuring compliance with the enterprise architecture and its principles, standards, and goals. The Implementation Governance Model is part of the Implementation and Migration Plan, which is the output of Phase F: Migration Planning of the Architecture Development Method (ADM)¹² References: 1: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 21: Phase F: Migration Planning 2: The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 50: Architecture Governance

NEW QUESTION # 106

Consider the following statement:

According to the TOGAF Standard a governed approach of a particular deliverable will ensure a system of continuous monitoring to check integrity changes decision-making and audit of all architecture-related activities Which deliverable is being referred to?

- A. The Architecture Vision
- B. The Architecture Definition Document
- C. The Statement of Architecture Work
- **D. An Architecture Contract**

Answer: D

Explanation:

An Architecture Contract is a deliverable that specifies the responsibilities and obligations of the parties involved in the implementation and governance of an architecture. It ensures a system of continuous monitoring to check integrity changes decision-making and audit of all architecture-related activities. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.4 Architecture Contracts.

NEW QUESTION # 107

.....

Many people think that passing some difficult The Open Group certification exams needs to be proficient in much of OGEA-101 expertise and only these The Open Group personnels who grasp the comprehensive knowledge would be able to enroll in the exam.

In fact, there are many ways to help you make up for your lack of knowledge, and pass the OGEA-101 Certification exams in the same. Perhaps you would spend less time and effort than the people who grasp fairly comprehensive expertise. The saying goes, all roads lead to Rome.
